3. Anjanapur Reservoir, across the river Kumbdavathi in Shimoga Dist. Height 70 feet, length 4,200 feet, capacity 600 mft. Twelve thousand acres of land are fed by the reservoir which has possibilities of further extension.

4. Marconahalli Reservoir, across the river Shimsha in Tumkur Dist. The dam is 65 feet high. The speciality of the dam is the introduction of volute siphons (invented by Mr. V. Ganesh Iyer, Retired Superintending Engineer, Mysore) in the body of the masonry dam for the disposal of floods. The extent of irrigation developed so far is 10,000 acres and there is scope for further extension by utilising the seepage water. The capacity of the reservoir is 2,800 mft.

5. Kanya Reservoir, in Bangalore district. Length 4,700 feet; height 60 feet, capacity 1,000 million cft. Designed to irrigate 5,000 acres of which 3,000 acres have been so far developed. Five flood siphons each of dimensions 17 feet long and eight feet deep as designed by Mr. V. Ganesh Iyer have been installed for the disposal of flood waters.

6. Hirebhasgar Reservoir, across the river Sharavathi in Shimoga Dist. Storage capacity 25,000 mft.; length 1,150 feet; maximum height 100 feet. Water stored in this reservoir is to be utilised only for power generation at the Mahatma Gandhi Hydro-Electric Works at Jog Falls.

Some major irrigation projects under construction are :

Bhadra, estimated to cost Rs 17.75 crores and irrigate 2.34 lakh acres. Up to Dec. 1955 about Rs. 5.29 crores were spent on it.

Tunga, estimated to cost Rs 2.31 crores and irrigate 21,000 acres. Up to Dec. 1955 Rs. 1.69 crores were spent on it.

Nugu, estimated to cost Rs. 2.44 crores and irrigate 20,000 acres. Up to Dec. 1955 Rs. 2.04 crores were spent on it.

Ambilgola, estimated to cost Rs. 56 lakhs and irrigate 7,000 acres. Up to Dec. 1955 Rs. 6.5 lakhs were spent on it.

Ghataprabha Left Bank Canal, estimated to cost Rs. 5-45 crores and irrigate 1-2 lakh acres. Upto Dec 1955 Rs 1.75 crores were spent on it. The Districts to benefit are Belgaum and Bijapur.

The Tungabhadra Dam is situated on the river Tungabhadra at Malapuram, three miles from Hospet in the Bellary District of Mysore State. This is a joint project of the Governments of Andhra and Mysore.

### CO-OPERATION

The number of different types of co-operative societies in Mysore State is given below.

Agricultural Co-operative Societies 5,650, Marketing 135; Non-Agricultural 1,105; Farming 30, Grain Banks 1,163, Itanjan and Depressed Class 202, Weavers 370, Sericulture 11; Silk Handloom Weavers 1; Industrial 630, Co-operative Printing Works 1, Rural Industrial Co-operative Financing Bank 1, Co-operative Apex Banks 8, Co-operative Land Mortgage Banks 7, Cotton Handloom Weavers 1, District Central 10, House Building 181, Co-operative Institute 1, Artisans 33, Consumers 680, Multipurpose 1,662, Students 15, Social Services 9, Ladies 40, Producers 32, Federal 169, General 24, Other kinds 52.

The total working capital in the former Mysore State was Rs. 1,932 lakhs in 1951-55, and the paid up capital Rs. 221 lakhs.

In Bombay Karnataka the share capital was about Rs. 162 lakhs and the working capital Rs. 1,092 lakhs.

In Hyderabad Karnataka the total working capital was about Rs. 128 lakhs.

### ELECTRICAL POWER

Particulars relating to the year 1956-57 (estimated) for the whole State are given below. The figures are in million KWH's.

Generated 829.153

Domestic or Residential :

Heating and small power, 17.579; Lights and fans, 31.485; Commercial lighting and fans, 19.102.

Industrial Load :

Low and medium voltage below 100 H.P., 61.895; High voltage above 100 H.P., 138.698; Public Lighting (Street Lighting), 13.477; Irrigation and Agricultural dewatering, 15.000; Public Water Supply Works, 42.964; Bulk supplied, 31.735.

The number of installations as in 1957 are given below:

Lighting: 180,334; Heating 9,567; Power 10,598; Irrigation pump sets 9,263; Street lights 45,226.

No. of towns and villages electrified 1,368.

In the former Mysore State area the total capacity of the power plants installed is about 179,200 kW and total effective capacity 142,000 kW.

Names of power stations now in operation with their capacity within brackets: Mahatma Gandhi Hydro-Electric Station (Jog Falls—Shimoga Dist.) (120,000 kW); Shimsha Station: (Shimshapura—Mandya Dist.) (17,200 kW); Shilvasamudram Station (42,000 kW).

Power projects under execution—location, etc.: Bhadra project, Chikmagalur Dist., capacity 17,000 kW, cost about Rs. 20 crores. The project was started in 1947 and is to be completed during the second Five-Year Plan. When completed, it will be one of the biggest multi-purpose projects in the country. The Union Government and the Mysore Government have both financed the scheme.

At present the supply of power in the Kannada districts of former Bombay is in the hands of private companies which have small generating (thermal) stations for supplying power to towns.

Similarly in the former Hyderabad, Madras and Coorg regions, the only source of supply are some thermal stations. The completion of the Tungabhadra project will enable these areas to enjoy the benefits of hydro-electric power for the first time.

### LARGE-SCALE INDUSTRIES

Position in the area of the former Mysore State:

Main large-scale industries in the State with location: Textiles (Bangalore, Davangere, Bellary, Mysore); Engineering (Bangalore, Harihar); Mineral and Metal (Bangalore, Bhadravathi, Bellary, Kolar, Shimoga); Food, drink and tobacco (Bangalore), Chemicals, dyes, etc. (Bangalore, Mysore); Paper and printing (Bhadravathi, Nanjangud and Bangalore); Process relating to wood, stone and glass (all over the State); Process connected with hides and skins (Bangalore); Gins and presses (Davangere and surrounding areas).

Industries owned by State Government: The Central Industrial Workshop, Bangalore; The Mysore Iron and Steel Works, Bhadravathi; The Government Soap Works, Bangalore; The Mysore Silk Weaving Factory, Mysore; The Government Porcelain Factory, Bangalore; The Mysore Implements Factory, Hassan; The Government Dichromite Factory, Belagola, near Mysore; The Government Electric Factory, Bangalore and The Silk Filature Factory, Kanakapura.

Other major industries: The Hindustan Machine Tools Ltd.; Bharat Electronics Ltd.; The Hindustan Aircraft Ltd., Bangalore; The Indian Telephone Industries, Bangalore; The Radio & Electrical Manufacturing Co., Bangalore; The Mysore Lamp Works, Bangalore; The Mysore Paper Mills, Bhadravathi; The Mysore Sugar Company, Mandya and The Mysore Industrial & Testing Laboratory Ltd., Bangalore, Kirloskar Electric Co., Bangalore.

Total number of registered factories: 891.

Number of factories in individual industries: Textiles (120); Engineering (120); Minerals and Metals (45); Food, drink and tobacco (170); Chemicals, dyes (30); Paper and printing (23); Process relating to wood, stone and glass (63); Process connected with hides and skins (30); Gins and presses (22); Miscellaneous (231).

Total number of workmen employed 110,000.

Number of workers employed in individual industries: Textiles (29,000); Engineering (24,000); Minerals and Metals (30,000); Food, drink and tobacco (12,500); Chemicals, dyes (3,000); Paper and printing (2,430); Process relating to wood, stone and glass (3,610); Process connected with hides and skins (2,000); Gins and presses (1,000); Miscellaneous (2,560).

(About 60 per cent of the industries in the State is controlled by the Government.)

The main industries in the former Bombay area are textiles, paper and printing and processes relating to wood, stone and glass. The textile industry supports the largest number of workers. There are three textile mills in Dharwar and one in Belgaum.

In the former Hyderabad area, the major industries are (1) the Hyderabad Gold Mines Co. Ltd., (2) the Associated Cement Companies Ltd., Shahabad and (3) MSK Mills Ltd., Gulbarga (Textiles).

The cashewnut industry is one of the most important both in North and South Kanara. In South Kanara it gives employment to about 5,500 workers. South Kanara produces 2,880 tons of nuts. Besides, about 9,000 tons of cashewnuts are imported from Africa for processing in the local factories.

There are no large scale industries in Coorg except one coffee curing works, a tile factory and a few rice mills.

Figures are available for the output of certain chemicals for the whole State (figures in tons).

Nitric acid 10; sulphuric acid 3,890; alum 210, aluminium sulphate 657; ammonium sulphate 2,363; magnesium sulphate 152; copper sulphate 1,150; superphosphate 2,323; potash alum: 4.

Quantity of fine gold produced in ounces in 1953: 211,068; Value: £36,18,854.

Quantity of fine silver produced in ounces in 1953: 14,167.

### LABOUR

Position in former Mysore State area:

Average daily number of workers in registered factories: (Men 80,000; Women 10,000; Children 1,000).

Number of industries in which a minimum wage is fixed: All industries mentioned in the Central Minimum Wages Act and minimum wages fixed according to provisions of the Act.

Cost of living index: The working class cost of living index for Bangalore 319.8 points, for Mysore 321.8 points; Kolar Gold Fields 371.1 points. (These are calculated with 1935-36 as the base.)

Number of strikes and lockouts in 1951-55: 29.

Number of workers involved 22,395.

Number of man days lost 1,63,779.

Number of trade unions 179 (1951-55).

Total membership 77,723 (1951-55).

Number of labour welfare centres: 10 (1953-54).

### COTTAGE INDUSTRIES

Position in the area of the former Mysore State

Main cottage industries: Leather stitching and ornamental work, flaying, brass works, tannery and smithy, pottery, mat weaving, lacquerware, carpentry, basket-making, tile-making, hand-made paper, cor industry, rattan industry, sandalwood and ivory inlay works, toy-making, druggists, palm gur from Nira, agarbatti, glazing, etc.

The raw silk industry is carried on on a cottage industry scale; about 55,000 families are directly engaged in this industry: total production 160,000 lbs; income to the Government: Rs. 6 crores.

Number of cottage industries under the Department of Industries: 60.

Value of total production: About Rs. 70,000.

Value of production of individual industry: Tannery (Rs. 6,000); Leather Stitching (Rs. 1,000); Smithy (Rs. 33,000); Pottery (Rs. 5,500); Rattan (Rs. 3,000); Mat-Weaving (Rs. 2,000); Cor Centre (Rs. 4,800); Hand-made Paper (Rs. 2,000); Lacquerware (Rs. 500); Volegari (Rs. 400); Carpentry (Rs. 4,000); Tailoring (Rs. 2,000); Brass Works (Rs. 1,910); Palm Gur (Rs. 900); Oil Gana (Rs. 5,000); Glass Bangles (Rs. 900).

Total number of workers in cottage industries: About 25,000 (excluding the silk industry).

The former Bombay area being a cotton producing area, hand-spinning and weaving are a subsidiary occupation of the farming community. Almost every homestead produces some coarse yarn and cloth for domestic consumption. Sheep breeding is another industry, supporting the local woollen industry. The woollen blankets of Ranibennur are famous. In North and South Kanara, bee-keeping and bamboo work are among the most important indigenous industries. Coffee works are prominent in South Kanara and Coorg.

In the cotton growing tracts of Bijapur, Belgaum and Dharwar, the handloom industry is the main urban handicraft. Metal work and toy making industries are located in Belgaum and Gokak.

In the former Hyderabad area, agriculture is the mainstay. About three per cent of the population is engaged in cottage and small scale industries. By far the largest number of people are employed in cotton and woollen weaving, cement products and pottery, bee-keeping and basket-making industries. Tanning, silver inlay work, oil crushing, salt making, gur making, beedi and soap manufacture are other small scale industries in this area.

Chief minerals/location/quantity (annual average): Gold (Kolar, 193,967 ounces), Iron Ore (Bhadra, 206,920 tons), Asbestos (Chikmagalur and Bangalore districts, 30 tons), Chromite (Mysore, Mandya and Shimoga districts, 9,893 tons); Manganese (Shimoga, Chitaldrug, Bellary and Tumkur districts, 3,781 tons); Mica (Mandya, Hassan, Mysore and Shimoga districts, 50 tons); Kayolin (Bangalore, Chikmagalur districts, 10,390 tons); Other minerals (Corundum, feldspar, kyanite, magnesite, copper, lead, antimony, lime-stones, soap-stones and ornamental stones found in various parts of the State).

Total number of men employed : About 36,000.

Number of men employed in each mineral industry : Gold (25,900), Other minerals (10,100).

Total value of mineral production in a year : About Rs. 7 crores.

In the merged areas there is gold in the Hatti and Kappat ranges and the Abnivar and Malaprabha basins. The other important minerals are iron, manganese, bauxite, copper, saltpetre, beryl, building and ornamental stones, lime-stones, asbestos, chromite and sulphur.

### PUBLIC HEALTH

Total number of hospitals, dispensaries, etc. : 1,857.

Position in the area of the former Mysore State.

Commonest diseases with mortality in brackets : Malaria (15,700), T.B. (4,000), Plague (126), Small-pox (1,022), Cholera (1,642).

No. of special institutions including T.B. Clinics 104, general hospitals 47, general dispensaries 391, maternity homes and child welfare centres 196, primary health centres 187, secondary health centres 23, national malaria control units 6, ayurvedic and unani dispensaries 283, no. of registered medical practitioners (allopathic) 1,119, no. of Government doctors—men 633, women 166, no. of nurses 756, no. of health officers 200.

Medical colleges giving number of students within brackets: Medical College, Mysore: Allopathic (410); Ayurvedic College, Mysore: (130); Unani College, Mysore: (10); Medical Education Society's College, Bangalore: (100).

Medical Research Institutions: Pathological Laboratory (attached to Victoria Hospital, Bangalore); Cancer Research Institute (Victoria Hospital, Bangalore); Malaria Research Institute, Sakaleshpur; Ramanagaram Nutrition Centre; Central Vaccine Institute.

In the former Bombay area there are 84 allopathic medical institutions, 27 hospitals and 57 dispensaries. One institution serves about 255 square miles and a population of 62,000. There is a mental hospital in Dharwar. Besides, there are 134 subsidised medical practitioners. About 1,050 Ayurvedic practitioners and 50 Unani practitioners have registered themselves under the Bombay Medical Practitioners Act. Registered allopathic medical practitioners number 609. North Kanara and Dharwar are very malarious districts.

There are 43 allopathic hospitals in the Kannada areas of former Hyderabad. On an average, one institution serves an area of 431 square miles and a population of 87,759. There

are 30 Ayurvedic and Unani dispensaries. Vaidic practising in villages are given grant in aid by the Government. Leprosy clinics have been attached to hospitals and dispensaries in this area. Guinea worm disease is endemic in the dry areas of Raichur and Bidar districts.

In South Kanara, there are 18 hospitals and dispensaries and 19 local fund dispensaries with a total bed strength of 607. The Government Headquarters hospital and the Government Lady Goshen hospital at Mangalore are the two biggest hospitals in the district with 116 and 120 beds respectively. One hospital serves an area of 88 square miles and a population of 47,270.

There are 12 hospitals and four dispensaries administering allopathic medicines and one hospital and two dispensaries administering ayurvedic medicines in Coorg. The total bed strength in the wards attached to the hospitals is 507. Under allopathy one hospital serves 99 square miles and 11,312 persons.

Coorg was highly malarial and measures for the eradication of malaria was the most important public health activity undertaken by the Government. By regular spraying of DDT, the incidence of this disease has been brought down from 250 per 1,000 of population in 1916 to 16.7 per 1,000 in 1953.

### EDUCATION

Total : 27,610.

Professional Colleges would be broken down as follows. The number of students is shown in brackets.

Education and teachers' training 5 (321), Medicine 3 (1,056), Commerce 4 (1,432), Law 3 (496), Agriculture 2 (257), Engineering 5 (2,449), Textiles 2 (89).

### TRANSPORT

The position in relation to transport in the area of the former Mysore State as in March 1956.

The position as in 1956 (Latest available) :

Total mileage of roads : 13,800 miles.

Mileage of metal roads : 5,800 miles.

Mileage of unmetalled roads : 6,000 miles.

Concrete and asphalted roads : 500 miles.

Mileage of roads maintained by P.W.D. : 2,315 miles (including 330 miles of national highways).

Mileage of roads maintained by district boards : 4,589.

Total mileage of railways : 900.

Number of aerodromes : Four.

Number of passenger service buses : 2,500.

Number of goods carrying trucks and lorries : 3,400.

Number of taxis : 250 (Autorickshaws : 120 excluded).

Number of private cars and jeeps : 5,000 (Motor cycles 1,000).

Number of post offices : 850; Telegraph offices : 125.

Number of broadcasting stations : One (in Bangalore)

Transport on several routes has been nationalised in the State under the name of Mysore Government Road Transport Department. It is a Government department.

Capital invested : Rs. 8,61,776.

Total mileage covered : 14,155 miles daily.

Six routes have been monopolised.

Number of passenger vehicles : 200.

Daily average of passengers carried : 21,611.

Gross receipts of authority : Rs. 50,00,000 (1954-55).

Total expenditure : Rs. 47,50,000 (1954-55).

Profit : Rs. 2,50,000.

In the former Bombay region, as in the other areas, there are national highways, State highways, major district roads and other district roads. There are 807.6 miles of village roads. Exclusive of these village roads, the average for the area works out to 21.5 miles of road length for every 100 square miles of area.

In the former Hyderabad region, the average is 8.6 miles for every 100 square miles.

The average for South Kanara is 26.2 miles for every 100 square miles.

Coorg is the only region that is not linked by railway.

### POTENTIALITIES

The area added to Mysore as a consequence of the re-organization of States has vast economic resources, though no scientific survey has been conducted to assess these yet. In point of variety and abundance, some of its resources, more particularly its food and commercial crops, are among the best in the country.

The Kannada-speaking areas of former Bombay, Madras, Hyderabad and Coorg are not very thickly populated. The density of population being slightly below the all-India average and the food resources being adequate, there is no undue pressure on land as in other parts of the country, although dependence on agriculture is almost of the same degree as elsewhere.

Absence of electric power has been the main cause of the industrial backwardness of this region. There is not a single major industry worth the name. There are, however, at least 30 sites, so far mapped, where hydro-electric power can be developed. Besides, the Mahatma Gandhi Hydro-Electric Project in the pre-organization Mysore State has plans for expansion to cover the entire Kannada-speaking area.

It is the oldest geological region in India. Karnataka's soils are next only in importance to its mineral wealth. Apart from their high fertility value in respect of food crops, they yield such important commercial crops as cotton, oilseeds, tobacco, indigo, mulberry, sugarcane, firewood, oak, bamboo, sandalwood and a myriad variety of forest produce. Tea, coffee,

cinchona, spices, eucalyptus, pepper, cardamom and rubber can also be added to this list. The area's black cotton soil is famous.

Minerals will be the bedrock of the future prosperity of this area. There is great variety and richness of mineral resources. As already mentioned, places where gold can be mined include Hatti, Kappat ranges, Alnavar and the Malaprabha basin. The other important minerals to be found are iron, manganese, bauxite, copper, salt-petre, beryl, building and ornamental stones, limestones, asbestos, chromite and sulphur.

High quality fish is available in abundance along the North Kanara coast. Auxiliary products like fish-oil, guano, paste, manure, maws, fins, and shells are also available. Salt is another important article which is available in abundance along the coast. Although this industry has dwindled in recent years, the North Kanara district alone can export 25,000 tons of salt every year. The salt resources of South Kanara are twice those of North Kanara.

The commercial importance of forest products of this area is, indeed, high. Timber ranks high. North Kanara produces one of the best Indian teaks.

### BUDGET 1957-58

Revenue: Rs. 50.93 crores.

Expenditure: Rs. 60.29 crores.

## BELGAUM DISTRICT

**Headquarters:** Belgaum.

**Talukas and Mahals:** Belgaum, Khanapur, Gokak, Athni, Parasgad, Sampgaon, Chikodi, Hukkeri, Rumdurg, and Raibag.

Belgaum District with Belgaum as its capital, is bounded on the north by Kolhapur and Satara South Districts; on the east by Bijapur; on the south by the Districts of Dharwar and North Kanara; on the west by the territory of Goa and Kolhapur District.

The area of the District is 5,158 square miles and the population according to 1951 census is 16,46,395. The languages spoken are Kannada and Marathi.

The country is a large plain studded with solitary peaks and broken here and there by the low ranges of Sahyadri hills. In the north and east the land is level and well-cultivated, but in the west it is intersected by spurs of the Sahyadri Range thickly covered in some places with forest. The District contains both black and red soils and produces mostly grains, pulses, oil-seeds, fibres and cotton. The average rainfall in Belgaum is 41.5 inches.

Belgaum, the District headquarters, has a very pleasant climate especially in the hot season and it is described as the 'Mahabaleshwar of the poor.' It has retained its historic importance in the form of an imposing fortress (which is just near Belgaum City) built in the Mogul period. It is a cantonment and a station on the Southern Railway. It is a busy centre throwing on all its sides well-maintained roads connecting the districts of Dharwar, Bijapur and North Kanara of Mysore State and also southern Maharashtra and the Goa territory. It is an important centre of the State Transport Bus Service. In view of this importance Belgaum is re-established as the Headquarter of the Belgaum Division of the new Mysore State. This Division has only four districts namely Belgaum, Dharwar, Bijapur and North Kanara.

There are a big travellers' bungalow and inspection bungalow for the Government touring officers and a well-furnished private hotel, Hotel Green. There are also a Civil Hospital, a Military Hospital, two well-equipped private hospitals and half a dozen maternity

hospitals in the city. The eye hospital of Padmashri Dr. Mody, the well-known eye surgeon, situated at Khasbag only a mile from Belgaum Railway Station is the pride of Belgaum. For the training of military cadets and also for the children of civilians there is a residential institution called King George Public School in the Camp and the well-known Mahratta Light Infantry Regimental Centre.

The health and sanitation of the Camp area is managed by the Cantonment Board and of the Belgaum City by the Belgaum Borough Municipality of more than a hundred years' standing. The official language of the Municipality is Marathi.

In the city and the Camp area there are four Colleges, two Arts, and Science Colleges, one Law College, one College for the training of Secondary School Teachers, all affiliated to the Karnatak University. There are about 19 High Schools of which five are exclusively for girls, which send up students for the S.S.C. Examination. There are also three Primary Teachers' Training Colleges, one Marathi and the other two Kannada. Other institutions worth mentioning are the Remand Home, the Rotary Club, the Theosophical Society, a Masonic Lodge, Vangmaya Charcha Mandal (Marathi Literary Society started in 1927), Karnatak Sahitya Sangh, Kalapasana Mandal and Varerkar Natya Sangh both devoted to cultural development especially the dramatic art. Besides these there are the Union Gymkhana, the Social Club and Kreedha Bhuvana, Belgaum Club and the Ladies Club for the recreation of Belgaum public.

It has literary associations managed by the lovers of Marathi and Kannada literatures and can be proud of a Free General Library of a hundred years standing with an imposing building of its own having a clock tower.

## BIDAR DISTRICT

*Area* : 2,082 ; *Population* : 552,141.

*Headquarters* : Bidar.

*Talukas* : Bidar, Humnabad, Bakli, Santpur.

The country is mostly flat with a gentle slope towards the east. The largest river is Karanja. The District has a dry, healthy climate.

The staple food crop is various kinds of jowar. Next come wheat, rice and bajra. There are no forests. The chief mineral is soapstone.

Prominent among the many relics of the paddy days is the fort of Bidar which contains the ruins of many palaces and mosques. The tombs of the twelve Bahman kings lie to the north-east of the town.

## BIJAPUR DISTRICT

*Headquarters* : Bijapur.

*Talukas* : Indl, Sindgi, Bijapur, Bagewadi, Muddebihal, Bagalkot, Hungund, Badami, Mudhol, Jamkhandi, Bilgi.

Bijapur District lies roughly between 15°49' and 17°29' North Latitude and 75°19' and 76°32' East Longitude. On the north it is separated by the river Bilma from Sholapur Dist. including the Akalkot Taluka, formerly a State ; on the east and south-east it is bounded by Gulbarga and Raichur districts, on the south by the District of Dharwar and on the west by the Districts of Satara South (also called Sangli) and Belgaum.

The area of the District since the exclusion of Ramdurg Taluka is reduced to about 6,563 sq. miles and the population according to 1951 census is 1,396,185. The majority of the people are Lingayats. Both Kannada and Marathi are spoken. The court language is Kannada.

The District has a rich soil but rains are uncertain, the average rainfall varying between 18 and 22 inches. It is one of the famine districts of the State. The staple crops are jowar and wheat but cotton, groundnut, bajri, pulses, linseed, sesamum and safflower are also largely grown. Bijapur and Bagalkot are the two important market centres, the former exporting cotton, jowar, wheat, groundnut, linseed, sesamum and bajri on an extensive scale. Ilkal in Hungund Taluka and Guledgi in Badami are two other commercial centres. Ilkal is known for 'Ilkal saris' the export of which exceeded 3 lakhs of rupees a year at one time. Rabkavi, Mahalingpur and Terdal in Jamkhandi Taluka are three power-loom centres, exporting fashionable sarrees and petals on a large scale. Handloom industry is the main industry of the District with about 30,000 handlooms, employing nearly 150,000 weavers. The cement factory is called 'The Bagalkot Cement Co., Ltd., Bagalkot' and is under the management of Tendular Industries Ltd. Cholkhans are the chief exporting handloom production Centre in Badami Taluka.

Bijapur is an attractive tourist centre possessing a large treasure of historical monuments of architectural importance including the famous "Gol-Gumbaz" with its Whispering Gallery, a World-Wonder. Besides, the district has the earliest Hindu Temples of the 4th century, at Pattadakal and Aiholi near Badami which has rock-cut cave temples of an earlier period than Ajanta and Ellora. Thus from the tourists' point of view, Bijapur should be second to Delhi and Agra as a Tourist Centre. Important Hindu pilgrimage centres are "Bala-Shankari" at Badami ; Inchageri a seat of Sadhus about 27 miles from Bijapur ; Dr. Ranade Nimbal Ashram about 24 miles from there, being the second Railway Station from Bijapur on Sholapur side.

### AGRICULTURE

Bijapur is mainly an agricultural district growing as stated above jowar, bajri, wheat, cotton, groundnut, pulses, linseed, sesamum, and safflower. There are two Agricultural Produce Market Committees one at Bijapur and the other at Bagalkot for the regulation of trade. Jowar, bajri and wheat are exported on a large scale to deficit areas, while the cash crops of cotton and groundnut are exported to Sholapur and Gokak Mills, and to Bombay and Marmugao respectively. Linseed goes to Bombay and sesamum to Madras State while safflower is consumed by local Ghanis. Grapes are now widely cultivated by Bijapur gardeners, Babanagar on Bijapur-Jath road about 12 miles from Bijapur being the chief grape producing centre. Pomegranates are largely grown in Kolhar in Bagewadi Taluka and kalmoti in Bagalkot Taluka. Onions and beet leaves in Bagewadi and lemons in Indl and Sindgi are largely grown and exported to Sholapur and Hubli, etc.

The necessity of major and minor irrigation projects was acutely felt in Bijapur after the famine of 1916. Over five thousand irrigation wells were sunk under a subsidy scheme in Indl, Bijapur and Sindgi talukas and several gardens were cropped up. Three major irrigation tanks at Ramnahlali in Sindgi, at Areshankar in Bagewadi and at Kalaskop in Bagalkot Taluka were constructed and completed last year at a cost of nearly one crore of rupees and about ten thousand acres of cultivable land was brought under irrigation. Out of seven lift irrigation schemes only two continue to function and the rest have been closed as they were found running at a loss.

Transport facilities. Bombay State Transport Service functioning in the District has now been taken over by the new Mysore State with its Head Office at Hubli. It has a workshop at Bijapur. It has a monopoly of entering passenger service maintaining also a big fleet of goods trucks. Passenger service buses go direct to Belgaum throughout the year over a level bridge across the Krishna which was completed and thrown open for traffic since last year.

There are as many as 308 Village Panchayats in the District. The annual income of a dozen of them exceeds Rs. 15,000.

There are a Merchants' Association, a Shroffs' Association, Kirana Merchants' Association and Stationery Merchants' Association at Bijapur. In addition to these, there are a Bailiffs' Association, a Post and Telegraph Workers' Union, a State Transport Workers' Union, Government Servants' Association, a Hammals' Union, and Municipal Kamgars' Union, all being at Bijapur only.

One Community Project Block worth Rs. 15,00,000 was fully implemented in 58 villages in Indi Taluka. It was inaugurated on October 2, 1953 and was completed on October 2, 1956. Three National Extension Service Schemes one in each taluka of Badami, Sindgi and for the rest of the Indi Taluka, each worth Rs. 9,00,000 are now under implementation.

Bijapur District Khadi and Gramodyoga Board has opened Ambar Charkha Centres, 4 at Bijapur, one each at Torvi, Tikota, Bijargi and Honwad in Bijapur Taluka and about half a dozen centres in Muddebihal Taluka. At present training is imparted to only ladies and 20 such trainees are admitted at each Centre. This Board is running a Soap-making and Match-box manufacturing factory at Bijapur and Jamkhandi. It is also running a Khadi and Gramodyoga Vidyalaya at Jamkhandi, there being 40 students on its roll.

The Southern Railway runs right through the District from north to south.

There is a Government Civil Hospital with a maternity ward and an eye-hospital with accommodation for indoor patients run partly by the Blind Relief Association and partly by Government at Bijapur, and two free dispensaries, one ayurvedic and the other allopathic conducted by the Bijapur Municipal Borough.

Bijapur District has more than 16 Government subsidised Dispensaries both ayurvedic and allopathic in taluka towns and important village centres conducted by the District Local Board.

There is a first grade Arts College at Bijapur with F. Y. and Inter-Science classes. Another Arts College is located at Bagalkot with F. Y., Inter Arts and Inter Science classes. There are six Boys' High Schools and one A. K. Girls' High School at Bijapur and two at Bagalkot. There is a Kindergarten School under the auspices of the "Tilak Kanya-Shala."

There is a Government Industrial school in addition to a leather tanning factory and a leather work school. Government have opened an Agricultural School at Bagalkot.

The Vijaya College was started in 1945 at Bijapur by the Bijapur Lingayat District Educational Association, Bijapur. The college is affiliated to the Karnatak University, Dharwar.

A new Wachanalaya called "Jay-Hind" for catering for the needs of Bijapur Marathi reading public is functioning.

#### COMMERCE AND INDUSTRY

There is an oil mill at Bijapur providing work to about 200 workers. Bijapur has also biscuit and soap factories, handloom centres at Dargah (a suburb of Bijapur), Terdal, Rahkavi and Bannatti (where several hundred handlooms, and

about 60 power looms are operating to turn out a large variety of saris), 60 spinning factories working during cotton season only, slate and tile factories, glass bangles and copper and brass industries. Country carpets and blankets are made in several villages in Bagalkot, Hungund, and Badami Talukas and Bilgi Petha. There is a wool-weaving demonstration centre at Kundargi where weavers are trained in improved methods in wool-weaving. A Government sheep breeding farm is situated at Anagwadi where improved types of wool are produced. Fine white building stones are exported from Badami and grinding stones from Muddebihal. Shahabadi type slates of various dimensions are quarried and exported in abundant quantities from Talikot, Kaladgi and Minajgi. There is a factory at Bagalkot for manufacturing glassware of all kinds. Oil crushing is done by country ghanis throughout the District and soon oil expellers will be set up at Bagalkot.

In 1949 an experiment on Ghayapati a wild plant was successfully made to use it as a suitable substitute for jute. Since then, the industry has made rapid progress at Bijapur where there are at present more than a hundred looms working day and night producing hundreds of bhatahs every day.

A Sarvodaya centre is functioning at Kaladgi in Bagalkot Taluka.

## COORG DISTRICT

**Area** : 1,586 sq. miles ; **Population** : 229,405 ; **District Headquarters** : Mercara ; **Talukas** : North Coorg, South Coorg.

Coorg, a former Part "C" State, now a part of the new Mysore State, is bounded along its entire western frontier by the mountain chain of the Western Ghats. The Western Ghats curve somewhat inland and thus also serve to some extent as the northern and southern boundaries. In the north Coorg is partially separated from the forest highlands of Mysore by the rivers of Kumaradhara and Hemavathi, and on the east it merges into the general tableland of Mysore, the boundaries being marked by the river Cavery which is known as the Ganges of South India and a famous place of pilgrimage. Coorg is a hilly country with a rainfall of on an average from 80 to 120 inches with evergreen, deciduous and semi-deciduous forests.

Coorg was annexed by the British authorities in 1834 ; for some time it remained as a separate entity, governed by the Government of India, through a Chief Commissioner. It was given a Legislative Council in 1921 consisting of 20 members (15 elected members and 5 nominated members of whom 4 were officials and

one non-official to represent the communities known as Holeyas, Kurubas, Madigas and Yeravas) with the Chief Commissioner as its President. The number of elected seats was reduced to 18 in 1949 as a result of the abolition of two seats set apart for Europeans, bringing the total number of seats to 18.

Coorg was a separate State under the Constitution of India and was termed as a Part 'C' State. Under the Government of Part 'C' States Act, 1951 (Central Act XLIX of 1951), Coorg was given a Legislative Assembly consisting of 24 members made up of 18 general seats, 3 seats for Scheduled Castes and 3 seats for Scheduled Tribes, with power to elect its own Speaker and Deputy Speaker. Under the same Act a popular Ministry was also set up to aid and advise the Chief Commissioner. Coorg was allotted one seat in the Lok Sabha of the Parliament of India and one seat in the Rajya Sabha combined with Ajmer.

The Coorg district covering an area of 1,586 square miles has a population according to the 1951 census of 229,405. The population is made up of Coorgs, Gowdugals, Lingavats, Brahmins, Muslims, Christians and (Hajmans) Scheduled Castes and Scheduled Tribes. Kannada is the

chief language ; Kodagu (Coorg language) is a dialect of old Kannada.

Budget estimate of revenue for 1955-56 for the former Coorg State was Rs. 1.59 crores ; expenditure Rs. 1.91 crores ; deficit Rs. 0.32 crore.

Paddy, coffee, orange, pepper and cardamom are the chief agricultural produce. There is no large scale industry. Transport consists mainly of buses, lorries and bullock carts. The chief items of trade are coffee, orange, pepper, cardamom and rice. The 1955 estimates for rice crop was 70,000 tons. The whole district is covered by the community projects schemes. The output of honey is about 2 lakh lb.

The second grade college opened in June 1949 is now a full-fledged first grade college.

There are 11 high schools, 40 middle schools, 77 primary Junior Basic Schools, 86 Feeder Schools and 6 Nursery Schools. The percentage of literacy is 45.

There were in 1955, 18 hospitals and 16 dispensaries. The total number of patients treated was about 4 lakhs.

The total length of the district roads is 387 miles.

## DHARWAR DISTRICT

**Headquarters** : Dharwar.

**Talukas** : Hubli, Gadag, Navalgund, Haveri, Shiggaon, Hangal, Ron, Kalghatgi, Dharwar, Ranabennur, Hirakerur, Shirhatti, Mundargi, Nargund, Hyadgi, Kundgol.

Dharwar District is bounded on the north by the Districts of Belgaum and Bijapur, on the south by Shimoga and Chitaldurg Districts, on the east by Raichur and Bellary Districts ; and on the west by the District of North Kanara. The area of the District is 5,285 square miles and the population according to 1951 census 1,575,886. Dharwar District is roughly divided into two belts, characterised by differences of configuration, soil and products. To the north and north-east spread vast unbroken plains of black cotton soil which produce wheat and abundant cotton crops. Dharwar is the biggest cotton growing District in Mysore State. The western belt of the District is traversed by low hills, this tract consists of a succession of low ranges covered with herbage and brushwood. The ranges are separated by flat valleys, and it is to these valleys and the lower slopes of the hills that cultivation is chiefly confined. Farther west the country is still more hilly, and the trees increase in size towards the frontier of North Kanara. The Basel Mission carries on social and educational work. Dharwar, the headquarters town, is a station on the Southern Railway and is the cultural centre of what is popularly known as the North Karnataka region. It is also the seat of the **Karnatak University**, and a broadcasting station of **All-India Radio** started functioning in January 1950. Dharwar has two Arts and Science colleges, a college of Agriculture, a Law College, a Polytechnic and a Kannada Research Institute. The city of Hubli, 12 miles from Dharwar, is the biggest city in the District and is the Divisional Headquarters on the Southern Railway, with a railway workshop, an Arts College, a college of Engineering and a college of Commerce. Hubli is also known for its textile industry. The town of Gadag is another centre noted for its cotton trade and textile industry.

Headquarters : Gulbarga.

Talukas : Gulbarga, Chittapur, Yadgir, Shalapur, Shorapur, Jevargi (Andola), Afzalpur, Aland, Chincholi, Seruni.

Most of the land is almost flat, the slope being from north to south and south-east. A hill range, however, traverses the District from the west to a south-easterly direction. The principal river is the Bhura, a tributary of the Krishna. The other river is the Kagi.

Generally speaking the District is devoid of forests except in the hilly areas, which contain teak, copra, timar, babul, tan arund and mango. The plains are hot and dry, while the wooded hills are damp.

The average rainfall is about 29 inches, but it is capricious, causing occasional droughts.

In part of the area the black cotton soil predominates while part is sandy. The rain crops are white jawar, wheat, gram, cotton and linseed. The kharif crops are yellow jawar, bajra, castor seed, rice, linseed and hemp. The staple food crop is jawar, bajra, rice and wheat being next in importance.

The most important mineral found is laminated limestone, which occurs at Shalabad and is known as Shalabad stone, largely used for flooring and roofing. There is also a cement works in Shalabad.

The exports consist of jawar, bajra, cotton oilseeds and tobacco. The chief imports are salt, sugar, cotton and woollen stuffs, matches and kerosene.

**HASSAN DISTRICT**

**Talukas :** Mandya, Srirangapatna, Nagamangala, Krishnarajpet, Malavalli, Maddur, Pandavapura.

The District has a rainfall of 27.46 inches and a forest area of 51.7 sq miles.

Mandya, the District Headquarters Town, lies 25 miles north-east of Mysore on the Bangalore-Mysore Railway. It has a population of 21,158. Cultivation which is most extensively carried on is sugarcane. The Mysore Sugar Co., Ltd., a Government aided concern, has its factory here. The factory employs 1,200 persons daily. 25 to 30 thousand tons of sugar are manufactured annually. A distillery is attached to the sugar factory where molasses, a by-product is used for the manufacture of power alcohol. A confectionary is also attached to the sugar factory. Mandya is also a centre for the butter trade. Cart-making and weaving of woollen goods are other industries.

## NORTH KANARA DISTRICT

**Headquarters :** Karwar.

**Talukas :** Halyal, Sirsi, Kumta, Ankola, Karwar, Siddapur, Yellapur, Honnavar, Mundgod, Supa, Bhatkal.

North Kanara is a District on the Konkan Coast between 15°55' and 16°01' N. and 74°9' and 75°10' E. It is bounded on the north by Goa and the Belgaum District; on the east by the Dharwar and Shimoga districts; on the south by South Kanara and on the west by the Arabian Sea. The Sahyadri range of the Western Ghats varying in height from 2,500 to 3,000 feet runs through the District from the south to the north, dividing it into two tracts, the uplands or Balaghat and the lowlands or Payan Ghat.

Area : 3,975 sq. miles.

The total population according to 1951 census is 517,780.

Karwar, the headquarters of the District, possesses a fine natural harbour with great potentialities. The natural attractions of the country around, make Karwar a good health resort and a centre for tourists.

Agriculture is the mainstay of the people. Cultivable waste is about 60,000 acres. Barren and uncultivable land is about 45,000 acres. The net area sown is about 265,000 acres.

The net area irrigated is a little over 45,000 acres. The percentage of net area irrigated to net area sown is 18.90.

Paddy occupies 190,000 acres, ragi occupies 2,000 acres, black gram 2,000 acres and horse gram 2,700 acres.

Of the cash crops :— Sugarcane occupies 33,000 acres; coconuts 12,000 acres; mangoes 2,000 acres; bananas 4,000 acres; pine-apples 1,000 acres; sweet potatoes 900 acres; onions 400 acres; cashewnuts 1,200 acres; betel-nuts cover an area of 15,400 acres; pepper 2,000 acres, cardamom 600 acres; groundnuts 9,600 acres and betel-leaves 400 acres.

Rice which is most widely grown is responsible roughly for 75 per cent of the net cropped area. The average yield ranges from 5 to 40 maunds per maund of seed. The introduction of the Japanese method of cultivation has improved matters in many tracts and is responsible for larger yields. Another agricultural product the cultivation of which is fast developing in the loose sandy soil of Kanara is groundnut.

Roughly 83 per cent of the area of the district is forest. It approximates to 3,005 square miles.

The total population of fishermen is about 26,000. The average annual yield is about 20,000 tons. The chief variety is mackerel. There is a Mackerel Research Station at Karwar.

### ECONOMY

The W.I.P.R. passes through Supa and the distance covered by it is about 82 miles. There is no other major railway connection in Kanara.

Karwar-Bhatkal road is the national highway and so is the Kanara portion of the Bombay-Trivandrum national highway. Latterly the Government has been constructing a cement road on the highway Kanara-Hubli-Karwar—a distance of 102 miles.

The Mysore State Road Transport Corporation plies practically throughout the district with the monopoly of passenger traffic.

Vessels up to 10 tons can go up to a distance of 20 miles in Kali River and up to 18 miles in the Agrashini. The Sharawati takes boat traffic up to Gersappa, about 25 miles from Honnavar.

The steamers of the Scindia Steam Navigation Company touch Karwar, Tadri, Kumta and Bhatkal during the fair season.

The most important commodities of export are timber, fuel, charcoal, bamboos, manganese and sweet potatoes, onions and supari. Fresh fish is transported from almost all the ports by motor launches to Bombay. The principal imports are grains, sugar, pulses, kerosene oil, coconut oil, Mangalore tiles, etc.

The only mineral that is successfully tackled at present is manganese. In flourishing times about 20,000 tons were exported every year to dollar areas.

Among the important industries are the Government saw mills, and a plywood factory at Dandelli. A good many rice mills sprang up during the days of rationing. But this number is now decreasing and the pounding woman is fast taking the place of the mill.

Bee-keeping is a favourite industry initiated by Government and in a forest tract like Kanara it has a bright future. Already there are 4,500 colonies in the district and the honey yield is about 30 to 35 thousand lb. a year.

The total area covered with bamboos is 89,000 acres and lies mainly on the slopes of the Gangavli and Kali rivers.

An area of about 25,570 acres of forest is covered with very useful species of palm known as the tall palm. This provides annually about 1,500 mature palms yielding about 300 tons of edible sago flour giving means of subsistence to about 6,000 people. The chief produce is tall-chakki or pitch from which edible flour is prepared.

Baswarajadurga an island off Honnavar produces the best quality of Cavi or reddie which is used for painting houses.

## RAICHUR DISTRICT

Area : 5,436 sq. miles; Population : 953,040.

**Headquarters :** Raichur.

**Talukas :** Raichur, Manvi, Sindhnur, Ganganavati, Koppal, Yelburga, Kushtagi, Lingasur, Deodurg.

There is a range of hills extending from the west and north-west with two breaks. The general slope of the country is from the north-west towards the south-east. The most important river is the Krishna, which forms the boundary in the north; next the Tungabhadra which forms

part of the boundary in the south. The Bhima joins the Krishna on the northern boundary.

The most important trees are teak, ebony, bijasal, mango, tamarind, nim.

There are no large forests. The District is generally healthy except during the rains when fevers might prevail. The temperature during the year varies from about 110° F. to about 70° F. The average annual rainfall is about 25 in.

The chief antiquities are in or near the fort of Raichur. There are also the old forts of Deo-

durg and Yadgir, besides many temples and mosques.

The staple food crops are jawar and bajra. Cotton is also grown and so are rice and oilseeds.

The most important mineral is the auriferous quartz. Laminated limestone, Shahabad stone and talc are also found.

The principal exports are jawar and other foodgrains and oils and the chief imports salts, coconuts, sugar, kerosene and cloth.

Raichur town is of some commercial importance.

## SHIMOGA DISTRICT

*Area : 3,987 sq. miles ; Population : 663,315.*

*Headquarters : Shimoga.*

*Talukas :* Shimoga, Channagiri, Honnali, Shikaripur, Sorab, Sagar, Hosanagar, Thirthahalli, Bhadravati.

The District has an average rainfall of 56.98 inches and a forest area of 439.4 sq. miles.

Shimoga, the District headquarters town, has a population of 46,524. It is the biggest centre for area trade in the Malnad parts of the State. Rice, jawar, wheat, ragi, cane jaggery, tamarind, chilies,

groundnut are exported to South Kanara and Bombay by rail and road. Chief forest produce includes teak, sandalwood, rosewood. The Government of Mysore maintain a timber depot here and also run a Sandalwood Factory. There is also a match factory called the Mysore Match Factory.

Another notable place is Bhadravati on the Bhadra river, 12 miles south-east of Shimoga. It is an industrial and trade centre with a population of 42,451. The Mysore Iron and Steel Works, the Cement Factory, the Mysore Paper Mills and a Ferro-Silican Plant are all located here.

## SOUTH KANARA DISTRICT

*Area : 3,238 sq. miles ; Population : 1,330,917*

*Headquarters : Mangalore*

*Talukas :* Coondapur, Udipi, Karkal, Mangalore, Puttur.

The Western Ghats form a natural boundary in the east, and the Arabian Sea in the West. The land slopes gently from the east to the west, but gives an impression of flatness. Much of the surface is bare and treeless and strewn with granite boulders, but there are many small hill ranges well-wooded. From the sea the coastline presents an endless stretch of coconut palms broken by river mouths.

There are many rain-fed rivers but most of them are short and dry up in the summer. The most important of these rivers is the Netravathi, which flows into the sea at Mangalore.

The District has a heavy rainfall and the flora is as a consequence exceedingly varied. Of fruit trees, the coco and the areca palms and the jack and the mango are important. The palmyra palm is found everywhere and the cashew is common. The bamboo grows luxuriantly. Flowers grow in profusion. The fauna is as varied as the flora. Leopards, tigers, elephants are fairly common. The jackal and the monkey is found almost everywhere, while many species of snakes exist.

The climate is excessively humid with a rainfall of over 140 inches. The rains seldom fail in this District and drought is extremely rare.

The chief objects of archaeological interest are the Jain remains especially in Karkala, Mudbidri and Venur—in the form of huge monolithic statues, temples or bastis and slambhas or pillars.

The District has some of the best rice lands in the country; tobacco and vegetables are also grown, along with black gram, horse gram and green gram. On the hills there is coffee.

The District is essentially a forest District. The country is everywhere thickly wooded. The most valuable trees are teak, poon-pur, black wood and jack.

The soil yields excellent clay which has given rise to a flourishing tile industry. Another important industry is coffee curing and the processing of cashewnut.

The principal exports are coffee, tiles, copra, rice and wood. The chief imports are cotton piece-goods, grain, oil, sugar, salt.

Mangalore is the biggest single harbour. But Malpe near Udipi has greater possibilities and was mentioned by the West Coast Major Port Development Committee for development as a major port between Mormugao and Cochin.

## TUMKUR DISTRICT

*Area : 4,058 sq. miles ; Population : 1,151,362.*

*Headquarters : Tumkur.*

*Talukas :* Tumkur, Madhugiri, Koratagere, Sira, Pavagada, Chiknayakanahalli, Gubbi, Tiptur, Turuvekere, Kunigal.

Tumkur District has an average rainfall of 26.15 inches and a forest area of 196.3 sq. miles.

Tumkur which is the District Headquarters Town has a population of 35,999. It has half a dozen rice mills, and also flour mills, oil mills, slate-pencil factories, and a tile factory. Groundnuts and groundnut products, castor seed, honey seed and food grains such as ragi, avare, are exported to places in and outside the State.

#### LABOUR

Position: 1956.

Names of Industries in which minimum wage is fixed: Rice Mill, Flour Mill and Dal Mill, Tobacco (including bidi and gudakhu making) manufactory. Road construction, building operations and stone breaking or stone crushing, Public Motor Transport, employment in agricultural operations and employment under Local Authority (excepting Gram Panchayats, Anchal Sasan and Notified Area Committee for a period of five years with effect from 30th December 1954).

Average monthly earnings of industrial workers Rs. 61.

Total number of Trade disputes: 45.

Total number of strikes: 4.

Total number of workers affected: 3,365.

Number of Trade Unions in the State: 115.

Total membership of trade unions: 49,800 (approximately).

Number of Labour Welfare Centres: 19.

Strength of Labour Welfare staff: 43.

Average daily number of workers in registered factories: 22,077.

Number of houses built through Industrial Housing Scheme and subsidised Industrial Housing Scheme: (by private enterprises): 1,342; (by Govt.): 160.

#### HOUSING AUTHORITY

Housing authority: Housing Board.

Different classes of houses built and number of each class in urban area and rural area: 1,140 single storeyed one room tenements, 234 single storeyed two room tenements and 128 double storeyed double room tenements built in the industrial areas of the State including 160 single storeyed one room tenements built by the State Government in Cuttack City (urban area).

Rent charged for each of the classes: Rent charged in respect of the houses constructed under the Industrial Housing Scheme, 1949, is at 2 per cent of the capital cost, subject to the limit of 10 per cent of the wages. The rent charged by Government for the houses constructed under the Government of India Subsidised Housing Scheme is Rs. 10 for a single storeyed one room tenement.

**Low Income Group Housing Scheme:** A sum of Rs. 11,04,150 was advanced to the house builders of low income group during 1955-56. A further sum of Rs. 7 lakhs was sanctioned in 1956-57 for payment of loans to persons of low income groups for construction of houses.

## POWER PROJECTS

Position: 1956.

Total capacity of Power Stations installed in the State: 29,031 kW.

Total Effective Capacity: 22,625 kW.

Total Production during the year 1955-56 in kW. Hrs. (Units): 18.3 millions.

Total Units sold: 15.2 millions.

Names of Power Stations now in operation and their installed generating capacity:

(A) *Steam stations under State Government.*

Choudwar Thermal Station, Choudwar, 5,000 kW.; Chatrapur Thermal Station, Chatrapur, 750 kW.

(The turbo alternator was transferred from Jobra).

(B) (i) *Diesel stations in operation under State Government.*—Bolangir 338 kW.; Baripada 345 kW.; Bhawanipatna 165 kW.; Deogarh 40 kW.; Sonapur 32 kW.; Nayagarh 68.5 kW.; Keonjhar 83 kW.; Phulbani 25 kW.; Suroda 28 kW.; Bhanjanagar 25 kW.; Khariar Road 212 kW.; Bhadrak 160 kW.

(ii) *Diesel stations under construction:* Titlagarh 260 kW.; Kantabanji 200 kW.; Jaleswar 120 kW.; Khalkote 300 kW.; Chandballi 120 kW.; Anandpur 64 kW.; Raurangpur 325 kW.; Khairpara 220 kW.; Banki 100 kW.; Bhogral 80 kW.

(C) *Private supply undertakings:* Berhampur 1,249 kW., now purchasing bulk power; Puri 528 kW., now purchasing bulk power; Balasore 370 kW.; Cuttack purchasing bulk power; Jharsuguda 332 kW.; Parlakimedi 120 kVA, at 0.8 pt. i.e. 96 kW.; Bargarh 157 kVA, at 0.8 pt. i.e. 125.6 kW.; Sambalpur purchasing bulk power.

Chief Hydro-Electric Schemes under execution in the State.

Machkund Hydro-Electric Scheme (Koraput) and Hirakud Hydro-Electric Scheme (Sambalpur).

Total installed firm capacity of thermal power houses and diesel stations coming under the category of Government Undertakings in 1955-56: 19,942.5 kW.; Units generated: 1,61,73,981 kWhrs.; Units sold: 1,25,68,430 Kws.

The following are the more important thermal power houses. The first figure within the brackets shows the installed firm capacity in kW., the second the units generated in kW hrs. and the third the units sold: Choudwar (5,000 kW.; 1,40,70,000 kW hrs.; 1,12,85,322 Kws.); Rajgangpur (C.W.P.C.) (6,500 kW.; 1,57,346 kW hrs.; 1,56,072 Kws.).

The following are the more important diesel stations showing within brackets firstly the installed firm capacity and secondly the number

of units generated: Rajgangpur (816 kW.); Hirakud (C.W.P.C.) (2,665 kW., 4,92,337 kW hrs.); Burla (1,020 kW.).

The following is a list of the Government Undertakings. *Thermal Power houses:* Choudwar, Chatrapur, Rajgangpur (C.W.P.C.), *Diesel Stations:* Rajgangpur, Sundergarh, Bolangir, Bhawanipatna, Sonapur, Deogarh, Jeypore, Machkund, Aska, Bolani, Phulbani, Suroda, Bhubaneswar, Nayagarh, Talcher, Bhanjanagar, Baripada, Keonjhar, Dhenkanal, Khariar Rd., Hirakud (C.W.P.C.) and Burla (C.W.P.C.)

Total installed firm capacity of Licensee Undertakings: 9,088 kW., total number of units generated: 21,04,307 kW hrs.; number of units sold: 25,94,946 Kws.

The more important licensee undertakings showing within brackets the installed capacity, number of units generated and the number of units sold respectively: Berhampur Electric Supply Co. (1,219 kW.; 12,50,902 kW hrs., 14,63,800 Kws.); Brajarajugar Orient Paper Mills (6,250 kW.)

The following are the licensee undertakings: Cuttack Electric Supply Co., Puri Electric Supply Co., Balasore Electric Supply Co., Berhampur Electric Supply Co., Sambalpur Electric Supply Co., Jharsuguda Electric Supply Co., Bargarh Electric Supply Co., Parlakimedi Electric Supply Co., Brajarajugar Orient Paper Mills and Rayagada J. S. Co.

## Machkund Scheme

This is a joint scheme of Orissa and Andhra Governments and is located in Koraput District for harnessing Hydro-Electric Power from the Machkund river. Work on this scheme was started in 1946 and power with the execution of the first stage of the scheme was available in August 1955 made available from 1st generator. The 2nd set has been commissioned. Erection of 3rd set is still in progress as some defect developed in the turbine now under repair. The ultimate capacity of the power house will be about 103.5 kW. which constitutes Orissa's 30 per cent share. 132 kV line from Machkund to Rayagada via Jeypore has been commissioned in 1955-57. Further extension of this upto Berhampur will be completed by the end of 2nd Five-Year Plan.

According to the latest revised estimate, the total cost of the scheme (for Dam and Power Station but excluding Transmission line costs) is Rs. 161 lakhs of which the costs and power generated by the scheme to be shared initially by Andhra and Orissa Governments in the ratio of 70:30, Orissa having the option to have its full share of 50 per cent power output at the end of 99 years.

This scheme will serve Koraput and Ganjam districts and may serve some portion of Puri and Kalahandi districts.

The total estimated cost of transmission and distribution right up to Berhampur is Rs. 299.69 lakhs.

## Hirakud Scheme

This project was started in 1948 and is located at Hirakud near Sambalpur. The dam has been constructed here to utilise the waters of the Mahanadi River for irrigation, production of power and also to control the floods in the river.

It is the first of three dams proposed to control and harness the mighty river Mahanadi for the development of the entire region.

Water from the dam now completed flowed into the Bargarh Canal, the central arterial canal, in July 1956 and water was available for irrigation in September 1956.

It was expected that by April 1957 the project will irrigate 6,72,000 acres of land in Sambalpur and Bolangir districts and 18,07,000 acres in Cuttack and Puri districts.

The main power house with four generating units was also ready for operation in the middle of January 1957. This made available 118,155 kW. of power.

Upto March 1956, Rs. 51 crores had been spent on the project. The revised estimates for Stage I are Rs. 70.78 crores.

For more particulars see under the main article on Irrigation.

## Choudwar Thermal Station

Pending extension of power from Hirakud to Cuttack area, a steam station at Choudwar near Cuttack with 2 x 1500 kW. and 1 x 2000 kW. was installed at Choudwar bringing the capacity of the Thermal Station to 5,000 kW. by the end of October 1955. This station is now fully loaded and is supplying power to Cuttack, Puri and Dhenkanal districts. This station will become a stand by plant for the Hirakud scheme when the hydro-electric power is available.

A 750 kW. steam station which was installed at Jobra has been transferred to Chatrapur for supplying power to the Ganjam area. This was commissioned during early part of the year 1956-57.

## IRRIGATION

Total area irrigated: 1,925,780 acres.

Area irrigated by Government Irrigation works: 17,000 acres by Canal System.

The main irrigation works of the State are the Canal systems, as below:—(1) The Mahanadi River System (North Orissa Canals); (2) The Baitarani River System (North Orissa Canals); (3) The Ruskulya River System augmented by Ruskulunda and Suruda reservoirs (Ganjam Canal System).

Irrigation projects in execution: 951 Irrigation projects under execution, undertaken by Government.

Water from Hirakud dam began to be available for irrigation in Sept. 1956, and will irrigate an area of 6.72 lakh acres in Sambalpur and Bolangir-Patna.

## BUDGET 1957-58

Revenue: Rs. 21.89 crores.

Expenditure: Rs. 25.07 crores.

## ASSOCIATIONS

**The Berhampur Chamber of Commerce (Orissa).**—The Berhampur Chamber of Commerce was formed soon after the formation of Orissa State. It maintains a library and an information service, arranges commercial arbitrations and makes commercial opinion available to Government. It has about 70 members on its roll.

*President:*—P. Narayana Rao, B.A., B.L.; *Vice-President:*—Agent, Messrs. Haji Jamal Nur Mohamad; *Secretary:*—I. Ramamoorti; *Joint Secretary:*—V. Kedarnatham Raju.

*Address:*—Berhampur, Ganjam Dist.

**Orissa Chamber of Commerce and Industry.**—Buxibazar, Cuttack 1.

*President:* B. Patnaik.

*Vice-Presidents:* G. C. Patnaik; B. P. Modi.

*Hon. General Secy.:* S. N. Patnaik.

## THE PUNJAB

Capital: Chandigarh.

Area: 47,497 square miles.

Total Population (1951 Census): 10,134,890.  
(Males 8,681,778. Females 7,453,112).

Main Occupation: Agriculture (79 Per cent).

Languages spoken: Punjabi, Hindi, Urdu, Pahari.

The number of seats allotted to the Punjab:—  
In Lok Sabha 22; Rajya Sabha 11; in the State  
Vidhan Sabha 154; in the Punjab Legislative  
Council 46.

Administrative Divisions: 3; Districts: 18;  
Tahsils 73; Towns 194; Villages 21,510.

Names of districts (with headquarters in brackets): Hissar (Hissar), Rohtak (Rohtak),  
Gurgaon (Gurgaon), Karnal (Karnal), Ambala  
(Ambala), Hoshiarpur (Hoshiarpur), Amritsar  
(Amritsar), Jullundur (Jullundur), Ludhiana  
(Ludhiana), Ferozepore (Ferozepore), Gurdaspur  
(Gurdaspur), Kangra (Kangra), Simla (Simla),  
Patiala (Patiala), Bhatinda (Bhatinda), Sangrur  
(Sangrur), Kapurthala (Kapurthala), Mahendragarh  
(Narnaul).

The population District-wise is as follows:—

Hissar: 1,045,645; Rohtak: 1,122,046;  
Gurgaon: 967,661; Karnal: 1,070,379; Ambala:  
943,734; Simla: 46,150; Kangra: 936,042;  
Hoshiarpur: 1,091,986; Jullundur: 1,055,600;  
Ludhiana: 808,105; Ferozepore: 1,326,520;  
Amritsar: 1,367,040; Gurdaspur: 851,294;  
Bhatinda: 666,809; Kapurthala: 295,071;  
Mahendragarh: 443,074; Patiala: 900,069;  
Sangrur: 1,179,662.

The highest number of displaced persons is in  
Ferozepore (370,934) and the lowest in Kangra  
(19,770).

In the Zonal Division the Punjab falls within  
the northern Zone, comprising the States of  
Punjab, Rajasthan and Jammu and Kashmir  
and the Union territories of Delhi and Himachal  
Pradesh.

For the more convenient transaction of busi-  
ness with regard to some specified matters, the  
State is divided into two regions, the Punjabi-  
speaking and the Hindi-speaking regions.

For each region there will be a regional com-  
mittee of the State Assembly consisting of the  
members of the State Assembly belonging to  
that region including the Ministers from the  
region but not including the Chief Minister.

Legislation relating to specified matters will be  
referred to the regional committees. In respect of  
these matters proposals may also be made by the  
regional committees to the State Government  
for legislation or with regard to questions of  
general policy not involving any financial  
commitments other than expenditure of a  
routine and incidental character.

The advice tendered by the regional com-  
mittees will normally be accepted by the Govern-  
ment and the State Legislature. In case of differ-  
ence of opinion, reference will be made to the  
Governor whose decision will be final and  
binding.

The regional committees will deal with the  
following matters: (i) Development and economic  
planning, within the framework of the general  
development plans and policies formulated by  
the State Legislature; (ii) Local Self-Government,  
that is to say, the constitutional powers of munici-  
pal corporations, improvement trusts, district  
boards and other local authorities, village admini-  
stration including "Panchayats"; (iii) Public  
health and sanitation, local hospitals and dis-  
pensaries; (iv) Primary and secondary education;  
(v) Agriculture; (vi) Cottage and small-scale in-  
dustries; (vii) Preservation, protection and im-  
provement of stock and prevention of animal

diseases, veterinary training and practice; (viii)  
Pounds and prevention of cattle trespass; (ix)  
Protection of wild animals and birds; (x) Fish-  
eries; (xi) Inns and Inn-keepers; (xii) Markets  
and fairs; (xiii) Co-operative Societies and (xiv)  
Charities and charitable institutions, charitable  
and religious endowments and religious institu-  
tions.

The demarcation of the Hindi and Punjabi  
regions will be done in consultation with the  
State Government and the other interests  
concerned.

The Sachar formula will continue to operate  
in the area comprised in the former Punjab  
State; and in the area comprised in the former  
PEPSU State, the existing arrangements will  
continue until they are replaced or altered by  
agreement later.

The official language of each region will, at  
the district level and below, be the respective  
regional language.

The State is bi-lingual recognising both  
Punjabi (in Gurmukhi script) and Hindi (in  
Devnagri script) as the official languages of the  
State.

The Punjab Government is to establish two  
separate departments for developing Punjabi  
and Hindi languages.

The general safeguards proposed for linguistic  
minorities will be applicable to the Punjab like  
other States.

In accordance with and in furtherance of its  
policy to promote the growth of all regional  
languages the Central Government is to encourage  
the development of the Punjabi language.

### INDUSTRIES

The total number of registered factories in  
1955 was 2,573:

Among the more important industrial centres,  
Jullundur is famous for its sports goods while  
Batala and Ludhiana are well known for light  
engineering works, Amritsar for textile goods,  
Sonapat for its cycle factory which is also one  
of the largest of its kind in the country. The  
factory produces about 8,500 cycles per month.

The other large scale industries include one  
woollen mill at Dharawal, one new cotton spin-  
ning mill with 25,000 spindles at Hissar, one  
sugar factory at Abdullahpur producing 16,000  
tons of sugar, one hydrogenated oil factory at  
Abdullahpur with an annual production of 3,000  
tons and one paper production factory at  
Jamnanagar with a production of 15,000 tons of  
paper.

There are also two embroidery mills and a  
number of lace making factories in the areas  
comprising the former Punjab; also one foot-  
wear factory at Faridabad, four assembling-  
cum-cycle manufacturing units at Sonapat,  
Faridabad and Ludhiana.

Heavy industries in the PEPSU region  
include two sugar factories at Hamira and  
Dhuri with a crushing capacity of 1,000 tons and  
1,500 tons of sugarcane per day respectively,  
one sugar factory and one textile mill at Phag-  
wara, with a production of 57,000 yards of  
cloth per day, two cement factories at Surajpur  
and Dadri producing 353,817 tons of cement  
per year, one distillery at Hamira, three starch  
factories at Phagwara, Rajpura and Faridkot,  
two roller flour mills at Patiala and Bhatinda  
and a biscuit factory at Rajpura.

### SMALL SCALE INDUSTRIES

The Punjab has a large number of medium  
and small-scale industries which include scientific  
instruments, glassware, wooden planks and  
hooks, foundry and engineering, re-rolling mills,

cotton ginning, canning and preservation of  
foods, starch and chemicals, milk food except  
beverages, distilling, rectifying and blending of  
spirits, electric goods, manufacture of ice, etc.

In the hosiery industry, with 880 concerns  
out of a total of about 950 in India, Punjab  
occupies the leading position in the whole  
country.

In the production of artificial silk the Punjab  
ranks next only to Bombay. There are in opera-  
tion at present, 350 units in the State.

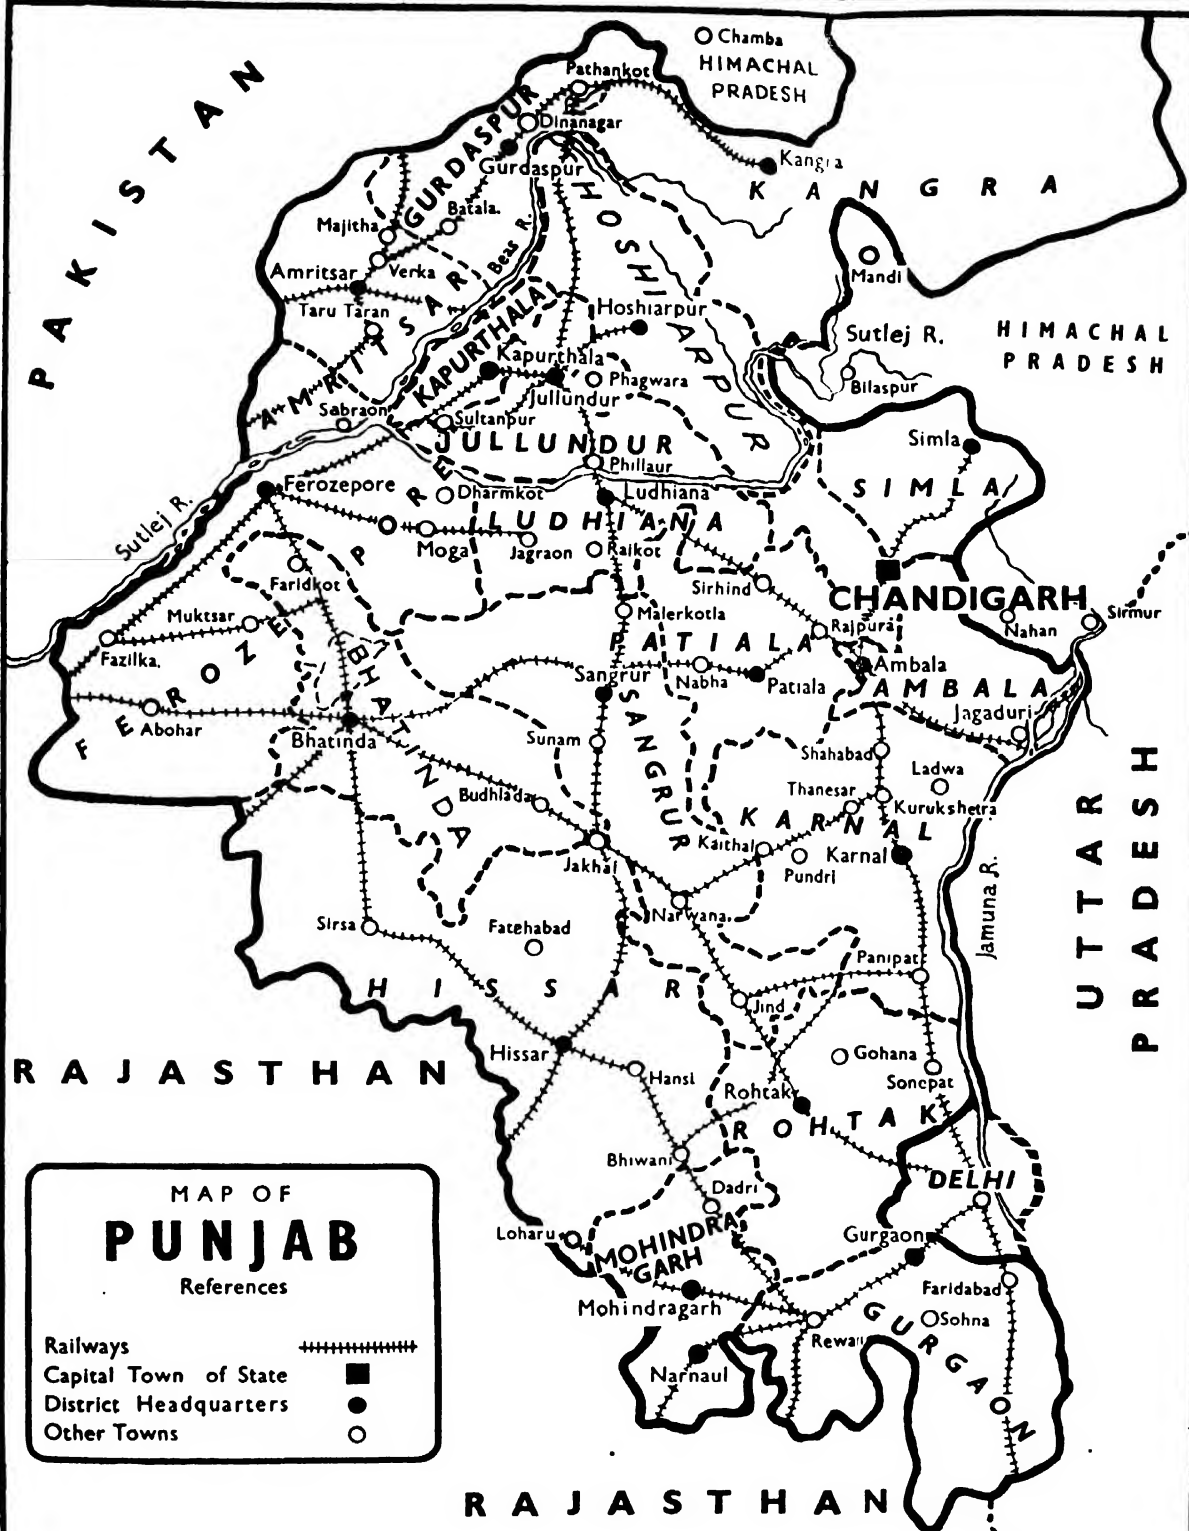

The manufacture of blankets, 'kheses' rugs,  
cycle parts, utensils, tanning and wood indus-  
tries, silk spinning and weaving, potteries, shoe  
making, making of sewing machine parts, etc.,  
are among the principal cottage industries of  
the new State.

## LAND TENURE

Names of tenancy acts in force at present: The Punjab Occupancy Tenants (Vesting of Proprietary Rights) Act, 1952; The Punjab Abolition of Ala Malkiyat and Talukdari Rights Act, 1952; Punjab Security of Land Tenures Act, 1953 and Punjab Security of Land Tenures (Amendment) Act, 1955, PEPSU Occupancy Tenants (Vesting of Proprietary Rights) Act, 1953, The Patiala and East Punjab States Abolition of Ala Malkiyat Rights Act, 1953, The Patiala and East Punjab States Union Tenancy and Agricultural Lands Act, 1953, The PEPSU Agricultural Tenant (Temporary Protection and Disability) Ordinance, 1954.

With the passage of the Punjab Occupancy Tenants (Vesting of Proprietary Rights) Act 1952, there are now no occupancy tenants except on evacuee lands. They became proprietors on 15th June, 1952 on payment of compensation to landlords in the Punjab region of the State.

Consequent upon the enforcement of the Punjab Security of Land Tenures Act, 1953, which came into force on the 15th April, 1953 tenants were divided into the following two classes: Tenants of landowners owning land above the permissible limit (30 standard acres or 60 ordinary acres) and tenants of landowners owning land below the permissible limit.

The permissible limit in relation to a landowner or a tenant means 30 standard acres and where such 30 standard acres on being converted into ordinary acres exceed 60 ordinary acres, such 60 ordinary acres. Co-operative garden colonies registered before the coming into force of the Punjab Security of Land Tenures Act, 1953, were excluded from its purview.

Under the Punjab Security of Land Tenures (Amendment) Act, 1955, a tenant who has been in occupation of the land for a period of at least six years can now purchase his tenancy land upto the permissible limit on payment of 1/4th of the market value of the land and this payment can be made either in lump sum or six monthly instalments not exceeding ten in number.

A provision has also been incorporated in the new Act, under which no tenant, liable to ejectment under the new Act, except in case of default, would be dispossessed of his tenancy unless he is accommodated on a "surplus area", or on some other land by the State Government.

The Act, however, provides for the acquisition of banjar lands for the resettlement of ejected tenants. Government has drawn a draft plan to meet the situation. The pool for resettlement will consist of the following: State (Nazool lands), Fauji Colony Areas, Bhindran, Surplus lands from other Departments, Banjar lands.

The following categories of persons will be considered eligible for allotment of land in the order given below:—

(1) Persons who have held lands as tenants for a period of at least four years in the former PEPSU during the period of six years immediately preceding the commencement of the Act, but own no land of their own and whose tenancies:—

(a) have been terminated under clause (a) of sub-section (1) of Section 7 of the PEPSU Tenancy and Agricultural Lands Act, 1953, or

(b) may be terminated under clause (a) or sub-section (1), and sub-section (2) of section 7 of the Act;

(2) persons owning less than five acres of land who have been cultivating any land in the former PEPSU by their own labour for at least four years immediately preceding the commencement of the Act.

Consolidation of Holdings is an important problem. The total area to be consolidated in the Punjab and the PEPSU was 159 lakh acres and 60 lakh acres respectively. By the end of the First Five-Year Plan period, the consolidation of an area of 60 lakh acres had been completed.

The consolidation is expected to be completed by the end of the Second Five-Year Plan period at a total cost of Rs 558.31 lakhs for areas in the former Punjab and of Rs 221 lakhs in the former PEPSU.

Three soil conservation schemes namely: (i) Soil Conservation over Shivaliks, (ii) Afforestation of Bhakra Dam Catchment area and (iii) Desert Control are in operation in the underdeveloped areas of Kandaghat sub-division and Mahendragarh district.

Reserved, protected, unclassified and leased forests are located at Jullundur, Ludhiana, Hoshiarpur, Ferozepore, Kangra, Amritsar, Gurdaspur, Ambala, Karnal, Hissar, Rohtak, Gurgaon and Simla, Kangaghat Sub-division at Mahendragarh.

## IRRIGATION

Total area irrigated .. about 8,024,000 acres  
Position in the former Punjab

The Bhakra-Nangal Project is estimated to cost Rs. 170 crores. On completion it would provide irrigation for the first time to 3.8 million acres in the Punjab, 1 million acres in PEPSU and 9 lakh acres in Rajasthan, besides improving irrigation in about 3.5 million acres. The additional agricultural production is estimated at about Rs. 132 crores annually and nearly 4,00,000 kWs of electric energy would be added to the State's power resources.

Full benefits of the Project will be available on its completion in 1959. However, schedules have been so arranged as to bring some measure of these benefits as each step of construction is completed. Kharif irrigation was provided to over 3 lakh acres in the State with effect from July 1954; 24,000 kW of additional electricity became available with the commissioning of the Gangwal Power House in January 1955.

(For details see under Irrigation).

Till lately Uhl river with about 33,000 kWs of firm power and 9 thermal power stations with an installed capacity of about 7,000 kW were meeting all the requirements of electricity in the area. The power house at Gangwal which was commissioned in January 1955, provides 24,000 kW of electric energy. The second power house at Kotla under the Nangal Power Project was opened on 9th June, 1956. It cost Rs. 2.8 crores and has an installed capacity of 48,000 kW.

About 740 percolation wells and 1,750 ordinary wells were sunk during 1954-55, with the aid of Government loans, and without aid about 1,200 percolation wells and 1,500 ordinary wells were sunk.

The total number of tube-wells energized upto March 1955 was 2,631.

Position in the former PEPSU:

Total area under command: 48.7 lakh acres (gross).

Area irrigated by Government Irrigation Works (Canals): Sirhind Canal System—on PEPSU branches 1,990,000 acres; on Punjab branches 823,000 acres; Western Jumna Canal System 324,000 acres, excluding Sirsa branch; Bhakra Nangal Project 1,345,000, including Sirsa branch.

The Bhakra Nangal Project is a multipurpose river valley project. PEPSU is a partner to the extent of 22.42 per cent.

This project will also enhance supplies in Sirhind Canal from 9,040 cusecs to 12,500 cusecs at Rupar. It is expected that the project will be completed by the end of 1959, when perennial supplies will be made available. Total area which will benefit from Bhakra Project in this part will be 1,345,000 acres gross. In addition it will also enhance the supplies in old Sirhind Canal system by about 40 per cent. The total discharge available for this area from the project will be about 3,800 cusecs.

**Bein River Project :** It is proposed to harness the water of Bein River by taking out channel from the existing barrage on the river near Kapurthala and to irrigate about 40,000 acres of land. The revised cost of the project is Rs. 11.05 lakhs excluding the cost of the existing barrage. The flow channels have already started irrigation.

**Dadri Irrigation Scheme :** 1,794 cusecs of supply will be released from the Sirsa branch of Western Jumna Canal and this supply will be used for extension and improvement of irrigation. A part of this supply will be used for improving and extending irrigation in Sangrur District and a part used for extending irrigation to Dadri Tehsil of the Mahendragarh District. The Dadri irrigation scheme will cost Rs. 59.5 lakhs and will bring an area of about 101,000 acres under command. All the channels with earthen banks, bridges, regulators, falls, etc., have been completed and they were opened for *kharif* irrigation during August 1955. The lining of channels will be completed during 1956-58.

**Tube-well construction under T. C. A. :** The following projects were started during the 1st Five-Year Plan :

- 1) Construction of 307 tubewells under 1952, Indo-USA Technical Co-operation Mission (T.C.M.) Project, in Dhuri Community Project area in the Tehsils of Dhuri, Malerkotla and Pail.

The total area under this scheme will be 3.07 lakh acres (gross). The total cost of this project is Rs. 201.88 lakhs. All the tubewells have been drilled and 114 have started operation. The scheme was to be completed by the end of 1956.

- 2) Construction of 160 tubewells under 1953 T.C.M. Project in Kapurthala, Phagwara and Rajpura Tehsils.

It will bring an area of 1.38 lakh acres (gross) under command. The estimated cost of the scheme is about Rs. 102 lakhs. 116 tubewells have been already drilled and the scheme was to be completed by the end of 1956-57.

- 3) Construction of 130 tubewells under 1954 'Grow More Food' (G.M.F.) Project.

The total cost of this scheme is Rs. 82.2 lakhs. It will bring an area of 1.04 lakh acres gross under command. 11 tubewells have been already drilled and the scheme was to be completed by the end of 1956-57.

**Note :**—All the above three projects are being financed by loan from the Government of India.

- 4) 8 tubewells in Nidanpur area under the State 1st Five-Year Plan.

The cost of the scheme is Rs. 4.45 lakhs and it commands an area of 6,400 acres (gross).

The Bhakra Nangal Project will increase the food production in this area by 2.8 lakh tons and the production of cotton by 1.8 lakh bales.

On completion of all the above mentioned projects, 48.70 lakh acres will be receiving irrigation facilities.

### ELECTRIC POWER

No. of electric power stations : 44 ; Installed capacity : 82,542 kW ; Energy generated : 228.473 million kWh.

For position in the former Punjab area see under the heading 'Irrigation' in this article.

Position in the former PEPSU :

Total capacity of power plant installed in the State : 6,896 kW (1953).

Total effective capacity : 5,800 kW.

Total production during the year 1952-53 : 16,271,532 units.

Number of units supplied to industry : 9,611,928.

Number of units supplied for domestic purposes : 3,595,006.

Location of power stations now in operation with the capacity and production in brackets : Malerkotla (81 kW. ; N.A.) ; Mandi Phul (52 kW. ; N.A.) ; Bhatinda (36 K.V.A. ; N.A.) ; Kandaghat (308 kW. ; 101,796 units) ; Kasauli (276 kW. ; N.A.) ; Kapurthala (500 kW. ; 2,238,624 units) ; Phagwara (800 kW. ; 5,722,893 units).

Resulting from the Bhakra-Nangal project, a number of local thermal plants were shut down. Arrangements were made to give bulk supply to Mooli Electric Supply Co., Bhatinda and Malerkotla Electric Supply Co., Malerkotla.

By the end of Dec. 1955 the Nangal supply was made available to about 27 towns and villages. By March 1956 another 10 towns and villages were expected to obtain supply.

Power has been supplied to about 110 tubewells. In 1956-57 another 200 tubewells obtained supply. Rural electrification also covered wider areas.

Total power potential available in 1964-65 will be 43 MW.

### TRANSPORT

Roads (surfaced) : 3,982 ; Total of all roads : about 10,200 ; Motor vehicles registered : 11,945 (private) ; 2,600 (Govt.).

Vehicles registered : The statistics of vehicles registered with the Department (PEPSU) .—

	Cars.	Motor Cycles.	Trucks.	Tractors.	Buscs.
For private use .. ..	1,010	450	110	980	..
Public vehicles .. ..	19	..	724	..	891
Departmental Vehicles ..	200	5	80	35	..
Belonging to Royal Families .. ..	97	2	8	14	3

Transport has not been nationalised in this area, but buses of the Government-owned Roadways run on certain routes in competition with those privately operated. The former State Government announced that it was committed to gradual nationalisation. In January 1956 it set up a four-member (all officials) Road Transport Corporation and declared that the objective was to nationalise road transport by 1958-59.

A Transport Authority was also constituted.

### LABOUR

Position in the former Punjab area :

No. of registered factories : 2,115 (1954).

Average daily number of workers in registered factories : 52,822 (1952).

Names of industries in which a minimum wage is fixed :

Shawl weaving Establishments ; Rice mill, flour mill or dal mill ; Tea plantations ; Oil mills ; Inferior employees under local authorities ; Public Motor Transport ; Tanneries and Agriculture.

No. of workers benefited by the enforcement of Minimum Wages Act : about 30,000.

Average monthly earnings : about Rs. 65-8-0.

Total number of trade disputes for the year 1952 : 57.

Number of workers affected : 5,782.

Number of strikes : 57.

Number of workers affected : 5,782.

Number of man days lost : 95,842.

Number of trade unions : 254 (1955).

Total membership of trade unions : 12,250 (for 70 Unions only).

Number of Labour Welfare centres : 7.

Government Transport Services are at present operating on 105 routes with about 318 vehicles. The operational area of the nationalised services extends from Wagha to Alwar covering besides Punjab four other States namely Himachal Pradesh, Delhi, U.P. and Rajasthan.

Position in the former Punjab :

Number of routes operated by the Govt. Transport Services : 65 (1955).

Number of vehicles operating on these routes : 258.

A phased programme has been chalked out for the progressive nationalisation of passenger transport during the second Five-Year Plan.

The capital investment of the State Transport Service was about Rs. 60 lakhs. The net profits in 1954-55 were about Rs. 10 lakhs and in 1955-56 about Rs. 19 lakhs.

Position in the former PEPSU :

Mileage of roads in operation : Katcha 1,077 miles ; Pucca 300 miles ; Joint (consists of routes which pass through other States and on which transport services based on this area operate) 1,270 miles.

Total number of aerodromes : 2 (One owned by the Government and the other at Faridkot by the Maharaja of Faridkot).

The Employees State Insurance scheme introduced in May 1953 covers more than 35,000 workers. Total no. of workers : 64,000 (1955). The Provident Fund Scheme for industrial workers has been implemented. About 150 factories have been brought under the purview of the Employees' Provident Fund Act. About 16,000 workers benefit from this scheme.

The Punjab Trade Employees Act now stands extended to 103 towns in the area. The total number of shops and commercial establishments covered by the provision of the Act comes to 95,785 and 30,211 respectively.

Number of prosecutions launched under this Act : 8,177.

Over one lakh workers have benefited by the fixation of minimum wages in agriculture.

The number of registered unemployed in the region comprising the present Punjab and Himachal Pradesh was 26,423 in January 1955.

Amount provided for in the first Five-Year Plan for labour welfare schemes : Rs. 104 lakhs.

Number of complaints received under the various labour laws in 1955 : 4,125.

Number settled by the Labour Department : 3,627.

Total no. of Works Committees in 1955 : 115.

Position in the former PEPSU area :

Under the Minimum Wages Act, 1948, the Government fixed minimum rates of wages for workers employed, in stone-breaking or stone-crushing, under any local authority, in any oil mill, in road construction or in building operation, in Public Motor Transport, in any rice mill or dal mill and in agriculture.

Average monthly income of worker in 1950 : Rs. 82.

Number of Industrial Disputes in 1952 : 16.

Number of strikes in 1952 : 5.

Name of important state law affecting trade disputes : Industrial Disputes Act, 1947.

Number of Trade Unions under the Indian Trade Unions Act, 1926 : 14 on 31st March 1955.

Total membership : 4,993.

The Employees State Insurance Scheme has not so far been extended to this area.

Number of labour quarters constructed in the factory Area in Patiala in 1952-53 : 30.

### EDUCATION 1955-56

No. of primary and Basic Schools : 12,609, of Middle Schools : 1,001, of High Schools : 980, of Arts and Science Colleges : 73, of Professional Colleges : 21.

The State Budget in the Punjab for education was Rs. 515 lakhs for 1956-57 and the PEPSU Rs. 163 lakhs.

The aim of the Second Plan is to bring to schools 60 to 65 per cent of the children in the age group 6-14 and 374 per cent in the age-group 11-14. Ten per cent of the elementary schools will be converted into the basic type, while there will be a substantial expansion in other fields in the form of conversion of high schools into the multi-purpose type.

Technical institutions will also be expanded so as to raise the admission from 40 to 105 in the Engineering College Chandigarh, from 40 to 84 in the Veterinary College, Hissar, from 50 to 100 in the Agricultural College, Ludhiana, and from 80 to 100 in the Medical College, Amritsar.

In addition, there are schemes for the re-organisation of Industrial Schools, and the expansion of Training Centres at a cost of Rs. 14 crores, the establishment of two Polytechnic and Printing Technology Institutes, the establishment of a Polytechnic at Patiala and 2 Junior technical schools at a cost of Rs. 8 lakhs. Provision has also been made in the Plan to subsidize the establishment of an Institute of Engineering and Technology at Patiala.

*For other particulars about education see the tables given in the attach on Education. The addition of the figures for the Punjab and the PEPSU will give the figures for the present Punjab.*

### HEALTH

Hospitals and dispensaries : 871. Number of beds : 9,191. Maternity & Child Welfare centres : 114.

T.B. Hospitals : Amritsar, Chitru (Kangra), Ludhiana, Jaland, and T.B. Clinics at Dharampur, Sangur, Kasauli and one each at district head-quarters in the former Punjab area.

Medical & Dental Colleges : Three Medical Colleges at Amritsar, Ludhiana and Patiala, and one Dental College at Amritsar.

The expenditure on health in the former Punjab was Rs. 126.4 lakhs in 1954-55. In the PEPSU region the expenditure was Rs. 79.61 lakhs in 1955-56.

During the First Plan period

- (1) Fourteen Hospitals were modernised,
- (2) Ten Hospitals and 177 Dispensaries were taken over under the control of the State,
- (3) Eight new hospitals, 13 subsidised dispensaries and 65 Ayurvedic dispensaries were opened,
- (4) A Sanatorium was established at Tandu for 200 indoor patients. Rs. 4.10 lakhs were distributed as grants to T.B. clinics which now number 12—one at every district head-quarters,
- (5) Before 1951, there were only 188 beds available for T.B. patients. This number has now increased to 430,
- (6) Water supply and drainage scheme was extended to 18 towns and 52 rural units;

(7) There was a reduction of malaria cases from 6.8 lakhs in 1950 to 3.8 lakhs in 1954,

(8) Construction of new premises for Rajindra Hospital at Patiala with provision for 500 beds,

(9) Opening of new Hospitals at Dadri, Gobindgarh, Nabha and Bhainda,

(10) T.B. Clinics at Sangur, and

(11) Expansion of the T.B. Clinic, Dharampur and the Civil Hospital, Bhainda.

There are now three medical colleges in the State, the Glancy Medical College, Amritsar, the Women's Christian Medical College, Ludhiana and the Medical College at Patiala. Besides, there is a Dental College at Amritsar.

In the Second Five-Year Plan period a sum of Rs. 963 lakhs will be spent in the State under this head. Out of this a sum of Rs. 1 crores will be for water supply, drainage and sanitation schemes in the rural areas.

With the establishment of 36 more primary Health Units in the rural areas (with provision for maternity and child Welfare service at these units) and of 200 Ayurvedic Dispensaries, the further nationalisation of dispensaries, the expansion of the tuberculosis clinics and the B.C.G. campaign it is calculated that at the end of the Second Plan, medical relief will be available for every village within a five-mile radius. The number of beds in the various hospitals of the State will also increase to 9,886.

The Five-Year Plan for the former PEPSU provides for the opening of a Dental College, a Mental Hospital, and a T.B. clinic at Narnaul with 18 beds, a V.D. clinic at Dharampur, a Civil Hospital at Dhuri, four hospitals for women at Nariwana, Patiala, Samana and Bussu and the extension of some existing hospitals. There is also a provision for the opening of 90 rural medical centres.

Position in the former Punjab :

Names of diseases with mortality during 1952 within brackets : Pneumonia (12,870), Phthisis (2,983), Malaria (2,580), Enteric Fever (2,380), Diarrhoea (2,087), Dysentery (2,048).

Total no. of hospitals and dispensaries : 657 (1955-56).

Number of beds in these hospitals : 8,776.

Medical aid is provided to about 60 lakh persons every year in these hospitals and dispensaries.

Number of hospitals exclusively reserved for women : 31. Number of beds : 1,167.

Number of maternity and child welfare centres : 104.

Number of District Board and Municipal dispensaries and hospitals : 258; Subsidised : 92, Private : 61.

The following figures are for 1954 unless otherwise stated.

Number of allopathic Hospitals and Dispensaries : Urban Hospitals 108, Rural Hospitals 10, Urban Dispensaries 115; Rural Dispensaries 358.

Total number of beds in allopathic Hospitals and Dispensaries : 6,448.

Number of Ayurvedic and Unani rural Dispensaries : 20 (1955 : 80).

Number of special Hospitals with the number of beds in each within brackets : Tuberculosis 2 (188), Dental Diseases 1, Eye Diseases 2 (470), Leprosy 3 (442), Mental Diseases 1 (500).

Total number of Ayurvedic and Unani Doctors : 17,872; Nurses : 1,186; Dais : 2,730; Compounders : 2,491.

Number of in-patients treated in the Hospitals and Dispensaries of the Punjab during the year 1952 : 1,81,431.

Number of out-patients treated in the Hospitals and Dispensaries of the Punjab during the year 1952 : 57,27,617.

Number of Government Hospitals and Dispensaries : Hospitals 63; Dispensaries 145.

Total number of doctors (allopaths) in Government service : 666.

Total number of doctors (Ayurvedic and Unani) in Government service : 20; Nurses : 117; Compounders : 316 (excluding 20 in Ayurvedic and Unani Dispensaries).

Seven malaria units and 6 B.C.G. towns were working in March 1955. There were also 104 maternity and child welfare centres.

The cases of malaria treated in hospitals was 3.8 lakhs in 1954-55.

Position in the former PEPSU

Commonest diseases : Malaria, skin diseases, diseases of digestive system, diseases of nervous system, diseases of respiratory system and ulcers. Mortality from these diseases in 1954 : 22,879.

Number of allopathic hospitals (1955) : 49.

Number of allopathic dispensaries : 104 (Urban 3, Rural 69).

Total number of beds in allopathic hospitals and dispensaries (1955) : 1,613.

Number of Ayurvedic and Unani dispensaries : 52 (1953)

Total number of allopathic doctors and compounders (1955) : Doctors : 251 (men 217, women 34), Compounders : 314 (men 283, women 31), Male nurses : 12, Female nurses : 83.

Strength of staff on the preventive side (1954) : 577.

Budget allotment to Medical Department for the year 1955-56 : Rs. 51,1,300.

### CO-OPERATION

Total No. of societies (30th June, 1953) : 15,873, Total membership : 7,50,832, Working capital : a little over Rs. 18 crores.

Some particulars about co-operation in the former Punjab area for March 1955 are given below.

Total number of societies : about 16,000, Total working capital : about Rs. 16 crores; Share capital of Provincial Co-operative Bank : Rs. 20.65 lakhs, Share capital of District Central Co-operative Banks : Rs. 9 lakhs each.

Particulars relating to the former PEPSU area are given below.

Total number of registered co-operative societies at the end of June 1955 : 2,795.

Total membership of co-operative societies : 83,087.

Total working capital : Rs. 2.46 crores.

Types of each society and number of each type : PEPSU State Co-operative Bank Ltd. : 1, Central Banks : 8, Banking Unions : 10, Central Gram Dealers' Syndicate : 1, Industrial Unions : 4, Agricultural Credit Societies : 1,691, Agri. Non-Credit : 301, Non-Agri. Credit : 448, Non-Agri. Non-Credit : 331.

### FIVE-YEAR PLANS

PUNJAB'S First Five-Year Plan (1950-51 to 1955-56) as finally accepted by the Planning Commission envisaged an expenditure of Rs. 33.86 crores out of which Rs. 33.72 crores were spent by the end of the year 1955-56. Expenditure on the First Five-Year Plan in PEPSU amounted to Rs. 9.03 crores against a provision of Rs. 9.20 crores.

In addition to the First Five-Year Plan, in the Punjab before integration, development expenditure amounting to Rs. 60.64 crores was also incurred on several Centrally-sponsored schemes such as Lhakra-Nangal and Community Projects (Rs. 82.2 crores) and on purely State schemes (Rs. 8.52 crores).

In PEPSU some schemes of local development work such as javing of streets, construction of pucca drains, repairs of drinking wells and school buildings, public sanitary latrines, construction of drains and culverts, village roads, etc., were also undertaken besides the Five-Year Plan projects.

The Central Government contributed 50 per cent of the expenditure on these schemes while the State Government and the local inhabitants

shared the rest. Including the expenditure on Community Development work in PEPSU which amounted to about Rs. 50 lakhs, the total net cost on various schemes executed during the First Five-Year Plan period came to Rs. 133.89 crores.

During the Second Five-Year Plan a net expenditure of Rs. 162.43 crores will be incurred as per details given below :—

Main Heads	Rs. in lakhs	
	Punjab region	PEPSU region
I. Agriculture and Rural Development except Community Projects .. .. .	1,240 19	677 35
II. Community Projects and N.E.S. Blocks .. .. .	931 00	169 10
III. Irrigation and Power .. .. .	5,722 65	1,482 00
IV. Industries .. .. .	712 50	190 00
V. Transport and Communications .. .. .	832 00	285 05
VI. Social Services (other than Education and Health) .. .. .	750 29	176 70
VII. Education .. .. .	1,187 50	297 33
VIII. Health .. .. .	665 00	298 50
IX. Chandigarh Capital .. .. .	446 50	
X. Miscellaneous including Publicity and Development of Mandis in Bhakra-Nangal areas .. .. .	147 01	31 35
Total .. .. .	12,634 67	3,008.28

In formulating the Second Five-Year Plan not only is provision made for the completion of such Projects as were started in the First Plan, but adequate funds have also been provided for the development of Industries, Transport, Communications, Health and Education.

It is hoped that by 1960-61, 31.22 lakh acres of more land will be irrigated by the canal system and other major schemes. This will result in an enormous increase in the agricultural production. The addition in foodgrains will be 9.9 lakh tons, in cotton 3.45 lakh bales, sugarcane 1.1 lakh tons and oil seeds 14,000 tons over the 1955-56 figures. On the electricity side, it is proposed to construct further generating units to achieve a generating capacity of 88,20,000 KWh. The benefits of electricity will be extended to the rural area covering 4,000 to 5,000 additional villages in the Punjab region and 700 villages in PEPSU. The per capita consumption of electricity in the Punjab is now 10 KWh. This is expected to rise to 50 KWh by 1960-61.

Along with the expansion of technical institutions, it is proposed during the Second Five-Year Plan to give elementary education to 60 to 65 per cent of the children in the age group 6-11 and 37½ per cent of the age group 11-14 as against the All India target of 60 per cent and 19 per cent respectively. Besides, ten per cent of the elementary schools will be converted to the basic type, while a substantial expansion will also be effected in the conversion of high schools to the multi-purpose type, in girls education, in training facilities and in special education.

With the establishment of more hospitals, dispensaries and health units in the rural areas and further nationalization of dispensaries, it is anticipated that after the end of the Second Plan, medical relief will be available within a radius of five miles of every village.

The Second Plan provides for the construction of 1,437 miles of roads in the Punjab region and 669 miles in the PEPSU area.

With the establishment of 169 additional blocks during the Second Five-Year Plan the entire State will come under the Community Development Programme.

The Government plan of development of the Chandigarh Capital would also be completed during the Second Plan period. The revised estimated cost of the project is Rs. 22.30 crores.

#### BUDGET (1957-58)

Revenue receipts : Rs. 40.11 crores.

Revenue expenditure : Rs. 43.73 crores.

Deficit : Rs. 3.62 crores.

#### DISPLACED PERSONS

Every fifth individual in the former Punjab area is a displaced person. The 1951 Census puts the figure of emigrants from Pakistan who have settled in this area at 2,375,997 out of a total population of 12,641,205. Displaced land-owners from West Pakistan were immediately put on the evacuee land left by Muslims in this part of the Punjab. There was a big gap between the available agricultural evacuee area—47,35,310 ordinary acres in Punjab and PEPSU—and the land abandoned by Indian nationals—67,29,050 ordinary acres—in West Pakistan. This gap was covered by adopting a scheme of graded cuts.

To enable displaced persons to start business, profession or industry, small urban loans amounting to Rs. 2,33,09,113 were advanced to 24,019 persons and 778 co-operative societies upto January 1, 1955. Similarly, a sum of Rs. 1.22 crores was advanced to purchasers of plots and co-operative societies for construction of houses on plots purchased by them in various new townships of the State. For the year 1955-56, Rs. 15 lakhs was provided for the grant of small urban loans and Rs. 88 lakhs for the grant of house-building loans.

An aggregate amount of a little over Rs. five crores has been paid so far either in cash or in the form of allotment of evacuee or Government owned immovable property on quasi-permanent basis.

##### SHIROMANI GURDWARA PARBANDHAK COMMITTEE, AMRITSAR

(Teja Singh Samundri Hall, Amritsar)

The Shiromani Gurdwara Parbandhak Committee is constituted under the provisions of the Sikh Gurdwaras Act, 1925 (Punjab Act VIII of 1925). It consists of

- (i) 132 elected members;
- (ii) Head Priests of Darbar Sahib, Amritsar and the following four Takhts:—(a) Sri Akal Takht Sahib, Amritsar; (b) Sri Takht Kesgarh Sahib, Anandpur; (c) Sri Takht Patna Sahib, Patna; and (d) Sri Takht Hazur Sahib, Nanded (Bombay)
- (iii) 25 members co-opted by the above mentioned 137 members. Out of these co-opted members at least 12 members are co-opted from the area covered by the former PEPSU State and not more than four members from the area covered by the former Punjab

Every Sikh man or woman, more than 21 years of age, who resides in the Punjab is entitled to have his name registered on the electoral roll of a constituency formed for the election of a member or members of the board provided he does not trim or shave his beard or Keshas except in case of Salsadlari Sikh and does not smoke or take alcoholic drinks. Every voter is eligible for election provided he is not of unsound mind, is not an undischarged insolvent, is not an apostate from the Sikh religion, does not take alcoholic drinks, is not a Minister of a Notified Sikh Gurdwara, other than mentioned above in clause (ii), is not a paid servant of any Notified Sikh Gurdwara, being a Keshadlari Sikh is not an Amritdhari and can read and write Gurmukhi.

Elections to the Shiromani Gurdwara Parbandhak Committee are held every five years. Dates for the elections are fixed by the State Government and the preparation of electoral rolls and other arrangements are also made by the state Government.

The Shiromani Gurdwara Parbandhak Committee directly manages some of the important and historic Sikh Gurdwaras situated within the Punjab. All the above mentioned Gurdwaras are administered by a Committee of Management consisting of five members of whom four are elected by the voters of the constituency concerned and one member is nominated by the Shiromani Gurdwara Parbandhak Committee. The S.G.P.C. supervises the affairs of these Gurdwaras.

A Judicial Commission is also constituted under the provisions of the Sikh Gurdwaras Act to settle disputes regarding the management of the Gurdwaras. This commission has the same powers as are vested in a Court by the Code of Civil Procedure, and the Commission has unlimited jurisdiction as regards the value of the suits throughout the Punjab.

Under the provisions of the Sikh Gurdwaras Act, the S.G.P.C. and the Gurdwaras under its control and supervision can spend their funds for religious, charitable, educational or industrial purposes and also for such non-political purposes as are connected with the general uplift and welfare of the Sikhs. Its accounts are annually audited by the Auditors appointed by the State Government.

In the last Gurdwara elections, out of 132 elected members 110 members were elected on the ticket of the Shiromani Akali Dal, four members on the ticket of the Khalsa Dal i.e. Congress Sikhs and 18 on the ticket of the Desh Bhagat Board, i.e. Communist.

The S.G.P.C. manages about 500 Gurdwaras in the Punjab. Before partition there were about 750 Gurdwaras under the S.G.P.C.

The S.G.P.C. also runs an Arts College, an Industrial College and School and several High Schools, hospitals, and libraries.

Master Tara Singh was unanimously elected President at the annual meeting held in November, 1956.

Rajasthani in its various dialects is spoken all over the State. The common language is Hindi.

Among castes and tribes in Rajasthan are the Brahmins, Jats, Mahajans, Chamars, Rajputs, Meenas, Gujars, Bhils, Malis or Kachhis and Balas.

Rajasthan was formed through an integration of the following former Princely States :

Jodhpur, Jaipur, Bikaner, Jaisalmer, Banswara, Bundi, Dungarpur, Jhalawar, Kishangarh, Kotah, Partappgarh, Shahpura, Tonk, Udaipur, Alwar, Bharatpur, Dholpur, Karauli and the centrally administered territory of Ajmer

The original Rajasthan State came into being on April 18, 1948, when Kotah and eight other States were integrated. Soon after Udaipur joined the Union Jodhpur, Jaipur, Bikaner and Jaisalmer joined it towards the end of March 1949. The Matsya States of Alwar, Bharatpur, Dholpur and Karauli joined it on May 15, 1949. The erstwhile Part C State of Ajmer was amalgamated with it on November 1, 1956

## BUDGET FOR 1957-58

Revenue Receipts	Rs. 2,938.33 lakhs.
Revenue Expenditure	„ 3,218.91 lakhs.
Deficit	„ 280.61 lakhs.

## GEOGRAPHY

The Aravalli mountains intersect Rajasthan from end to end by a line running north-east and south-west. The heights of Mount Abu, merged into Rajasthan on November 1, 1956, are close to the south-western extremity of the range, while its north-eastern end may be said to terminate near Khetri almost on the borders of Delhi.

There are two main regions, one to the north-west of the hills and the other to the south-east. On the whole the north-west region is sandy, ill-watered and unproductive; it improves gradually as we move from west to east. In the extreme west it is mere desert, while towards the east it is comparatively fertile and habitable. The only river of any consequence here is the Luni. The great desert forming the whole of the frontier between Rajasthan and Sind is covered by sand-hills on which grows a kind of coarse grass in the dry season and a slightly richer vegetation depending upon the scanty rainfall.

The cultivation is everywhere poor and precarious. Along the base of the Aravalli range the land is well cultivated.

The region south-east of the Aravallis is higher, more fertile, and very diversified in character. It contains extensive hill ranges, long stretches of rocky wood and woodland. The region is traversed by many rivers and in some parts there are wide valleys, fertile table-lands and great stretches of excellent soil. The chief rivers are Banas and Chambal.

There are no natural fresh-water lakes in Rajasthan, the only considerable basin being the well-known salt lake at Sambhar. There are, however, numerous artificial sheets of water in the eastern half of the State. Among the many artificial lakes mention may be made of the Jai Samand, the Raj Samand, the Pichola (Udaipur), the Pushkar and the Anasagar (Ajmer).

Rainfall is very unequally distributed throughout Rajasthan. The summers are very hot; hot winds and dust storms are common. The winters are very cold. The change of temperature between day and night is sudden, excessive and very trying.

## MINERALS, MANUFACTURES

Rajasthan is an important mineral and building stone producing State. It produces on an average about 60 per cent of India's total production of soapstone. It produces mica and beryl in large quantities.

The non-metallic minerals are silica sand, Felspar, Asbestos Barytes, Clays, Dolomite, Fuller's earth, Bentonite, etc. The metallic minerals are lead, zinc, silver ore and tungsten ore. Appreciable tonnage of iron and manganese ores has also been produced. It is the sole supplier of gypsum for fertiliser manufacture to Sindri plant.

Lignite coal is mined near Palana in Bikaner Division. There are vast deposits of high quality building stones such as marbles, sandstones and limestones. The latter are used for the manufacture of Portland cement at Lakheri and Sawai Madhopur and for lime at a number of places. Marble quarried at Makrana in Jodhpur Division is famous as building stone.

Large resources of sodium sulphate and salt also occur at Didwana and Sambhar lakes. On an average the State produces about three crores of rupees worth of minerals annually and thirty different varieties of minerals are worked.

The most important industries are Tle and Dye Fabrics, Gota Khari (Silver and Gold laces), Lacquer wooden toys, Handmade paper, Paper Maché toys, Gem cutting, cloth printing, Dolls, manufacture of tools and implements, Embroidered shoes and leather bags, and water bottles (Badas).

Among the chief exports are salt, wool, woollen fabrics, raw cotton, oilseeds, opium, ghee, marble and sandstone, hides, printed cloth, camels, cattle, sheep and goats. The main imports include food grains, cotton piece goods, sugar, metals, timber and kerosene oil. The principal trade centres are the capitals of the former States.

#### LAND TENURE

##### Land Tenure Systems in the State :

There are three kinds of land tenures in the State viz., Ryaswari, Jagirdari and Zamindari.

The Rajasthan Tenancy Act aims at introducing a uniform Tenancy Law for the whole of the State and will remove the diversity of conditions prevailing in different parts of Rajasthan in respect of Land Tenures and relations of tenants and landlords or tenants and Government.

The Rajasthan Land Reforms and Resumption of Jagirs Act, 1952 has been enacted for the resumption of Jagir Lands, with the exception of jagirs utilised for the maintenance of any place of religious worship or for the performance of religious service. An Amendment Act was enacted in 1954. It also contains provisions for

allotment of Khudkast land to Jagirdars and removes the exemption from resumption to Jagirs with annual income below Rs. 5,000. It provides for a more generous scale of compensation including rehabilitation grant.

The Act came into force from 18th February 1952. Resumption of Jagirs was started immediately after the Amendment Act was passed on 16th June 1954. 2,871 jagirs with a rental income of Rs. 1,25,83,549 have been resumed upto the end of 1954.

The Rajasthan Land Revenue Bill, 1954 deals with the establishment of all grades of revenue courts and their powers and procedure, Survey, land records, settlement, partition of estates and collection of land revenue.

Persons to whom this land is to be allotted. The landless peasants for Khudkast.

Source of acquisition of compensation money. From the resources of the State with the assistance of the Central Government.

How the tenants are helped to acquire the land so released ; Rules have been framed from time to time for allotment of land with a view to encouraging Grow More Food. These were revised in 1953 to make better provision for allotment of land to landless persons and agricultural labourers.

**Rajasthan Canal Construction :** The Government of India has decided to take up the construction of the Rajasthan Canal from the Harike barrage across the Sutley. The Governments of Rajasthan and the Punjab have accordingly started making preliminary arrangements for the execution of the scheme.

The Rajasthan Canal, which is a Second Five-Year Plan project, will have a discharge of 18,500 cusecs at the head. About 425 miles in length, it will benefit extensive areas in Ganganagar, Bikaner and Jaisalmer Districts of Rajasthan State.

The rainfall in these districts is scanty and varies between three and 12 inches per annum. The region is sparsely populated and frequently ravaged by famine. The construction of the canal will open up a new area for agriculture, improve the economic condition of the people and rehabilitate a large number of refugees from Pakistan.

Estimated to cost Rs. 66.47 crores, the canal will provide irrigation facilities to a gross area of 5.11 million acres, of which 3.35 million acres are cultivable. On full development the area irrigated annually will be about 2.02 million acres, yielding nearly 9.50 lakh tons of additional food grains and cash crops valued at Rs. 29 crores.

## TRIPURA

### Capital : Agartala.

After the reorganization in November 1956, the State has been a Union Territory.

Tripura Territory is bounded on the north by the Sylhet District of East Pakistan and Cachar District of the Indian Union, on the west by the Sylhet, Tippera and Noakhali Districts of East Pakistan and on the east by the Lushai Hill Tract District of the Indian Union and the Chittagong Hill Tracts of East Pakistan. The major portion of the Territory is hilly and full of jungles.

The land area of the Territory is 4,032 sq. miles, and the population according to the 1951 census 639,029. The increase over 1941, was 24.56 per cent. The number of refugees was 361,710 in 1956. Out of this about 238,000 had been rehabilitated in different parts of the Territory. The total population in 1956 has been put at 1,007,426.

The agricultural wealth of the Territory consists of paddy, jute, cotton, tea and fruit such as pineapple, jackfruit, etc., while forests yield timber, firewood, bamboo and charcoal. Paddy is the main source of revenue.

There is only one District—Tripura, one municipality and no Panchayats.

The Territory is divided into ten administrative Sub-Divisions—Sadar, Khowal, Kailashahar, Dharmanagar, Sonamura, Udaipur, Belonia, Sabroom, Kamalpur and Amarapur.

Sadar Sub-Division has a population of 402,381 and is divided into ten Tahsils—Sadar, Puranagar, Bamtula, Mohanpur, Simna, Ishan-chandranagar, Kamalasagar, Takarjala, Bishalgar, Charliam.

Khowal Sub-Division has a population of 85,265 and is divided into three Tahsils—Khowal, Kalyanpur and Ashrambari.

Kailashahar Sub-Division has a population of 101,345 and is divided into two Tahsils—Kailashahar and Fatikroy.

Dharmanagar Sub-Division has a population of 91,185 and is divided into five Tahsils—Dharmanagar, Brajendranagar, Kurti, Kanchanpur and Longai.

Sonamura Sub-Division has a population of 67,588 and is divided into five Tahsils—Sonamura, Kathalla, Bakshanagar, Dhanpur and Matinagar.

Udaipur Sub-Division has a population of 83,270 and is divided into two Tahsils—Radhakshorepore and Salgarah.

Belonia Sub-Division has a population of 67,317 and is divided into seven Tahsils—Belonia, Rajnagar, Radhanagar, Puranrajbari, Siddhinaragar, Rishyamukh and Muhuripur.

Sabroom Sub-Division has a population of 33,383 and is divided into five Tahsils—Sabroom, Manu, Amilghat, Samarendranagar and Gorakapa.

Kamalpur Sub-Division has a population of 46,214 and is divided into three Tahsils—Kamalpur, Tejamura and Kulai.

Amarapur Sub-Division has a population of 29,478 and is divided into three Tahsils—Birganj, Omphul and Dumboornagar.

The Chief Commissioner who is the head of the Territory, is assisted by six Secretaries, each in charge of several Departments.

There is a Council of three Advisers.

There is also a District Magistrate and an additional District Magistrate, and for each of the Divisions an S.D.O. On the judicial side there is a Judicial Commissioner's Court which is the highest Court in the Territory. There is also a District and Sessions Court, one Court of Subordinate and Assistant Sessions Judge and seven Munsiff Courts.

The Tripura Budget is part of the Government of India Budget.

Total income of Territory (1954-55): Rs. 35,88,405.

### ECONOMY

More particulars (1955-56 generally) relating to the Territory are given below :

The source of power is the Agartala Electric Supply in Agartala town. This is proposed to be nationalized and expanded. Expansion is expected to be completed at the end of 1957 when the capacity of the plant will increase to 535 kW.

Average daily number of workers employed in registered factories 1,058.

Minimum wages are fixed in the following : tea plantations (Rs. 31-15-0 a month), agriculture, bidi making (Rs. 39 a month)

Total no. of members of trade unions : 6,365.

A plantation labour housing scheme has been drawn up by the Government of India. The amount of money allotted for this purpose is Rs 2 lakhs under the Second Plan. Loans will be given to small planters at 4½ per cent. interest. An Advisory Board has been constituted to recommend standards of accommodation, etc.

There are no large-scale industries in the Territory. Cottage industries include handlooms, carpentry, black-smithy, bidi making, soap, basketry, pottery. The total value of the finished goods will be about Rs. 1.40 crores. Most of these are family undertakings. Out of the 5,800 persons engaged in cottage industries about 890 are paid workers.

The imports consist of dry fish, fresh fish, vegetables, poultry and eggs, and the exports of bamboo and thatches.

There are three types of land tenure in the Territory : Kayami Taluks, Takshishi Taluks, Khas Jami or Royati right.

The Acts governing the three systems are : Rajaawa Sambandhiya Niyambali for the Kayami, Contract and customary law for the Takshishi, and the Landlord and Tenant Act (Act I of 1296 T.E.).

The Kayami Taluks are held in fixed rent with full and permanent rights of ownership. If the rent is in arrear the taluk can be put up for sale.

The Takshishi are held on settlement, mostly for 20 years with succession right of renewal on enhanced revenue.

The more important provisions of the Landlord-Tenant Law are as follows :

Term of settlement is from 5 to 7 years. But if the tenant continues to pay rent, the settlement remains valid. Under the existing Tenancy Act, a tenant has no legal right to build a pucca house, excavate a tank, or grow or fell a prohibited tree in his holding. He is liable to be ejected if he fails to mutate his name within 6 months after his succession. Pucca structures can be constructed on lands settled in higher right (Kayami or Takshishi right).

No laws have been passed for the expropriation of the non-proprietary rentier class - the so-called Zamindari or Jagirdari abolition Acts.

Quantity of improved seeds distributed in 1955-56 : Kharif (141,270 maunds); Rabi (537,152 maunds).

Number of seed farms during 1955-56 : 29.

Targets set for food crops : For 1954-55 : Kharif 880,000 maunds; Rabi 975,000 maunds.

For 1955-56 : Kharif 542,000 maunds; Rabi 1,232,100 maunds.

Rise in production of different crops owing to Grow More Food campaign : 10 to 15 per cent on the average yield due to the use of improved seeds.

### CIVIL SUPPLIES

There is no rationing of foodgrains, salt or sugar. Imported wheat is however being distributed through fair price shops in 36 towns and at subsidized rates in flood affected and chronically deficit hill areas of the State.

Following are the figures of issues for 1956 : Through fair price shops in towns : 1,947,187 mds.; Flood affected areas : 855,712 mds.; Hill areas : 144,900 mds.; Total : 2,727,749 mds.

Supply of coal dust in U.P. in 1955 :

Allotment—510,972 tons; Actual supply—483,444 tons.

Supply of cement in 1955 : Allotment—307,850 tons; Actual supply—289,054 tons.

Articles in which the State is in surplus and the actual surplus : Gur and sugar which share over 50 per cent of the export trade of the country. Pulses particularly arhar and peas. One to two tons are sent out to deficit States.

### LAND TENURE

With the vesting of zamindari, following new legislation, on July 1, 1952 in 48 out of the State's 51 districts, estates of nearly 20 lakh zamindars were taken over resulting in direct contact with 12,800,000 Kisans. The area of land taken over from intermediaries is about 6 crores acres.

Liquidated zamindars retain such of Sir, Khudkast and groves of which they have become Bhumidhars.

The new land tenures under the U.P. Zamindari Abolition and Land Reforms Act are : Bhumidhar, Sirdar, Adhivasi, Asami.

The following laws govern the different tenures extant in the State and other matters connected with them :

1. The U.P. Zamindari Abolition and Land Reforms Act governs the new tenures; 2. The U.P. Tenancy Act, 1939 governs small pockets where the U.P. Zamindari Abolition and Land Reforms Act, 1950 does not yet apply such as the urban areas; 3. The U.P. Land Revenue Act of 1901 as amended from time to time; 4. The U.P. Bhoodan Yagna Act, 1952; 5. The U.P. Land Reforms (Supplementary) Act, 1952; 6. The U.P. Commutation of Rent (Regulation of Proceedings) Act, 1952; 7. The U.P. Land Tenures (Regulation of Transfer) Act, 1952; 8. The Jaunsar Bawar Security of Tenure and Land Records Act, 1952; 9. The U.P. Zamindars' Debt Reduction Act; 10. The U.P. Agricultural Tenants' (Acquisition of Privileges) Act, 1946.

The main features of the Zamindari Abolition, etc. Act are: Extinction of intermediaries' rights; Payment of equitable compensation; Payment of rehabilitation grant to ex-intermediaries who paid land revenue upto Rs. 10,000 per annum; Undisturbed possession of land by actual tillers of soil and conferment of greater rights upon them; Undisturbed possession by every person of his house, well or grove; No landlord-tenant system to be in force in future i.e. prohibition of sub-letting except in restricted cases; Prevention of uneconomic holdings; Village community to own all common lands and to have powers of land management; The entire body of tenure-holders to be jointly and severally responsible for the payment of land revenue; and facilities for co-operative farming.

Every ex-intermediary (ex-zamindar) is entitled to compensation at the rate of eight times his net assets. In addition, every ex-intermediary, whose land revenue did not exceed Rs. 10,000 would be given rehabilitation grant at the specified scale.

## IRRIGATION

Area irrigated by State Irrigation works (1955-56): 6,383,302 acres.

Number of tube-wells energised and brought into operation till end of 1955-56: 4,487. Total number tube-wells constructed: 5,163. Area irrigated in 1955-56 by State tube-wells: 1,129,277 acres.

Names of dams completed and opened for irrigation during the First Five Year Plan: Lalitpur, Saprar, Rangawan, Arjun, Ahrawa, Sirsi under 'Belan and Tons Canal', Kabrai Lake, Nagwa and Matatila Dam Stage I.

Among the major schemes completed during the first Plan period are also 803 and 1,062 miles extension of Sarda Canal, Pratapgarh Branch, Transkalyani Project, Shahganj Distributary and Banganga Canal. The Ganga, Eastern Yamuna and Agra canals have also been remodelled and their capacity increased.

Names of larger irrigation works with capacity and area irrigated during 1955-56 within brackets:

Upper Ganga Canal (10,000 cusecs, 1,511,067 acres); Lower Ganga Canal (5,170 cusecs, 1,080,406 acres); Eastern Yamuna Canal (2,286 cusecs, 454,170 acres); Agra Canal (1,800 cusecs, 319,509 acres); Sarda Canal

(11,000 cusecs, 958,245 acres); Betwa Canal (2,354 cusecs, 210,808 acres); Dhasan Canal (740 cusecs, 77,582 acres); Ken Canal (1,066 cusecs, 139,387 acres); Ghagra Pumped Canal (196 cusecs, 24,474 acres); Ghagar Canal (118,520 acres); Ramganga Canal (200 cusecs, 22,211 acres); Bijnor Canal (187 cusecs, 17,506 acres); Rohilkhand Canal (661 cusecs, 45,001 acres).

Names of irrigation projects in execution with the area in acres which will be irrigated and total cost in lakhs of rupees within brackets:

803 miles extension of Sarda Canal (1,76,000; 50.00); 1,062 miles extension of Sarda Canal (1,76,000; 110.00); Pratapgarh Branch (Extension of Sarda Canal) (57,000; 71.00); Transkalyani Project (Extension of Sarda Canal) (74,000; 60.00); Sarda Canal Reservoir in Tarai Forest Stage I including Jaunpur Branch and Increasing capacity of Sarda Canal (1,72,000; 479.49); Increasing capacity of Ganga Canal (1,12,000; 16.00); Irrigation Schemes in Kumaon (21,500; 43.50); Banganga Canal (22,000; 36.32); Matatila Dam Stage I (2,64,500; 487.56); Arjun Dam (27,000; 115.00); Belan and Tons Canal (1,01,477; 193.48); Ahraura Dam (22,000; 59.02); Chandraprabha Dam (24,000; 87.71); Shahganj Distributary (20,000; 18.70); Tanda Pumped Canal (60,000; 65.00); Dohrihat Pumped Canal (1,39,000; 129.00); Naugarh Dam (80,000; 132.97).

A number of minor irrigation schemes have been constructed during the first plan period as a result of which an additional area of 281,000 acres has been brought under irrigation. The total additional area brought under irrigation from the State Irrigation works completed during First Five Year Plan period is 2,841,000 acres and the total estimated rise in output is 6.25 lakh tons.

Forest: Total area: 13,410 sq. miles; Private forests: 8,800 sq. miles; Revenue (1954-55): Rs. 3,51,67,000; Expenditure: Rs. 1,58,60,100.

Community Projects: There are 26 community project blocks covering an area of 5,988 square miles, with a population of 2,009,024.

National Extension Service: There are 114 National Extension Service blocks covering about 15,300 villages with a population of about 78 lakhs. The service was extended to another 21 blocks on January 28, 1956. These

blocks cover another 2,000 villages and will benefit over 15 lakh people.

## LARGE-SCALE INDUSTRIES, MANUFACTURES

Important large-scale industries in the State are Textile (Cotton, Woolen and Jute), Sugar, Power Alcohol, Glass, Leather and Tanning, Oils, Vanaspathi, Resin and Turpentine, Lantern, Paper and Paper Board, Hosiery, Bobbins, Starch, Agricultural Implements, Catechu, Match, Metal Rolling, Engineering, Cigarettes, Precision Instruments and Cement.

The State has promoted a number of such small scale industries as Paints, Varnishes, Chemicals, Bone-Meal, Button, Sand Paper, Tin

Container Manufacturing, Plastic, Carbon paper making, Fruit Preservation, Bicycles and Perambulators, Pharmaceutical Products, Soaps, Sports goods, Locks, Glass Bangles, Brushware, Drawing and Survey Instruments, Scissors and Razors.

The State is not rich in minerals. Limestone, iron and copper ores are found in the Himalayan districts.

Coalfields exist in the district of Mirzapur in Tehsil Sangrauli. Gold is found in minute quantities by washing the sands in some of the

rivers in the hills. Limestone is found in the Himalayas and in the districts of Banda and Mirzapur and stone is largely quarried in the districts of Allahabad, Hamirpur, Banda and Mirzapur. At Churk in Mirzapur District, Government have set up a cement factory with an installed capacity of manufacturing 700 tons of cement per day. This factory is utilising the limestone of Mirzapur. It produced about 1.66 lakh tons of cement from January to the end of November 1955. A stockist organisation has been set up in 24 districts in the eastern and central parts of the State for marketing the cement.

The Government Precision Instrument Factory at Lucknow is engaged in the manufacture of water meters and microscopes of the student and research types. It has a capacity of manufacturing 20,000 water meters and 200 microscopes in a year. It produced about 10,000 water meters of  $\frac{1}{2}$ " and  $\frac{3}{4}$ " size from January to end of November 1955.

Kanpur is the chief centre for cotton spinning and weaving mills. According to the latest figures available about 3,000 persons are employed in cotton spinning, cleaning and pressing factories and 72,000 in spinning and weaving mills.

Agra, the principal centre of shoemaking, is rightly called the Northampton of India and produces shoes worth over a crore of rupees a year. Kanpur is next to it in importance.

For further development of the leather tanning industry, the setting up of 24 new tanning centres and six new training centres, has been sanctioned, besides the opening of a research and testing laboratory for conducting research and investigation to find out the optimum conditions and proper tanning properties of indigenous tanning material.

The glass industry is important at Bahjoi, Balawali, Sassi, Harangau, Shikohabad, Naini (Allahabad), Ghaziabad and Banaras. Firozabad is the chief centre for manufacturing glass bangles in India.

There are over forty hollow-ware factories, and eighty glass bangle factories in the State. Out of these hollow-ware factories ten are large-scale factories and the others are comparatively small. The total amount of goods produced in these hollow-ware factories is estimated at 25,000 tons per year valued at 4.5 crores of rupees per year. The bangle factories at Firozabad produce about 10,000 tons of bangles per year, valued at Rs. 6 crores.

There are four factories manufacturing vegetable ghee with a capacity of about 150 tons per day. The oil crushing industry is well developed in the State since U. P. produces about 2½ crore maunds of oil-seeds. There are over 150 big oil mills registered under Factories Acts and over 250 small oil mills working with power. About half a dozen oil mills are equipped with refining plant.

There are about 25 big soap factories besides a large number of small manufacturers producing in all about 3 lakh maunds of toilet and washing soap annually.

Paints and varnishes industry is being developed with the coming into existence of 6 paints and varnishes factories producing 3,500 tons of paints and 150,000 gallons of enamel and varnish annually.

Boiled oil is already being manufactured by some firms producing about 450,000 gallons annually.

Allied industries like textile auxiliaries and tolls are being manufactured at some places.

Tin canisters are made at Agra, Hathras, Etawah, Mainpuri and Ghaziabad.

There are Fruit Preservation and Canning Institutes at Lucknow and Ramgarh, under the Director of Fruit Utilisation with headquarters at Ranikhet. A fruit processing factory has also been established by the State at Ramgarh.

The sports goods industry in the State is mainly concentrated in Meerut. In order to improve the quality of its products, the industry has been brought within the fold of the Quality Marking Scheme.

(For sugar industry see article "Sugar Industry".)

In cottage industries Agra Footwear, Banaras and Moradabad artistic brasswares, Banaras Silk and Brocade, Saharanpur Wood Carving, Farrukhabad Prints, Lucknow Bidar and Chikan works and Handloom Fabrics, Carpet and Shellac industries of Mirzapur, are noteworthy.

The Directorate of Industries, U.P. has launched a number of schemes to train educated young men in arts and crafts. A tailoring centre has been established at Lucknow. Other training schemes are being implemented at the Occupational Institute, Lucknow, Government Textile Institute and Government Leather Work Institute, Kanpur. Training in weaving and dyeing is also imparted at the Banaras Central Weaving and Research Institute, Banaras.

With a view to giving a fillip to the famous Moradabad Brassware Industry, a Training-cum-Production centre has been set up at Moradabad to impart training in different manufacturing processes of art brassware, domestic brassware, electroplating and introduction of new designs for artistic wares.

Under the Handloom Development Scheme, 68 sales depots and 85 dye houses had been established till the end of August 1955. A dyeing and finishing factory has also been established at Mau, District Azamgarh. Steps are being taken to open medium size dye houses at Meerut and Barabanki where the necessary machines have already arrived.

Upto the end of August 1955, 114 Co-operative Production Centres were organised comprising 99,233 weavers. The production centres produced handloom goods valued at Rs. 1,47,18,056 in 1954-55 and Rs. 86,54,155 from April to the end of August 1955. The sale of handloom products during the same period was of Rs. 1,59,56,681 and Rs. 97,89,983 respectively.

In accordance with the recommendations of the Small Scale and Village Industries Board, a training-cum-production centre has been set up at Meerut to give technical advice to the razor and scissors industries.

With the assistance of the Central Government, a designs section has also been opened at the Government School of Arts and Crafts, Lucknow. It creates new designs for the various cottage industries particularly the textile, brassware and pottery making industries.

*Plan for Progress*

## Industry in India

Steel biting  into the earth, metal and concrete taking shape as buildings, and giant machines roaring into action are today changing the pattern of India's economy through dynamic industrialisation.  Over

Rs. 1,000 crores will be spent on the expansion of industries during the Second  Five Year Plan. This intensive development programme will increase the national income,

 create more employment and bring the benefits of modern living to India's millions. 

Proud to play a part in this mighty adventure of building a new India, Textile Machinery Corporation Limited, pioneer in many fields of engineering, supplies industry, railways and river valley projects with a wide range of equipment.

 *geared to our better tomorrows*

## WEST BENGAL

Area: 88,270 sq. miles; Population: 26.16 million.

Capital: Calcutta.

There are two Divisions in the State, the Burdwan Division and the Presidency Division.

The Districts in the Burdwan Division with their headquarters in brackets are as follows:

Bankura (Bankura), Birbhum (Buri), Burdwan (Burdwan), Hooghly (Chinsura), Howrah (Howrah), Midnapore (Midnapore), Purulia (Purulia).

The Districts in the Presidency Division with their headquarters in brackets are as follows:

Calcutta, Cooch-Bihar (Cooch-Bihar), Darjeeling (Darjeeling), Dinajpur (Balurghat), Jalpaiguri (Jalpaiguri), Malda (English Bazar), Murshidabad (Berhampur), Nadia (Krishnagar), 24 Parganas (Alipuri).

The boundaries of the present State as between East and West were fixed by the Radcliffe award.

Cooch-Bihar was merged with West Bengal in January 1950.

Chandernagore has been included in the district of Hooghly as one of its sub-divisions. Area: 8.9 sq. miles. Population: 49,909.

After the reorganization of States in November 1956, Bihar areas comprising 3,157 Sq. miles having a population of 1.35 million have been added to West Bengal.

### POPULATIONS OF DISTRICTS

Burdwan 2,191,667; Birbhum 1,066,889; Bankura 1,810,259; Midnapore 3,850,022; Howrah 1,611,378; Hooghly 1,664,320 (excluding Chandernagore); 24 Parganas 4,609,809; Calcutta 2,646,677; Nadia 1,144,924; Murshidabad 1,715,759; West Dinajpur 720,573; Malda 987,580; Jalpaiguri 614,538; Darjeeling 445,260; Cooch-Bihar 671,158; Purulia 11,69,097.

### AREA OF DISTRICTS

Bankura 2,647 sq. miles; Birbhum 1,743 sq. miles; Burdwan 2,705; Cooch-Bihar 1,824; Darjeeling 1,200; Hooghly 1,208; Howrah 568; Jalpaiguri 237.8; Malda 1,392; Midnapore 5,258.1; Murshidabad 2,072.1; Nadia 1,609; 24 Parganas 5,639.9; West Dinajpur 1,384.8; Purulia 2,407.

### AGRICULTURE

Acreage and production of principal crops in 1954-55 are as follows:

	Area (acres)	Production (tons)
Aman rice ..	85,44,200	33,41,600
Aus rice ..	12,46,800	3,98,160
Boro rice ..	4,44,000	16,400
<b>Total rice ..</b>	<b>1,02,35,000</b>	<b>37,58,100</b>
Wheat ..	1,41,000	44,900
Sugarcane ..	56,800	1,10,810
Jute ..	5,50,800	14,06,400

In the sphere of agriculture, approximately 25 lakh tons of additional foodgrains had been produced. About 5.28 lakh tons of manures and fertilisers were produced and distributed. Six improved seed multiplication farms had been established and 8,112 tons of improved seeds had been distributed. 2,401 demonstration centres had been established in rural areas. Land covering 80,490 acres had been reclaimed through tractors.

Zamindaris and intermediary interests in West Bengal were abolished on April 15, 1956 corresponding to the 1st of Baisakh in the Bengalee Year.

An intermediary has been allowed to retain among other things agricultural land in khas possession upto 25 acres, non-agricultural land in khas possession upto a limit of 15 acres but not exceeding 20 acres including homestead land.

Payment of compensation is being made as follows:

For the first Rs. 500 or less, 20 times of such net income; for the next 500 or less 18 times; for the next 1,000 or less, 17 times; for the next 2,000 or less 12 times; for the next 1,000 or less, 10 times; for the next 15,000 or less, 6 times; for the next 80,000 or less, 3 times; for the balance, 2 times.

Payment is being made partly in cash and partly in non-negotiable annuity bonds at 8 per cent per annum and payable in 20 equal annual instalments.

**Sonarpur-Arapanah Scheme:** The Sonarpur-Arapanah-Malda Drainage Scheme of reclaiming vast water-logged tracts with powerful pumping plants, is the first of its kind in India and the biggest in Asia. The first part of the scheme having been started in 1951 and costing nearly

Rs. 44 lakh is now complete. The second part of the scheme is in progress. Under the first part of the Scheme, a submerged area of 23,260 acres has been reclaimed for cultivation. The total yield of paddy from these large tracts of land was 21,000 maunds.

**Bagjola Drainage Scheme:** Rs. 99-lakh Bagjola Drainage Scheme is intended to improve the drainage of 116 square miles of area. The scheme when completed will reclaim 25,600 acres of water-logged lands and render them fit for cultivation, which will result in annual additional yield of 12,091 tons of paddy and 1,619 tons of rabi crops.

### IRRIGATION

During the First Five-Year Plan period, the multi-purpose schemes namely the Mayurakshi Reservoir Project, two medium irrigation and two medium drainage schemes and 115 units of minor schemes had been completed. The Mayurakshi Reservoir Project involves the harnessing of the Mayurakshi River. The scheme taken up under the First Plan had already thrown open about 4.67 lakh acres of land to the benefit of perennial irrigation.

### DAMODAR VALLEY CORPORATION

The Damodar Valley Corporation Act was passed in March 1948, and the Corporation itself came into existence on July 7.

The Damodar Project is a multi-purpose one, for purposes of flood control, irrigation, power and navigation.

(For details see under "Irrigation")

### SOME MAJOR SCHEMES

**Durgapur Coke-oven and Gas Grid:** A coke-oven plant capable of handling daily 1,800 tons of coal and coke breeze (1,235 tons of coal and 65 tons of coke breeze) at Durgapur in the district of Burdwan and auxiliary plants for the recovery of by-products from coke-oven gas (ammonia, sulphuric acid, coal-tar, crude benzene and its rectified products), and a coal-tar distillation plant, with a daily input of 50 tons of coal-tar. The fixed capital investment is estimated at Rs. 5.25 crores. The requirements of working capital have been estimated at Rs. 35 lakhs.

**The Ganga Barrage Scheme:** The scheme will ensure permanent head-water supplies required for the conservation of the river Hooghly in an efficient condition. In 1948, the West Bengal Government requested the Central Government to investigate the possibility of a barrage across the Ganga. Investigations have already been completed with the finding that a barrage across the Ganga is a technically feasible project. The project is under further scrutiny. The project when finalised will provide direct road and

rail communication between the north and south Bengal. It will improve the Calcutta Port by pushing back silt and improving the channel. It will improve the health and economic conditions of the area. The cost of this scheme is expected to be about Rs. 44 crores.

**Reclamation of Salt Lakes:** The scheme for the reclamation of the swampy northern and southern salt lakes covering about 33 square miles on the eastern fringes of Calcutta aims at liquidating the scourge of malaria and at reclaiming the water-logged areas, partly for the extension of the City and partly for agricultural purposes. On the basis of the experts' reports, plans in respect of the project, with estimates of cost have been prepared and submitted to the Planning Commission for inclusion in the Second Five-Year Plan.

**Gas from Calcutta Sewage:** About 1.5 million c.ft. of gas per day will be generated from the sewage of Calcutta. Moreover 250 tons of manure will be available for sale every day. The scheme estimated to cost Rs. 2 crores has been submitted to the Planning Commission for inclusion in the Second Five-Year Plan.

**Kalyani:** The Kalyani Township scheme was inaugurated in 1950, with a view to relieving acute pressure of population in Calcutta and to help dispersal of industries from the congested city. The total area of the township is 10,000 acres. It has been divided into six blocks, viz., residential blocks, commercial blocks, industrial blocks, etc. Residential buildings have been

constructed and are available for purchase or hire by intending settlers. Several parks have been laid out. A Radio and Battery Manufacturing Factory has also been opened by the Government. Thirty miles of water-supply mains have been laid. A total length of 42 miles of underground mains and subsidiary sewers has been completed. About 50 miles of metalled roadways in the residential block have also been completed.

### FORESTS

Under the First Five-Year Plan, two specific schemes viz. afforestation of Government waste lands by State agencies and conservation of private forests and afforestation of private waste lands have been executed with a view to bringing private forests under better management. About 12,438 acres of Government waste lands have been afforested to create state forests to check soil erosion and increase the supply of forest wealth and about 7,333 acres of private waste lands have been planted and improved through better management and proper control.

### INDUSTRY

Principal industries of the State : Jute, tea, coal, cotton, textiles, paper, rubber, engineering, etc.

No. of registered factories : 2,500 (more than 6 lakhs workers).

No. of jute mills : 98 (employing about 272,000 workers).

No. of cotton mills : 42 (86,000 workers).  
No. of tea gardens : 300 (322,000 workers).  
No. of coal mines : 218 (about 98,000 workers daily on an average).

No. of paper mills : 5 (about 1,000 workers).

Jute, cotton and most of the other industries are located in the Greater Calcutta industrial area ; there is a growing tendency on the part of the engineering, textile and other industries to move towards the Asansol belt in Burdwan District, where most of the coal mines and the major iron and steel works are located. The tea gardens are located in the Dooars and Terai regions of Northern Bengal.

Main small scale industries : Handloom weaving, sericulture and silk, brass and bell metal, hand-made paper, palm gur and mat industries.

No. of looms engaged in handloom weaving : 1,50,000.

Principal centres of handloom weaving : Santipur (Nadia), Santiniketan (Birbhum), Rajbalhat, Dhanlakshmi (Hooghly).

Principal silk industry Districts : Malda, Murshidabad and Birbhum.

Facilities for training in various Cottage and small-scale industries have been provided for through the major technical institutions namely the Bengal Textile Institute, Serampore, the Berhampur Textile Institute, Berhampur, the Bengal Tanning Institute, Calcutta and the Bengal Ceramic Institute, Calcutta.

Research for the benefit of the cottage industries is carried on in the Industrial Research Laboratory, Calcutta. Marketing and publicity of the products of the Cottage Industries is canalised through the Government Sales Emporium, Calcutta, Industrial Museum, Calcutta, Moving Exhibition and Exhibition parties.

At Jalpaiguri there is demonstration in sericulture. In Calcutta there is a silk conditioning house. Training in sericulture is given at the Government Institute at Berhampur, where upto March 1953, 12,000 persons received training in various trades and professions.

The number of industrial co-operatives was over 900 with a membership of 67,975 upto June 1952. Their total working capital was Rs. 18.32 lakhs, and the proceeds from the sale of goods amounted to Rs. 70 lakhs.

There were 8 sericulture nurseries and 23 silk artisans societies where about 806 artisans worked. They produced 70,000 sq. yds. of silk fabric in 1952-53.

There were 4 industrial centres in 1952-53, in which 210 workers produced 66,000 yards of cloth ; khadi amounted to 76,616 sq. yds.

Palm gur produced by the Directorate amounted to 987 maunds. Hand-made paper totalled 263 reams.

### WEST BENGAL FINANCIAL CORPORATION

### CO-OPERATION

From 1948 to 1955 the number of co-operative societies had increased from 12,946 to 16,686. The membership increased from 635,000 to 1,060,747 and the working capital from Rs. 13.86 crores to Rs. 21.09 crores.

Rural credit for agricultural production to the extent of Rs. 1.16 crores was distributed in 1955. The number of co-operatives participating in the work was 11,023 in 1955 against 9,590 in 1948.

Upto December 1955, there were 1,544 multipurpose societies and 30 marketing co-operatives. There were 75 joint farming societies with a membership of 2,578.

Weavers' Co-operatives form the bulk of industrial co-operatives in the State. There are at present 904 such societies with 65,381 members and a total working capital of Rs. 13.75 lakhs.

There are 489 Urban Co-operative Banking Societies with a membership of 318,898 and a working capital of Rs. 9.22 crores. There are nine Insurance Co-operatives and 412 Consumers' Co-operatives.

### ROADS

There are six national highways in West Bengal : Calcutta-Delhi (152 miles), Calcutta-Bombay/Madras (90 miles—common alignment in West Bengal), Bihar-Assam (181 miles), Siliguri-Gangtok (35 miles), Calcutta-Siliguri (203.5 miles) and Calcutta-Bongaon (43 miles).

During the First Five-Year Plan, the objective was to create a net work of roads connecting each village to the major towns. Nearly 2,000 miles of roads were newly constructed or improved during the First Plan period. In addition 23,000 miles of previously existing roads continued to be directly maintained by the Government. Besides, 295 miles of new roads were constructed in the national highway system.

Besides these, there are earth roads under union boards.

Mileage of roads per thousand of population : 0.57.

### COMMUNITY DEVELOPMENT PROJECTS

The Community Development Projects now embrace a quarter of the State area. The object of the programme is the development of rural township with a group of 100 villages in a block taken up for intensive development programme.

Under the scheme 21,000 Kitchen gardens had already been raised. More than 11,000 poultry birds and 24,000 hatching eggs had already been distributed in the project areas. Five thousand sanitary latrines had been built in the C.O.P. and N. E. S. blocks, 1,027 literary and recreation centres had been set up during the plan period.

### VISVA-BHARATI UNIVERSITY

Santiniketan, West Bengal

Founded by Rabindranath Tagore in 1921; Incorporated as a Central University, 1951.

**AIMS AND OBJECTS:** To study the mind of Man in its realisation of different aspects of truth from diverse points of view; to bring into more intimate relation with one another through patient study and research, the different culture of the East on the basis of their underlying unity; to approach the West from the stand-point of such a unity of the life and thought of Asia; to seek to realize in a common fellowship of study the meeting of the East and the West, and to strengthen the fundamental condition of World peace.

With such ideals in view to provide at Santiniketan a centre of culture where research into and study of the religion, literature, history, science and art of Hindu, Buddhist, Jain, Islamic, Sikh, Christian and other civilizations may be pursued along with the culture of the West, with that simplicity in externals which is necessary for true spiritual realization, in amity, good fellowship and co-operation between the thinkers and scholars of both Eastern and Western countries, free from all antagonisms of race, nationality, creed or caste.

Visva-Bharati is a residential University with students and teachers drawn from all over India and there is always a fair mingling of teachers, students and visitors from abroad. Students live a community life, dining in the same halls (with separate arrangements for vegetarians and non-vegetarians), playing in the same spacious play-grounds close to the hostels, organizing common socials, picnics, excursions, literary and musical entertainments.

Visva-Bharati maintains the following Institutions:

Patha-Bhavana (School), Siksha-Bhavana (Higher Secondary), Vidya-Bhavana (College of Under-Graduate and Post-Graduate Studies and Research), Vinaya-Bhavana (Teachers' Training College), Kala-Bhavana (College of Fine Arts and Crafts), Sangit-Bhavana (College of Music and Dance). The University maintains also the following Research Departments: (1) Cheena-Bhavana, (2) Indo-Tibetan Institute, (3) Hindi-Bhavana,

which organise teaching and Research in Chinese Tibetan and Hindi respectively.

The Visva-Bharati central library contains about 130,652 volumes. There are sectional and seminar libraries attached to various departments. The University has its own hospital with a Chief medical officer and his assistants. The Guest House, which makes catering arrangements of its own, is open to visitors and guardians.

Besides the academic institutions, the University conducts two Departments: one for Rural Reconstruction and the other for Publication of Books. The Palli-Samgathana Vibhaga (Department of Rural Reconstruction) at Sriniketan is concerned mainly with a comprehensive study of the problems of rural life in its social, cultural, economic and other aspects and extension work in the villages. The department maintains a multi-purpose school with technical stream for rural children.

A two-year Certificate Course in Indian and Foreign languages viz. Sanskrit, Bengali, Hindi, Oriya, Chinese, Japanese, Tibetan, French and German is available to Post-Graduate and Under-Graduate students. Those who have successfully completed the Certificate Course may continue another year's further study for the Diploma in the same languages.

Silpa-Sadana (Cottage Industry Training Centre) provides 2-year Certificate course followed by a further 1-year Diploma course in Weaving and Woodwork.

The Social Education Organizers Training Centre, started under the Community Project Scheme, provides for training of organizers deputed by the different States of the Indian Union.

A scheme of Agro-Economic Research is being conducted at the University under the auspices of the Ministry of Food and Agriculture, Government of India. The scheme has under its purview a considerable area consisting of West Bengal, Bihar, Orissa and Assam.

Under the auspices of the Ministry of Education a Scheme of Educational Extension Services for the improvement of teaching in the Secondary Schools has been introduced at Vinaya-Bhavana. The object of the scheme is to bring new ideas and ideals to bear upon the Secondary Schools.

The Institute of Rural Higher Education, started at Sriniketan in December, 1956, sponsored by the Council of Rural Higher Education (Government of India) offers the following courses: (1) 3-Yr. Diploma course in Rural Services; (2) 2-Yr. Certificate course in Agricultural Science; (3) 1-Yr. Preparatory course.

## PONDICHERY STATE

**Area:** 196 sq. miles; **Pop.:** 317,163 (1948).  
**Capital:** Pondicherry.

**Chief Commissioner:** M. K. Kirpalani, I C S

**The State of Pondicherry consists of:**

(1) **On the Coromandel Coast:** (a) Pondicherry, the capital, together with the adjoining territory, divided into 8 communes, (b) Karikal and the dependent districts divided into 6 communes;

(2) **On the coast of Andhra:** Yanam, with the dependent villages;

(3) **On the Malabar Coast:** Mahé with the adjoining territory.

**De facto** transfer of these former French possessions to India took place on November 1, 1954 following an agreement between the Government of India and the Government of France. The instrument of transfer was signed in Pondicherry on November 1, 1954 by Mr. Kewal Singh on behalf of India and Mr. Pierre Landy representing France.

A treaty for the *de jure* transfer to India of the French establishments was signed on 28th May, 1956 by Mr. Nehru, as Minister for External Affairs and the French Ambassador in India Count Ostrorog. It was expected that the treaty would be ratified by the two Governments, of India and France 'in the next few weeks'.

It may be added here that the French Union Assembly, an advisory body of elected representatives from France and her overseas territories, voted against the ratification of the Indian-French Treaty on March 1, 1957. The subject has not yet been debated in the French National Assembly (May, 1957).

The first general elections after the *de facto* transfer were held in July 1955 on a basis of universal adult franchise for the 39 seats in the State Representative Assembly and 200 in the 16 Municipal Councils. On an average, more than 85 per cent of the voters voted.

The Municipal Administration in the State is carried on by the Municipal Councils, one in each of the sixteen communes.

The State is directly administered by the Government of India on the pattern of a Part 'C' State, through a Chief Commissioner nominated by them. There is an advisory body called 'the Conseil du Gouvernement' consisting of six elected Councillors roughly corresponding to Cabinet of Ministers in the other States of India. The Chief Commissioner is assisted in the day-to-day administration of the State by a Chief Secretary, four Secretaries and the Inspector-General of Police.

Chandernagore in West Bengal was the first French India possession to become *de jure* a part of the Indian Union after the treaty for its cession was signed in Paris in 1951 by the representatives of the two Governments. The Treaty was ratified by the French Assembly on April 11, 1952.

### PONDICHERY

**Area:** 115 sq. miles; **Population:** 222,407.

Pondicherry is the chief of the former French settlements in India and its capital is the seat of the Government. The town is situated in the district of South Arcot in Madras State, about 89 miles from Madras.

There is no harbour, but only a roadstead which is the best on the entire coast. Ships lie at a distance from the shore and contact with land is maintained by means of the usual *masula* boats peculiar to this part of South India.

Since November 1, 1954 sea customs have been introduced in Pondicherry and a new department has been created under a Collector of Customs.

### KARIKAL

Karikal is situated in the Tanjore District, and consists of a single tract of territory stretching along the east coast between Tranquebar and Nagore. It is at a distance of 90 miles from Pondicherry. It covers an area of 63 sq. miles and is divided into 6 communes containing 110 villages. The establishment has a population of 70,541, according to the 1948 census. Karikal is the terminus of a line from Peralam on the Tanjore District Railway.

### YANAM

The town is situated in the delta of the Godavari covering an area of 5 square miles and is an enclave of the District of East Godavari in Andhra State. The soil is fertile, and supports a population of 5,853.

### MAHÉ

The territory of Mahé on the west coast consists of the town of Mahé on the left bank of the river of the same name; and the isolated district of Naluthara on the right bank containing the 4 villages of Chambara, Chalakara, Palour and Pandaquel. It lies within the District of Cannanore in Kerala State, and covers an area of 26 sq. miles.

The present population is estimated at 18,298. Rice is grown where water is plentiful.

## INDIAN TERRITORY UNDER PORTUGUESE OCCUPATION

Area : 1,537 sq. miles ; Pop. : 637,591 (1950 Census) ; Capital : Cidade de Goa.

The Hindu population is estimated at 388,488 and the Christian at 234,276. There are 14,182 Muslims and 1,079 Europeans and Eurasians.

### ADMINISTRATIVE OFFICIALS

**Governor-General**, General Paulo Benard Guedes, who is also Commander-in-Chief.

**Elected Members of the Governor's Council** (*Conselho do Governo*), Vitoia Vismum Sinal Dempo ; Dr. Domingos Roque Souza ; Amadeu Frazeres da Costa, Rev. Father Castilho Noronha ; Dr. Socrates Noronha.

The last two have been appointed Deputies in the Portuguese National Assembly of Lisbon. They represent Portuguese India.

**Governor of Diu**, Capt. Palva Conceiro.

**H. E. the Patriarch of East Indies**, D. Jose Alvernaz.

Indian territory under Portuguese rule is made up of : Goa, Daman, Diu.

All the three territories are situated practically within the area covered by Bombay State. Goa is on the Konkan Coast ; Daman, lies on the Gujarat coast at the entrance to the Gulf of Cambay ; and Diu is a tiny islet and along with the isolated spots, Gogola and Simbor lies on the southern fringe of the Kathiawad peninsula.

The enclaves of Dadra and Nagar Haveli, which formed part of Daman, have been taken over by Goan nationalists who have set up their own administration.

### GOVERNMENT

The Governor-General is the head of the administration and is stationed in the capital Cidade de Goa formerly known as Nova-Goa and also Panjim.

Associated in the task of government is the *Conselho do Governo* possessing restricted legislative and advisory powers. The Governor-General is its *ex-officio* president.

Daman and Diu have each a District Governor.

In each district there is a District Council for the supervision of the various municipalities and other local bodies in its jurisdiction. For administrative purposes the district is divided into *Concelhos*, each *Concelho* being in the charge of an official styled the *Administrador*, and for judicial purposes it is divided into circuits or *Comarcas* each having its own court of original jurisdiction.

An appeal lies from the decisions of these courts to the *Tribunal de Relacao* or High Court sitting in the capital and side by side with the latter there is also a *Tribunal Administrativo* to dispense justice under *droit administratif*.

A striking feature of the rural administration is the continuance of the ancient Indian institution of the village community. In places where resistance to Portuguese domination has continued almost to our own day, as in the southern communes of Goa, Assolna, Cuncolim and Velim, the village communities were suppressed and their estates confiscated by the Government.

The village community is an autonomous institution, socialist in its organization under which land is held in common by the original settlers of the village here called the *Gaunkar*s, thus preventing concentration of land in the hands of a few and promoting a rough equality, while preventing the domination by a privileged few. The management is vested in a committee elected by the constituents.

The advent of Dr. Oliveira Salazar to power and the establishment of his *Estado Novo* led to increasing centralization in the administration of Portuguese India. All measures of

importance are now initiated by and carry the sanction of the home government in Lisbon. The Governor's Council, *Conselho do Governo* which assists him, is shorn of what little legislative powers it formerly possessed. There are no elected municipalities and local boards in the villages. Each municipality is in charge of an administrative committee nominated by the Governor-General, who also appoints the presidents of all charitable and cultural associations in the country.

A stringent censorship controls the freedom of the press, and every article, book or pamphlet has to be submitted to the board of censors before it appears in print. Infringements of the press laws are severely dealt with and newspapers are required to keep security deposits with the Government before being licensed for publication.

Freedom of association is likewise controlled. No public meeting or assembly, be its purpose ever so innocuous, may be convened without previous permission of the authorities, and every intended talk and speech must bear the censor's visa.

### COMMERCE AND INDUSTRIES

The chief agricultural products of Goa are rice, coconuts, cashew-nuts, betel-nuts, mangoes, and sugar-cane. Of these cashew-nuts, betel-nuts, coconuts and mangoes which were exported in considerable quantities to the Indian Union, have been banned by the Government of India. The rice grown is not sufficient for local consumption and lasts for only four months in a year. For the remaining eight months rice is imported from Pakistan, Mozambique (Portuguese East Africa) and Brazil. Other exports include copra, bamboos, salt, salt-fish and manganese and iron ore, the exports of which have enabled the Goa Government to earn foreign exchange, specially in dollars, enough to finance all its imports. The imports consist of rice, textiles and other manufactured goods.

Owing to controls imposed by the Indian Union, trade and commerce between Portuguese possessions and India are at a standstill and the economy of these pockets is deteriorating from day to day. Prices of local products like paddy and coconuts have slumped. Those of articles imported from India have correspondingly rocketed. The tourist traffic, which put as much as Rs. 5 lakhs each month into the pockets of local traders, is non-existent with Portuguese Customs revenues down to a tenth of what they were before. To add to the miseries of the people, the Portuguese and African troops, which are regularly being reinforced, take away most of the available stocks of vegetables and meat. The local population are at the mercy of black marketeers.

There are no banks operating in Portuguese territory with the exception of the Banco Nacional Ultramarino which has offices in the major towns. No Indian bank can open branches in Goa as the Banco Nacional has a monopoly. The Indian Government in its turn compelled the Portuguese Bank to close its branch in Bombay because Indian banks were not allowed to do business in Goa.

In June 1957, however, the Government of India offered facilities to Goan nationals to enter Portuguese-held territory on permit, and also to remit money upto Rs. 100.

A railway line maintained and run by the West of India Portuguese Guaranteed Railway, once a subsidiary of the former Madras and Southern Mahratta Railway, joins the port of Marmugao with the junction of Londa on the Southern Railway. It fulfilled a very important role by providing an outlet to the sea for the products of this part of the Mahratta country.

The Southern Railway which administered the railways in Goa on behalf of the W.I.P.R. did not renew the contract at the end of Dec. 1955 with the result that Goa has now no rail link with India. Most of the staff of the Southern Railway in Goa opted for service in India. But shuttle services inside Goa were maintained by Goan authorities.

The air service between Goa, Daman and Diu has been suspended due to protests by India against the violation of Indian air space.

There is a bi-weekly air service between Marmugao and Karachi.

Marmugao, which is the chief port, is also geographically one of the major ports on the west coast of India and is open to ocean-going vessels of every size from all parts of the world. But, as we have mentioned, there is neither trade nor communication between India and the Portuguese-held territory. But ships from Japan, America and Europe call at Marmugao to take cargo of iron ore and manganese, which are the chief exports of Goa.

### EDUCATION AND CULTURE

Primary education is free and compulsory in schools maintained by the State of which there is at least one in every village. There are at present over 200 primary schools controlled and administered by a Board of Primary Education, *Conselho da Instrucao Primaria* with offices in the capital.

In Cidade de Goa there is a Lycosum for the study of Portuguese, a Teachers' Training School, and a Medical School.

A Theological Seminary trains young men for the priesthood at Rachol.

Over and above these, there are a number of English teaching High Schools run by private enterprise and by religious orders preparing students for the S.S.C. examination of the Bombay Government and the Entrance Examination of the University of Bombay.

The *Bibliotheca Nacional* houses what is perhaps one of the best libraries of rare books and manuscripts on the west coast of India while the *Arquivo* contain an inexhaustible wealth of hitherto unexplored historical material.

### DAMAN

Daman in Gujarat has a total area of about 33 square miles and a population of some 21,000 inhabitants, mostly of Gujarati extraction.

It is easily reached from Bombay by the Western Railway : 4½ hours' journey.

There are some very interesting historical relics here such as the old fort and a few surviving churches reminiscent of the old times.

### DIU

About 150 miles to the north-west of Daman lies the tiny islet of Diu off the southern coast of Kathiawad. It is a small town separated from the mainland by a narrow arm of the sea. Dependent on it and surrounded by the territory of Junagadh is the enclave of Gogola and also the island and fort of Pani Cota in the bay of Simbor.

Diu is reached from Bombay by the Western Railway via Viramgam and Delwada. Access by sea is easier and more rapid but there is no harbour. There is an excellent roadstead where ships can safely anchor in two fathoms of water.

Area : 413 sq. miles. The population is estimated at 19,731.

## PRO-MERGER MOVEMENT

With the merger of French territory in India, the pro-merger movement in the Portuguese pockets was intensified by the people of Goa, Daman and Diu. The Portuguese Government adopted severe repressive measures to put down this agitation with the result that over 3,000 Goan satyagrahis were arrested and put in Goa jails and were always in danger of being deported to Mozambique. Many Goan nationalist leaders have now fled from Goa and have taken refuge in Belgium and Bombay.

Indian satyagrahis, who were sentenced by the Portuguese military tribunal to various terms of imprisonment in 1955, were released by the Lisbon Government. About 35 of them returned to India in February 1957.

It is now reckoned that there are only about seven Indian prisoners in Goan jails.

The Goa Action Committee, which is composed of all Goan parties in Bombay, has appointed an administrator, Dr. Antonio Furtado, to administer the liberated areas of Nagar Havelli and Dadra. These enclaves are situated near Damam.

A Rs. 32-lakh development plan has been prepared for the 191-square-mile enclave of Nagar Havelli. Among the construction activities included in the plan are three bridges over the two rivers, costing Rs. 10 lakhs, 75 miles of roads, schools and village water system.

Handmade paper industry, catechu (Ratia used in pan) manufacture, tanneries and tile and brick factories, a public library and a maternity home have also been constructed. Over 3,000 students are now attending schools, on which the administration spends about Rs. 48,000. Spinning and carpentry are taught in the schools.

A model cottage hospital, a veterinary dispensary and four dispensaries have started functioning.

The Government of India has received a notice from the International Court of Justice, The Hague, intimating that the Portuguese Government has filed proceedings against India concerning certain rights of passage over Indian territory to Dadra and Nagar Havelli. The Indian Government has decided to contest the jurisdiction of the International Court in this case and also the rights claimed by Lisbon.

Mr. M. C. Chagla has been appointed by India as *ad hoc* Judge at the Hague when the case comes up before the International Tribunal.

The President of the Hague Court fixed June 15 as the time limit within which Portugal may present a written statement of her observations and submissions on India's objections.

## ANDHRA PRADESH

Capital : Hyderabad.

Area : 1,06,041 sq. miles; Population : 3,13,00,000 (1951).\*

No. of Districts : 20.

No. of talukas : 175.

The total number of District Boards in the State: 20. The number of Municipal Corporations: 2. The number of City and Town Municipalities in Telangana : 79 ; Municipal Councils in Andhra : 36 ; number of Panchayats in Telangana : 1,057.

The total national income of the State for 1956-56 is estimated to be Rs. 823.10 crores.

Strength of legislature (Legislative Assembly) : 301.

The Upper House is expected to come into being in October next.

No. of members from Andhra Pradesh to the Rajya Sabha : 18.

No. of members from Andhra Pradesh to the Lok Sabha : 43.

A Regional Committee to watch the interests of the Telangana area is likely to be set up as this was agreed to by the leaders of the two regions on the eve of the creation of Andhra Pradesh. A Committee of six Ministers—three from the Telangana region and three from Andhra is now (May 1957) examining a proposal to set up such a Regional Committee. The committee is expected to make its recommendations on the composition of the regional committee and on its functions shortly to the State Cabinet. The Cabinet, after a consideration of the recommendations of the Committee, would submit them to the Union Home Ministry, which is to take the final decision on the matter.

### POPULATION

Population of districts based on 1951 census : Anantapur 1,483,591 ; Chittoor 1,810,377 ; Cuddappah 1,161,731 ; Godavari East 2,414,808 ; Godavari West 1,697,727 ; Guntur 2,549,996 ; Krishna 1,779,484 ; Kurnool 1,618,621 ; Nellore 1,795,632 ; Srikakulam 2,123,136 ; Karimnagar 1,428,168 ; Warangal 1,325,084 ; Nalgonda 1,252,810 ; Khammam 700,006 ; Hyderabad 1,511,336 ; Mahbubnagar 1,536,337 ; Adilabad 902,522 ; Nizamabad 773,158 ; Medak 1,245,265 ; Vishakhapatnam 2,072,698.

### GEOGRAPHY

The shape of Andhra Pradesh is rather curious. A short neck with protruding belly would be an apt description. It has a chain of mountains, the Eastern Ghats, running over its entire length on the eastern and northern borders.

In the far north too the country is hilly.

There are huge forest areas in Srikakulam, Vishakhapatnam and Godavari and Kurnool Districts.

The landscape is varied and rich. It ranges from the smiling ever-green plains of the Godavari and Krishna deltas, the rocky drought-stricken plateau of Rayalaseema, the undulating uplands of Northern Circars to the flat sandy downs in Nellore and Guntur.

The climate is warm and humid or hot and humid according to the season.

The average annual rainfall is highest in the north varying between 45 inches and 60 inches. It gradually decreases to the south and south-west down to about 20 inches.

Two-thirds of the rain is from the south-west monsoon.

\* The Government of India figures show slight variation.

The rainfall is erratic both in time and quantity. The smaller the rainfall the more erratic it is.

Srikakulam, Vishakhapatnam, parts of Godavari and Nellore suffer from periodic floods and droughts, while the others are more liable to suffer from droughts.

There are no mountains of the type of the Sahyadri range, but there are hills and tablelands scattered throughout the State. Some of the hills are high and are covered with useful forest, some carry scrub jungle, while many are quite bare.

The soil in the area covered by the former Andhra State consists of the alluvial of the deltas and littoral tracts, red, black and brown soils.

The agricultural value depends on the textures, but there is not much information about productivity. The interesting point is that while the top-soil is being washed away year after year, the remaining soil at the bottom continues to produce in the same measure as before.

There are two major rivers in the area of the former Andhra State, the Godavari and the Krishna, three medium rivers with a large number of tributaries, and twenty-nine minor and small rivers. It is estimated that together they carry annually 150 million acre ft. of water into the Bay of Bengal.

The Godavari flows for the major part through the State before it falls into the Bay of Bengal. Its main tributaries are the Manjira, the Pranahita, the Indravati, and the Sabari, some of which flow partly in the Telangana area.

The main tributaries of the Krishna are Tungabhadra, Yerla, Warma and Dudhghana.

The medium rivers are the Pennar, the Nagavalli, the Vamsadhara.

The river system of Telangana consists of two great basins, that of the Godavari and the Krishna. The former with a length of more than 600 miles in the area has a number of tributaries, the chief of which are the Palnaganga, the Wardha and the Parantha from the north, and the Manjira and the Maner from the south. Among its tributaries the most important are the Bhima, the Musi on which the capital stands, and the Tungabhadra, which forms the southern boundary of the Itachur-Mudgal Doab. The Telangana region, abounds in tanks and artificial lakes constructed mainly for the purpose of irrigation.

In Telangana the soil has granitic and calcareous formation. It is the land of rice and jowar. The hills are bare of vegetation and the land is covered with huge fantastic tors and boulders. Also as the soil is sandy, the rivers dry up in hot weather, necessitating the storage of water in tanks and artificial lakes for purposes of irrigation.

### AGRICULTURE

The total geographical area of the State is 673 lakh acres.

Net area sown in 1955-56 was 270 lakh acres or 40.6 per cent of the total geographical area.

Barren and uncultivable land : 72.38 lakh acres.

Land put to non-agricultural uses : 33.33 lakh acres.

Cultivable waste : 41.09 lakh acres.

Permanent pastures and other grazing lands : 28.78 lakh acres.

Land under miscellaneous crops, trees and groves not included in the net area sown : 6.23 lakh acres.

Current fallows : 54.88 lakh acres.

Other fallow lands : 17.38 lakh acres.

Forests 140.02 lakh acres.

Area sown more than once 303.85 lakh acres.

Total cropped area : 293.81 lakh acres.

The following are the acreage figures of the main crops in 1955-56.

Cereals 174.19 lakh acres ; (a) Rice 58.12 lakh acres ; (b) Jowar 65.07 lakh acres ; Pulses 28.96 lakh acres ; Oilseeds 47.0 lakh acres ; Chillies 3.87 lakh acres ; Sugarcane 1.71 lakh acres ; Tobacco 3.21 lakh acres ; Cotton 9.69 lakh acres ; Bajra 16.12 lakh acres ; Mize 4.19 lakh acres ; Ragl 7.71 lakh acres ; Minor millets 22.61 lakh acres ; Bengal gram 2.57 lakh acres ; Tuar (red gram) 3.81 lakh acres ; Green gram 9.23 lakh acres ; Black gram 2.19 lakh acres ; Horse gram 9.83 lakh acres ; Onions .45 lakh acres ; Sesamum 6.77 lakh acres ; Castor 8.90 lakh acres ; Mesta 1.01 lakh acres.

Production figures (estimates) for 1955-56 of some of the main crops are as follows : (Cereals 51,20,000 tons) ; Rice 30,59,000 tons ; Jowar 10,78,000 tons ; Maize 64,000 tons ; (Pulses 2,46,000 tons) ; Tuar 42,000 tons ; Green Gram 63,000 tons ; Sugarcane 4,78,000 tons ; Chillies 1,01,000 tons ; (Oilseeds 1,14,000 tons) ; Groundnut 1,02,000 tons ; Castor 65,000 tons ; Cotton (Bales) 1,33,000 ; Tobacco 1,09,000 tons ; Bajra 3,09,000 tons ; Ragl 2,18,000 tons ; Minor millets 3,23,000 tons ; Bengal gram 31,000 tons ; Black gram 21,000 tons ; Horse gram 78,000 tons ; Onions 1,67,000 tons ; Sesamum 56,000 tons ; Mesta 1,09,000 tons.

The more useful species of timber produced are Kosum, Toon, Rosewood, Irul, Teak. Bamboo suitable for the manufacture of paper pulp also occur in abundance.

Total Forest area : 14 miln. acres.

### LAND REFORMS

According to the census of land holdings conducted in 1954 in the Telangana region and in 1955 in Andhra region, the total number of holdings in Andhra Pradesh is 42,43,655 comprising an area of 3,41,91,769 acres. The average size of a single holding is 8.1 acres. 39.87 lakh holdings are under the personal cultivation of the owners wholly or partly and the remaining 2.56 lakh holdings are completely leased out. The area leased out is 39.29 lakh acres or 11.5 per cent of the total owned area in the holdings. The remaining 88.5 per cent or 302.63 lakh acres are under the personal cultivation of the owners, and they include lands put to non-agricultural uses.

The Tenancy Acts in force are the Hyderabad Tenancy and Agricultural Lands Act, the Hyderabad Prevention of Fragmentation and Consolidation of Holdings Act, the Estates Land Act, the Rent Reduction Act, the Inams Abolition Act and the Andhra Tenancy Act.

The definition of 'estate' under the Estates Land Act was enlarged in 1956 so as to include within its scope inam hanietis and inam Khandrigas in inam villages, thereby ensuring the application of the Rent Reduction Act and to some extent the Abolition Act to these Inams. Legislation for the abolition of all 'Inams' other than

'estates' and for their conversion into ryotwari tenure, was undertaken. With a view to completing the scheme for the abolition of intermediaries proposals are under Government's consideration for legislation for the abolition of the post-1936 inam estates also. The Andhra Tenancy Act was enacted last year providing mainly for the regulation of grants payable by tenants to landlords and for the prescription of a minimum period for agricultural leases. The Hyderabad Tenancy Act was amended so as to confer the right of protected tenancy on a larger class of tenants than had hitherto enjoyed such benefits.

### LIVE-STOCK

The figures (latest available, 1956) for live-stock are in thousands.

**Total Cattle 11,276**

### LARGE-SCALE INDUSTRY

The main industries are Sugar, Paper, Cement, Cigarettes and Textiles. There is a big sugar factory at Bodhan in Nizamabad District and there are other factories in different places. Paper mills are at Sirpur in Adilabad District and Rajahmundry in East Godavari District. Cement factories are at Vijayawada and other places. Cigarette factories are concentrated in Hyderabad City. Textile Mills are in Hyderabad, Warangal and a few other towns.

In the Telangana area there are eleven textile factories which employ 8,030 persons, 111 tobacco units employing 8,300 persons, two cotton and spinning factories employing 600 persons. Then there is the ship-building yard at Vishakhapatnam.

Production figures of the various industries are given below :

Commodity	Unit	Production, 1955	Value 1955 (In lakhs of Rs.)
Sugar .. .. .	000 tons	118	740.90
Paper .. .. .	"	15.2	180.95

\* Figure for 1956.

\*\* Fertiliser mixture 8,360 tons ; Superphosphate 2,660 tons ; Bonemeal 1,236 tons.

### MINERALS

The chief minerals produced in the State are coal, iron ore, limestone, manganese and asbestos. The coal industry is situated at Kothagudem, Tandur, Yellandu and Sasthi in Telangana region. Other minerals are widely distributed. According to the Geological Survey of India, two large deposits of iron ore containing an estimated reserve of nearly 380 million tons of ore have been located in Guntur and Nellore districts.

Production figures for 1955 are as follows:— (The first figure within brackets shows the output in tons and the second figure indicates the value in lakhs of rupees): Coal (1,082,000\* tons; Rs. 369.95\* lakhs); Manganese (101,000 tons; Rs. 156.15 lakhs); Mica (4,150 tons; Rs. 114.54 lakhs); Iron Ore (663,000 tons; Rs. 48.81 lakhs); Limestone (244,000 tons; Rs. 35.82 lakhs); Asbestos (321 tons; Rs. 3.09 lakhs); Barytes (4,342 tons; Rs. 0.78 lakhs).

### COTTAGE INDUSTRIES

The number of workers employed in small-scale and cottage industries, according to the 1951 census, was 1,107,308 and these were distributed over 355,010 establishments. The most important industry is that of handloom. There are about 4 lakh handlooms in the State; besides, there are 14,000 looms for woollen fabrics. The State has thus the largest number of looms in India and this industry provides employment for about 323,000 persons and livelihood for 1,615,000 persons. Assuming that the overall production per month per weaver is 100 yards, the annual output of handloom cloth per annum works out to about 39 crore yards of cloth.

Other important cottage industries are Kambli-weaving which employs about 39,000 persons, coir making employing about 12,000 persons and basket making which employs about 40,000 persons.

Certain handicrafts of Andhra Pradesh are world famous. Notable among these are the silver filigree articles of Karimnagar, the exquisite toys of Nirmal, Kondapalli, Nakkapalli and Tirupathi, the carpets of Warangal and Eluru and the lac goods of Narsapur.

### TRANSPORT

The total railway route mileage open for traffic in Andhra Pradesh is 2,902 miles out of which 1,633 miles are Broad gauge, 1,244 miles Metro gauge and 25 miles Narrow gauge. The total road mileage including National Highways, State Highways, major district and other district roads is 14,466 miles.

The total number of motor vehicles registered in the State during 1954-55 was 19,030. Out of which 7,649 were motor cars, 5,449 lorries, 211 taxis, 2,555 motor cycles, 3,003 buses and others 103.

The Andhra Pradesh Road Transport is a nationalized service now largely serving Telangana area. In 1955-56 the road mileage covered by it was 3,577; its total fleet strength 442. Its total earnings from the Telangana area stood at nearly Rs. 1,82,33,000 in 1954-55 and Rs. 1,79,82,000 in 1955-56 while the expenditure was Rs. 1,65,09,000 and Rs. 1,71,28,000 respectively. The number of passengers carried in 1954-55 was 44,815,888 and in 1955-56 it was 47,308,052.

There is a well-developed airport at Begumpet in Hyderabad city; there are landing grounds near Vijayawada and Visakhapatnam.

Many canals in the Andhra area are used for boat transport.

There are two broadcasting stations in the State—at Hyderabad and Vijayawada.

The City of Secunderabad is the headquarters of the Secunderabad Division of the Central Railway and is the junction of the Broad Gauge and Metro Gauge systems. From here lines radiate

east, south, west and north. The line which goes east links up with the Madras-Delhi line at Kazipet. The line which goes south passes through Kurnool and connects with the Madras-Bombay line at Guntakal. The western broad gauge line passes through the twin city of Hyderabad to which place a division is laid and links up with the Madras-Bombay line at Wadi. The northern line goes north-west rather than north and joins the main Bombay-Bhusaval line at Manmad. The total mileage open for traffic which now constitutes the Secunderabad division of the Central Railway is 1,461 miles.

Hyderabad City is connected by air with Bombay, Nagpur, Madras and Bangalore. The Services are operated by the Indian Airlines Corporation. Hyderabad City is served by Begumpet aerodrome. Hyderabad is also linked by air to Delhi and Calcutta.

Hyderabad, which has a 5 kW medium-wave transmitter radiates programmes from 0655 to 0900, 1230 to 1400 and 1730 to 2230 hours on 411.0 meters (730 Kc/s). It broadcasts in Telugu, Hindi, Urdu, Marathi and Kannada in addition to news and talks in English.

### TRADE

The main articles exported are tobacco, groundnuts and other oilseeds, rice, coal and handloom goods. The main articles imported are pulses, textiles and manufactured goods.

### POWER PROJECTS

The installed capacity of power stations in the Andhra region which was 21,400 kW at the commencement of the First Five-Year Plan, rose to 62,200 kW at the end of the Plan due to the work taken up on the Machkund and Tungabhadra Hydro-Electric Projects, and the Nellore and Chittoor Thermal Schemes. A sum of Rs. 2,522.44 lakhs was spent on them during the Plan period. The number of towns and villages electrified increased from 205 to 681 during the period. The per capita consumption rose from 2.5 units to 8 units.

The Machkund and the Tungabhadra Hydro-Electric Schemes are being taken up as spill-over schemes during the Second Plan period. The total Second Plan outlay on the Power Projects in the Andhra region is Rs. 2,168.26 lakhs and the installed capacity is proposed to be raised by 155,000 kW during the Second Plan period while 934 towns and villages are to be electrified.

In the Telangana region the Second Plan outlay on power Projects is Rs. 615.55 lakhs. These are the Nizamsagar Hydro-Electric Project, the Ramagundam Thermal Scheme, the Devnagar Hydro-Electric Project and the Steam Thermal Station at Hyderabad. The Nizamsagar Hydro-Electric Station constitutes the first phase of power development on the Manjira river. It has an installed capacity of about 15,000 kW. The Hussainsagar Thermal Power Station in Hyderabad City has an installed capacity of 24,000 kW with 222 sub-stations and 223 miles of transmission lines. The Ramagundam Steam Thermal Station has three 12,500 kW turbo-alternators installed. It has already been commissioned, but is yet to be inter-connected with the Hyderabad Thermal Station. Its supply will extend to industries spread over a distance of about 70 miles in the north and the same distance in the south.

### IRRIGATION

Statement showing the net area irrigated by different sources, gross area irrigated and area sown more than once in Andhra Pradesh during 1955-56: Govt. canals 3,039,453 acres; Private canals 62,729 acres; Tanks 2,566,634 acres; Wells 753,977 acres; Other sources 254,083 acres.

Total net area irrigated 6,676,876 acres.

Total gross area irrigated 7,834,235 acres.

Area irrigated more than once 1,157,359 acres.

A sum of Rs. 14.57 crores was spent on major and medium size irrigation projects in the Andhra region during the First Plan period. Six major irrigation projects, viz., the Tungabhadra, Krishna regulator-cum-road bridge, Upper Pennar, Komperu Drainage, Rallapadu (Second stage) and Bhairavani-tippa Projects, were taken up for execution to benefit an area of 290,675 acres in the districts of Krishna, Guntur, Nellore and Anantapur. On these alone Rs. 11.14 crores was spent during the First Plan period. Seventeen medium projects to provide irrigation facilities to 379,678 acres of land were taken up for execution and four of them were completed during the first Plan period. On these a sum of Rs. 343.22 lakhs was spent. Four of the medium projects are located in Srikakulam district, three each in Nellore and Chittoor districts, two each in Cuddapah and Anantapur districts and one each in Visakhapatnam, West Godavari and Kurnool districts.

All the major and medium irrigation projects except the four medium projects completed during the First Plan period are included as continuing schemes in the Second Plan. The Vamsadhara Project is a new major scheme included in the Second Plan. A sum of Rs. 19.95 crores is provided in the Second Plan for the Nagarjunasagar Project which is common to both the regions of Andhra Pradesh.

**Nagarjunasagar Project.** The project in its first Stage comprises the construction of a masonry dam 302 feet high above the foundation level, across the Krishna river near Nandikonda about 90 miles below Siddeswaram, and two canals taking off from the reservoir, known as the left and the right bank canals. The dam is situated about ten miles from Machera railway station in Guntur district. Large areas extending between the Krishna and Godavari in the north and the Krishna and the Pennar in the south can be commanded by the reservoir.

The right bank canal which will be 140 miles long will carry a discharge of 14,000 cusecs in the first Stage. The left bank canal will be 108 miles long and will lead up to the river Muneru in the first stage, and will flow through Telangana.

The cost of the first Stage of the project, namely, construction of the dam and the two canals is estimated to be about Rs. 75 crores. The present scheme which forms the first Stage of the project will irrigate about 2.36 million acres of land spread over the districts of Guntur, Kurnool, Nellore, Warangal and Nalgonda.

The second Stage of the project which will be taken up later on will provide for the generation of electric power.

The major and medium irrigation projects included in the Second Plan for Andhra are expected to bring 4.49 lakh acres more under irrigation during the Second Plan period while the area ultimately expected to benefit from these, amounts to 27.30 lakh acres.

A sum of Rs. 718.00 lakhs was spent during the First Plan period on two major irrigation projects in Telangana, viz., the Rajolabanda Diversion Scheme for providing irrigation facilities to about one lakh acres in the Mahbubnagar district and the Kudam Project benefiting an area of 67,000 acres in the Adilabad district. They are continued as spill-over schemes in the Second Plan and a sum of Rs. 270.05 lakhs is provided for them. Also during the First Plan period a sum of Rs. 115.81 lakhs was spent on five medium irrigation projects, viz., Kollasagar and Sarlasagar Projects to benefit 60,000 acres in Mahbubnagar district, the Must and Bhimanpally Projects benefiting 43,860 acres in Nalgonda district and the Sirala Project benefiting 3,000 acres in Adilabad district. In the Second Plan these schemes get a provision of Rs. 64.80 lakhs. The total area benefited by these major and medium projects is 273,860 acres.

The following tables show particulars about some irrigation projects under the First Five-Year Plan:

#### CO-OPERATION

The total number of Co-operative Societies in the State is 18,982; the membership being 22,50,000. The share capital amounts to Rs. 64,78,00,000.

The number of agricultural credit societies is 9,697 with a membership of 7,48,298.

There are 126 primary marketing co-operative societies in the Andhra area. It is proposed to set up 50 marketing co-operative societies in Telangana region under the Second Plan. It is also proposed to construct 208 godowns in the Andhra area at a cost of Rs. 1,15,00,000 and 65 godowns in the Telangana area at a cost of Rs. 24,50,000 for the stocking of agricultural produce.

There are 660 handloom weavers' co-operative societies in the Andhra area. A central organisation looks after the distribution of the yarn and cloth varieties produced by these societies and gives also technical advice. There is in Telangana also such a Central Organization with many primary societies affiliated to it.

To provide alternative livelihood to ex-tappers in Andhra area 730 palmyra gur co-operative societies have been formed.

#### PUBLIC HEALTH

Plague, Cholera, Small-pox, Tuberculosis, Malaria, Filariasis, and Yaws are among the

common diseases in the State, but Government efforts to fight these have produced remarkable results in the case of some. Plague used to be almost an annual visitation to Hyderabad City but drastic preventive measures taken in recent years have practically eliminated it. Cholera, Small-pox and other seasonal epidemics continue to attack people but Government steps to reduce their incidence are also proving effective. The B.C.G. vaccination campaign against tuberculosis is in full swing and by the close of the First Plan period nearly 18,00,000 persons were tested and 6,23,000 vaccinated in the former Andhra State. In Telangana region also the scheme is being extended.

Organised assault on malaria is going on, regions vulnerable to the disease claiming priority. An anti-malaria unit was organised at Lakshnavaram in Warangal district during the First Plan period. Ample provision has been made in the Second Plan to provide equipment for the existing three Malaria Control Units functioning in the Telangana region. In the Andhra districts the establishment of four Malaria Control Units covering about 4 million population is contemplated. A Central Malaria Laboratory and Museum are planned.

With a view to intensifying the control of filariasis in the endemic zones of Nizamabad, Mahbubnagar, Medak and Karimnagar districts, three control units are proposed during the Second Plan period under the National Filariasis Control Programme. In the former Andhra State two survey units and one Filariasis Control

Unit were established in 1955 and the survey of endemic areas and control of endemic filariasis have registered considerable progress at the close of the First Plan period.

In the Telangana region 18 medical and health units were established during the First Plan period and sanction has also been accorded for 10 more units under the Second Plan. With a view to providing more facilities for in-patients the Fever Hospital of Hyderabad will be upgraded under the Second Plan and a sum of Rs. 25,000 has been earmarked for the purpose. It is also proposed to provide 108 medicine boxes for the entire Telangana region during the Second Plan Period.

Besides long established hospitals and specialised institutions at Visakhapatnam, Kakinada, Guntur, Anantapur, Hyderabad and other cities, new additions are coming up wherever funds are available and public co-operation is forthcoming. The Mahatma Gandhi Hospital at Warangal, the Radium Institute and Cancer Hospital at Hyderabad are among the notable new institutions. There are three Sanatoria for T.B. patients, and special hospitals for Leprosy, Mental diseases etc.

Number of hospitals, dispensaries and institutions for special treatment in the State excepting Khammam District (1953-54): 280; No. of beds available 11,549; No. of Govt. doctors 617; No. of out-patients treated 71,50,435.

#### EDUCATION

There are three Universities in the State: The Andhra University at Waltair, the Osmania University at Hyderabad and the Sri Venkateswara University at Tirupati.

Elementary education is free in Government Schools. The system of compulsory primary education is being extended progressively. Approximately there is a school for every 500 of the population.

High Schools offering Secondary Education exist in all important towns. There are 11 Anglo-Indian Schools, the strength in which during 1955 was 2,145.

Besides a large number of Colleges offering general education, two Agricultural Colleges, three Medical Colleges, two Science Colleges, two Women's Colleges, a Law College and four Engineering Colleges exist in the State. There are 11 Colleges giving higher education in Sanskrit. One novel experiment is a Janata College started recently in Warangal district where rural youth are given training in better methods of agriculture, rural social service, health and hygiene, rural surveys and crafts.

As for training facilities, there are 4 B.Ed. Colleges, besides a number of Secondary Grade Training Centres and Basic Training Centres. The old type of adult schools are being replaced by Social Education Centres.

The Regional Research Laboratory in Hyderabad has some noteworthy discoveries to its credit.

No. of primary schools: About 25,000; enrolment about 40,000.

No. of secondary schools: about 960; enrolment about 4-22 lakhs.

No. of Colleges: about 60; enrolment about 40,000.

Statistics relating to collegiate education in Andhra Pradesh except Khammam District. Figures for 1952-53: No. of Arts and Science Colleges 44; enrolment 32,652; No. of professional Colleges 18; enrolment 4,713; Other colleges 13; enrolment 571.

Statistics relating to schools in Andhra Pradesh excepting Khammam District, 1952-53: No. of High Schools 652; enrolment 329,099; No. of middle schools 228; enrolment 68,350; No. of primary and other schools 25,498; enrolment, 2,060,026.

## OSMANIA UNIVERSITY

Hyderabad 7.

The Osmania University was established in 1918 under Royal Charter which was revised in 1947. It is a residential, teaching and affiliating university. It comprises ten Faculties, namely, Arts, Science, Commerce, Medicine, Engineering, Agriculture, Veterinary Science, Education, Law, and Religion and Culture. There are 6 University Colleges, 6 constituent Degree Colleges (including one exclusively Women's College), 6 constituent Inter Colleges, 25 Affiliated Colleges (including 3 Medical Colleges, 12 degree Colleges and one Women's College), 2 Constituent Evening Colleges (one Degree and one Inter) for those in employment.

In the Arts and Science Faculties, English and Hindustani, the latter with Persian and Devanagari Script, are the media of instruction. In all professional courses English is the only medium of instruction. The course of study in M.Sc. Technology has been abolished and a new degree course B.Chem. Technology and B. Chem. Engineering has been instituted. It is of four years' duration after Intermediate Science. The courses of study in Oriental learning in Sanskrit for entrance test, Dip. O. L. and B.O.L., have been framed. One private Oriental Institution has been recognised to coach students for these courses. In 1954-55 two new courses of study, the Certificate of Proficiency in Journalism and Diploma in Journalism, were introduced. Diploma and Certificate in Public Administration also introduced in 1956-57.

The University is completely autonomous though it is wholly financed by the Government. The University Council, consisting of 16 members is the governing body. The Vice-Chancellor is the chief administrative officer. The other bodies of the University are the Finance Committee, Academic Council, Senate, Faculties and Boards of Studies and the Equivalence Board.

Budget (1955-56) : Rs. 76,25,126.

Contribution by State Government : Rs. 52,17,000.

Library : 116,648 Volumes (English 35,909; Urdu, Persian, Arabic 16,789; Oriental 17,070, Gift 16,456; Salarjung 30,424). There are 3,304 MSS and 1,244 Palm Leaf MSS.

SRI VENKATESWARA UNIVERSITY  
TIRUPATI

This University was inaugurated on September 2, 1954. This is the third University in the State and is a residential-cum-affiliating University. Its principal aim is to foster study of Oriental subjects and Indology. Instruction is provided in courses leading for pass and honours degree examinations in Mathematics, Philosophy, Economics, Physics, Chemistry and Zoology in the University College run by the University at Tirupati. The Colleges in the Rayalaseema and Nellore districts are affiliated to Sri Venkateswara University from the academic year 1956-57.

Colleges in five districts of Andhra are already affiliated to it—Kurnool, Cuddapah, Anantapur, Chittoor and Nellore.

The period of study after Intermediate is two years for a pass course and three years for honours course.

The University College is run by the University at Tirupati. There are at present six teaching departments upto the Honours Standard in the University College.

Starting of post-graduate and Research courses is under consideration.

Instruction in the Pre-University course will be organised in all the affiliated colleges as from July 1957 and the three years' Degree course from 1958-59.

### MARKETS AND SLAUGHTER HOUSES DEPARTMENT

*Crawford Market, Dr. Dadabhoi Naoroji Road, Bombay 1*

There are 62 markets in Greater Bombay out of which 37 are the property of the Municipal Corporation while the rest are owned by private individuals and licensed by the Corporation.

These markets are called upon to handle enormous quantities of daily necessities of life like fruits, vegetables, meat, fish, poultry, provisions, etc., etc., for the local consumption as well as for trade purposes.

A cold storage plant is maintained at the Arthur Crawford Market which is one of the biggest markets in the city. A lift is also provided in the Fish Section of this market for conveyance of fish consignments.

The scope of Municipal control extends to general supervision, sanitation, food-inspection, collection of rents and fees, licensing, repairs, replacements, etc., etc.

The Corporation also maintains a number of slaughter houses, the prominent being the Bandra and Kurla Slaughter Houses, the Pork Slaughter House and the licensed Jhatka Slaughter House at Arthur Road. Meat is conveyed to city markets by Municipal motor meat convoys.

An elaborate system of meat inspection, which includes ante- and post-mortem examination, grading and stamping of carcasses, rejection and destruction of unwholesome meat, etc. is regularly carried out by the Meat Inspection Service, consisting of qualified Veterinary officers engaged by the Corporation.

There is a special staff employed to detect the smuggling of animals and contraband meat and unauthorised slaughter.

Figures in column A show the number of contestants and in column B the seats won including the unopposed returns of each party given in brackets. In Andhra, the Congress figure in column B includes 116 from the old Andhra State and four uncontested returns from Telangana, to which the legislative elections were confined.

The second General Elections started on 24th Feb., 1957 and ended on 9th June. The first States to go to the polls were Orissa and the Punjab and the last was the Union Territory of Himachal Pradesh where the elections began on 24th May and ended on 7th June. In this last mentioned State the elections began long after they ended elsewhere (March 14) because of heavy snow during the earlier part of the year. Almost all election returns were reported by the 31st of March.

There were a little over 193 million voters (193,129,924) and about 14,000 candidates. The number of seats for which the elections took place were 494 for the Lok Sabha and 3,102 for the State Legislative Assemblies.

The Lok Sabha consists of 500 members. Of these six are elected indirectly by the Jammu and Kashmir Assembly. Of the remaining, 76 represent the Scheduled Castes and 31 the Scheduled Tribes.

The country is divided into 493 parliamentary constituencies, of which 312 are single-member and 91 double-member.

For the legislative elections, the country is split into 2,518 constituencies, of which 1,934 are single-member and 584 double-member. The 3,102 M.L.As. include 470 representatives of the Scheduled Castes and 221 of the Scheduled Tribes.

There were about 200,000 polling stations. The number of ballot boxes and ballot papers were respectively 2,875,000 and 500 million.

Below we give the Calendar of the elections:

Andhra: February 25, March 1, 4, 7 and 11. (In Andhra Pradesh, the Assembly elections were confined to the Telangana area and the Proddatur and Bhadrachalam constituencies of the old Andhra State).

Assam: February 25, March 2, 6, 9, 10 and 11. Manipur: February 25, March 2 and 11.

Bihar: February 25-26, 28, March 1-2, 4-9, 11 and 12.

Bombay: February 25, March 2, 6 and 11.

Kerala: February 28, March 2, 5, 7, 9 and 11.

Madras: March 1, 4, 6, 8 and 11.

Madhya Pradesh: February 25, 28, March 1-10.

Mysore: February 25, 26, 28, March 1-12.

Orissa: February 24, 25, 28, March 1-9, 11 and 12.

Punjab: February 24, 26-28, March 1, 4, 8-12, and 14. (Polling in the snowbound areas of Kangra was to be held in summer).

Himachal Pradesh: Owing to heavy snow, polling was delayed. It began on May 24 and ended on June 7.

Rajasthan: February 25, 27, 28, March 1-9, 11 and 12.

Uttar Pradesh: February 25, 28, March 3, 6, 9 and 12.

West Bengal: March 1-14.

The Election Commission recognised four parties at the national level. They were the Congress, the Praja-Socialist Party, the Communist Party and the Jan Sangh. Eleven other parties were recognised at the State level. Besides, more than 30 parties or groups fought the elections on their own or in association with each other or the other in different States.

There were fewer candidates for Parliament in 1957 than in 1952—1,500 against 1,874.

Excepting the P.-S.P., all the other recognised all-India parties put up a larger number of candidates this time. The Congress put up 483 against 469 in 1952. The Communist Party 115 against 49 and the Jan Sangh 103 against 91. The P.-S.P. put up 175 against 256 on the last occasion.

The number of independents was, however, about the same. It was 524 in 1952. It was 522 this time.

The maximum number of contestants for an Assembly seat was 11 in a single-member constituency and 16 in a two-member one, the corresponding figures for Lok Sabha being eight and 11 respectively.

The single-member Assembly constituencies of Gaya in Bihar, Jodhpur City I and Fatehpur

Note: In both Saurashtra and Gujarat, parties other than the Congress and the P.-S.P. polled under two per cent of the total votes in both elections. The Jan Sangh polled 24,252 votes in Saurashtra-Kutch in the latest elections. In Gujarat the Communists polled 37,862 votes and the S.C.F. a little over 35,000 votes.

The 1957 totals for the Independents include 46,749 and 11,60,344 votes polled by candidates sponsored by Mahagujarat Janata Parishad in these two areas respectively.

The Parishad polled about 13 lakh votes in all the Gujarati-speaking areas of the State. It won 30 seats in Gujarat and none in Saurashtra. The Congress won 97 out of the 180 seats in

in Rajasthan, Chillurap in Uttar Pradesh and Sandeshkhali in West Bengal had 11 candidates each, while the two-member constituencies Jahanabad in Bihar and Sirsa in the Punjab had each 16 contestants in the field.

In the elections to the Lok Sabha, there were eight contestants in the Rewa (Madhya Pradesh) single-member constituency and 11 in the Nawada (Bihar) two-member constituency.

Repolling had to be ordered in 89 polling stations. The number of constituencies affected was 22 in six States. The re-polling arose because of the mistakes of the polling staff.

## PARTIES, SYMBOLS

Four parties were recognized as all-India parties:

The Indian National Congress, the Pra Socialist Party, the Communist Party, the Bharatiya Jan Sangh. These parties had the same symbols as in the previous general election (Congress (two bullocks with a yoke), Communists (ears of corn with sickle), P.-S.P. (hu Jan sangh (oil lamp with wick)).

The State parties and their symbols:

(1) All-India Scheduled Castes Federation (Andhra Pradesh, Bombay, Madhya Pradesh, Mysore, Punjab, Delhi and Himachal Pradesh—Elephant). (2) All-India Forward Block Marxist (West Bengal—standing lion). (3) Andhra Ganatantra Parishad (Orissa—bow and arrow). (4) Akhil Bharat Hindu Mahasabha (Bombay, Madhya Pradesh and West Bengal—horse and rider). (5) Akhil Bharat Jan Sangh (Bombay, Madhya Pradesh, Rajasthan and Uttar Pradesh—rising sun). (6) Chhota Nagpur and Santhal Parganas Janata Party (Bihar—cycle). (7) Jharkhand Party (Bihar—cock). (8) Prasants and Workers' Party (Andhra Pradesh, Bombay and Mysore—cycle). (9) The People's Democratic Front (Andhra Pradesh—human hand). (10) Revolutionary Socialist Party (Kerala—spade and stoker). (11) Tripura Gau tantrik Sangha (Tripura—ladder).

The standard for recognition as a party was a minimum of three per cent of the valid votes polled in the Assembly or the electoral college elections.

Upto 10th April the Election Commission received 105 election petitions according to press note issued by the Commission.

Of these, four—two from Madhya Pradesh and one each from Andhra Pradesh and Madras—related to elections to the Lok Sabha.

The state-wise break-up of petitions in respect of elections to the Legislative Assembly is follows.

Andhra Pradesh 3, Assam 15, Bihar 1, Bombay 3, Kerala 1, Madhya Pradesh 27, Madras 3, Mysore 5, Orissa 3, Punjab 17, Rajasthan 1, Uttar Pradesh 16 and West Bengal 1.

The following uncontested returns were reported:

Lok Sabha: Twelve, all Congressmen. (Andhra Pradesh four, Assam two, Bihar two, Madras one, Mysore two and Madras one).

State Assemblies: Andhra four Congressmen, Assam four Congressmen and two others, Bombay three Congressmen, Kerala one Independent, Madhya Pradesh six Congressmen, Madras three Congressmen, Mysore seven Congressmen, one Independent, Orissa one Congressmen, Punjab one Congressmen, Rajasthan five Congressmen and Uttar Pradesh five Congressmen.

Twenty-seven women were elected to the Lok Sabha and 195 to the various State Assemblies in the second general elections as compared with 21 and 80 respectively in the first general elections.

Twenty-three women elected to the Lok Sabha belong to the Congress Party, two to the Communist Party and two to the Chota Nagpur Santhal Parganas Janata Party.

Of those elected to the State Assemblies, 1 belong to the Congress, four to the Communist Party, one to the People's Democratic Front, two to the Chota Nagpur Santhal Parganas Janata Party, three to the Ganatantra Parishad and the remaining six are Independents.

The Bihar Assembly will have 32 women, the largest for any State, followed by Madhya Pradesh with 27, Uttar Pradesh with 26, Bombay

**A COMMENTARY**

Below we give brief notes on points not brought out in the tables.

**ASSAM**

With one exception in the Mikir and North Cachar Hills, the Congress failed to win a single tribal seat in the Hill districts of Assam. This is perhaps the most significant aspect of the elections to the State Assembly.

In an unbroken chain from the Garo and Khasi and Jaintia Hills, through the Naga Hills to the Lushai Hills, the tribes largely voted for parties that favour a separate eastern Hill State, a demand examined and rejected by the States Reorganisation Commission. The Congress even lost the Shillong seat which it held previously.

The following is the position in the various Hill areas which return 18 members:

Lushai Hills: United Mizo Freedom Organisation (2), and Mizo Union (1).

Garo Hills: Garo National Council (3), and Independent (1).

Khasi and Jaintia Hills: Eastern Indian Tribal Union (3), and Independents (2).

Naga Hills: Independents (2—both unopposed) and there were no aspirants for one seat.

Mikir and North Cachar Hills: Independents (2) and Congress (1). The Congress has lost one seat here.

In addition the Congress contested and lost the tribal seat in Panery (Darang district).

The Congress however, won some half a dozen tribal seats in the plains and foot hills at Moran, Goalpara, Jorhat, Kokrajhar (Goalpara district), Laharighat (Nowgong district), North Lakhimpur and Patacharkuchi (Kamrup district).

The unexpected defeat of the then Deputy Minister for Public Works Mr. Joybhadra Hagjer in the North Cachar Hills was a blow. He was a source of strength in the hill area. This leaves the Congress with only one successful adherent Mr. Chatrasingh Teron in the Mikir Hills west. He joined the Congress leaving the Revolutionary Communist Party.

The leftist opposition in the State Assembly will comprise 13 members—eight Praja-Socialists, four Communists and one Revolutionary Communist.

The Hills representatives in the opposition will consist of four Garo National Conference members, four Eastern India Tribal Union members (all from Khasi Jaintia Hills), and two United Mizo Freedom Organisation members. One Mizo Union representative and two independents from Mikir, North Cachar Hills, may also join the tribal opposition group.

The Congress secured a very comfortable majority in the 108-member House, but its prestige suffered in comparison to the last elections. Not only did it secure a lesser number of seats, but also lost several prestige seats. Two Ministers, one Deputy Minister, two members of Parliament, including Mr. Binulal Prasad Chaliha, President of the Assam Pradesh Congress Committee, were defeated.

**BIHAR**

Though the Congress returned to power its strength dropped from 241 in a House of 320 to 210 in a House of 318.

Had it not been for the fact that different opposition parties pulled one another down, the Congress majority would have been further reduced. In a very large number of constituencies, multi-cornered contests did help the Congress.

At least 20 seats came as a gift to it on account of the neck to neck race between the Praja-Socialists and the Socialists. These seats were won narrowly.

Note: The 1951 figures have been adjusted for the territories comprising the present State of Madras i.e. less Andhra, Malabar and South Kanara and plus Nagercoil. There was an increase in the electorate for the State over the five years, the figure for 1957 being nearly 1.8 crores.

The P.-S.P. vote for 1951 include those secured by the Socialist Party and the K.M.P.P.

Another favourable factor was the presence of 431 Independents in the field. 278 of them forfeited their deposits, having helped to split the anti-Congress vote.

The Jharkhand Party retained its block of 32 seats, losing some safe seats reserved for scheduled tribes and making up the loss in the general constituencies.

The Janata Party, which functioned only in Hazaribagh, emerged as a new force in the State and captured all the 16 seats there and seven more in the districts of Patna, Saran and Palamau.

## BOMBAY

The Samyukta Maharashtra Samiti polled just under 53 per cent of the total votes cast and captured 100 of the 134 seats in Maharashtra proper according to a regional analysis of voting to the Bombay Assembly.

The Congress poll in this area declined from 27.4 lakhs or 56 per cent in 1951 to 22.5 lakhs or 39 per cent. The party did not gain a single seat in Kolaba or Kolhapur district, and secured only one seat each in Poona, Ratnagiri and Ahmednagar districts.

In Bombay City, the Samiti polled just over six lakh votes or 51.5 per cent of the total votes cast. The Congress, however, improved its position from 39.7 per cent to 46.5 per cent by polling over one and a half lakh votes more than in 1951. Of the 23 seats from Bombay city, the Congress won 12 and the Samiti 11.

The Congress rout in Maharashtra was, however, partly offset by gains in the other two Marathi-speaking areas of Marathwada and Vidarbha. In the former, the Congress won 35 out of 42 seats and increased its poll by over one lakh votes from 43.5 to 52 per cent.

In Vidarbha, the Congress increased its poll by about 3.5 lakhs from just under 50 per cent to 52.3 per cent and won 55 of the 63 seats.

In neither region was the Samiti able to make very much of an impression.

Taking the Marathi-speaking regions as a whole, the Congress won 124 seats out of 248 as against 105 by the Samiti. The Congress vote, however, declined by a few thousand (on account of the losses in Marathwada) while the ratio of the party's vote to the total dropped from 52.6 per cent to 45.3 per cent.

A possible conclusion would appear to be that the bilingual formula for Bombay has been endorsed by Marathwada and Vidarbha but repudiated by Maharashtra. The Marathi-speaking people of the State as a whole have approved the *status quo*.

On balance, the conclusion could also be drawn that the bilingual formula has been accepted by the people of Bombay city notwithstanding the fact that the Samiti polled a majority of the total votes cast.

It must be remembered that the Congress polled a minority of votes in the city even in 1951. The fact that it has been able to improve its position both in terms of the number of votes cast and the proportion of this to the total would not indicate a rejection of the bilingual formula which the party sponsored.

There were many straight contests in the city and a considerable portion of the Samiti vote were interpreted as a vote against the Congress or in favour of the other parties rather than as a pro-Samiti vote as such.

Analysing the voting partywise the Communists and the Scheduled Castes Federation have gained ground in Bombay city while the P.-S.P. has lost ground.

The most striking features of the voting in the three Marathi-speaking regions is the much improved performances of both the Peasants' and Workers' Party and the Scheduled Castes Federation. The P.W.P. appeared to be decaying with its leadership going to the Congress. But both this party and the S.C.F. have shown an unexpected resilience which is perhaps accounted for by the impetus given them by the S.M.S. alliance in Maharashtra.

Electorate .. .. .	80,05,903		86,93,031		

Note: The 1951 figure represents the total for the new Rajasthan, including Ajmer.

The P.-S.P. has lost ground in all three regions, although it remains the second party after the Congress taking the State as a whole. The Communists have possibly been the biggest beneficiaries of the Samyukta Maharashtra movement. They have improved their position considerably in Maharashtra and also in Vidarbha. They have, however, lost ground in Marathwada (as also in Telangana, another constituent unit of the former Hyderabad State), where they contested the elections as part of the P.D.F. in 1951.

As for the Congress, the ruling party clearly faces a deep crisis in the Marathi-speaking region. Lack of leadership combined with the Maharashtra P.C.C.'s equivocal position over the States reorganisation proposals was partly responsible. The police fringes over the reorganisation riots and the refusal of the Government to hold an inquiry into them have had their share.

Despite the Mahagujarat agitation, the Congress was able to improve its position in the elections to the Bombay Assembly from the Gujarati-speaking areas of the State.

The Party polled over five lakh votes more in Gujarat and Saurashtra-Kutch than it did in 1951 and secured 55 per cent of the total votes cast as against 50 per cent in the last elections.

The Mahagujarat Janata Parishad made practically no impression whatever in Saurashtra-Kutch. Even in Gujarat it polled a little under 13 lakh votes or about 34 per cent of the total votes cast as against over 51 per cent secured by the Congress.

The M.G.J.P.'s success was essentially limited to the four northern districts of Gujarat where it captured 26 out of 43 seats. It won two out of four seats in Sabarkantha, 11 out of 12 seats in Mehsana, eight out of 14 seats in Ahmedabad district and five out of 13 seats in Kaira.

In addition, it won one seat in Banaskantha, two seats in the Panch Mahals and one seat in Broach district. In all the Parishad won 30 seats out of 89 in Gujarat and none in Saurashtra-Kutch.

The conclusion that emerges from this analysis is that the Gujaratis are still strongly pro-Congress. In Saurashtra-Kutch the Congress polled over 72 per cent of the total votes cast—the best that it has done anywhere in the country and won 40 out of the 141 seats in that area.

## KERALA

The elections in Kerala were closely contested. Over 70 per cent of the electorate of 75 lakhs exercised their franchise. This is probably the highest poll in any State.

The Muslim League improved its position somewhat in Malabar largely on account of its alliance with the P.-S.P.

A significant feature of the election was the marked disinclination of the electorate to support the smaller parties or independents. Of the six independents who were elected, five were supported by the Communists. On the other hand, 27 of the 45 independents who contested forfeited their deposits.

The record of the P.-S.P. and the R.S.P. is even poorer. The former put up 62 candidates, of which as many as 27 lost their deposits. The party's influence is now limited to the areas around Trivandrum and parts of Malabar and largely rests on the personal prestige of its leader, Mr. Pattom Thanu Pillai. It won only nine seats.

The R.S.P. fielded 28 candidates of whom 20 lost their deposits including the Party leader, Mr. Sreekanth Nair, who in 1951 topped the polls to the Lok Sabha from the State.

The Communists have broken into the Congress strongholds in Trichur District (largely comprising the former Cochin State) and Kottayam District. The Christian vote in the State, which has in the past been more or less solidly Congress, has probably gone in part to the other non-Communist parties and independents this time, at any rate in certain areas.

## MADHYA PRADESH

While the Congress has secured a steam-roller majority in Madhya Pradesh, the general elections have exposed the weakness rather than the strength of the organisation which in the past five years provided the Government in all the four constituent units of this newly integrated State.

The Congress party in Mahakoshal has won 134 of the 151 seats, as against 129 in the last elections. But this gain does not truly reflect the strength of the organisation when one takes into account the inclusion of nine big ex-landlords and five former rulers, who, though not truly Congressmen, hitched their fortunes to the Congress star. Maharaja Pravin Chandra Rao

of Bastar, a late inclusion in the Congress list for the Jagdalpur Assembly seat, was alone responsible for the victory of all the ten Congress candidates from the Bastar district. In the last general elections, when the Maharaja was not with the ruling party, the Congress had lost almost all the seats to the Maharaja's independent nominees.

In Madhya Bharat the number of Assembly seats were reduced from 99 to 89. Congress losses there stood at 24.

But the Congress can have little sense of satisfaction, when even after a last-minute inclusion of the Maharani of Gwalior in the Congress fold, the organisation could not effectively contain or curb communal forces in the State.

Though the Mahasabha this time won only seven seats as against 12 in the last elections, the annexation of ten seats in place of three formerly held by the Jan Sangh maintained the hold of the two communal organisations at the pre-election level in this area.

The results indicate that either the Maharaja and Maharani of Gwalior, who toured part of their old territory, do not now command the influence credited to them before the Maharani's nomination, or communalism was too deep-seated in this area to be dislodged by half-hearted attempts made at election time.

The only redeeming feature was the defeat of all the R.R.P. candidates from this area. In the last Assembly they held two seats. But even this slight gain was erased by the election of four Independents in place of the two in the old House.

The Communists, too, have infiltrated into the politics of this area, winning two seats. Mr. Sarwate from Gwalior has come under his own party label and Mr. Homi Dajee, General Secretary of Madhya Bharat Trade Union Congress, has come into the new House in the garb of an independent candidate.

The annexation of eight of the nine seats by the Congress in the former Bhopal State gives on paper a much more rosy picture than it actually is. The loss of the Bhopal city seat to the Communist candidate, Mr. Shakir Ali Khan, and the defeat of the Congress candidate here, who all but lost his deposit as a bad third to a Communist and Mahasabha candidate, is perhaps a reflection of the lost prestige of the Congress in this State, where old Congress workers and leaders had been eliminated.

## MADRAS

The Communists lost ground while the P.-S.P. took a severe beating.

On the other hand, the Congress improved its position considerably.

The main opposition came from the Dravida Munnetra Kazhagam and the Congress Reforms Committee comprising an influential group of rebel Congressmen.

The D. M. K. is a parochial and communal party, it stands for a separate Dravidastan, is anti-Hindi and claims to be a social reform movement in an inverted sense insofar as it is anti-Brahmin. Paradoxically, its parent body, the Dravida Kazhagam, with which it broke in 1948, and which has a broadly similar platform, campaigned for the Congress.

Caste once again proved to be a dominant factor in Madras politics and all parties were guilty of exploiting caste considerations.

The Commonwealth Party and Tollers Party, both of them caste groups, captured a number of seats in 1951. But they subsequently disappeared and were partially absorbed into the Congress. The Forward Bloc Marxist polled a little over a lakh of votes in 1951 and about maintained its position this time.

The Communists have not polled many fewer votes than in 1951, but the proportion of votes cast in their favour shows a more distinct drop.

## MYSORE

Mysore along with Madhya Pradesh is the most solidly Congress State.

The opposition is weakly organized. The main challenge comes from the P.-S.P. But the P.-S.P. does not appear to have consolidated the position it established in the 1951 elections. The total votes polled by the party (inclusive of the Kisan Mazdoor Praja Party vote in 1951) declined from 11,00,000 to 8,90,000. The ratio of votes cast has correspondingly declined from 22.4 per cent to 13.6 per cent.

The Communists are still not very significant. But they have improved their position and will, no doubt, seek to capture the P.-S.P. vote as they have done in many other States.

## PUNJAB, RAJASTHAN

The emergence of the Communist Party as the main, though still modest, challenge to the Congress in the Punjab and the growing influence of the right-wing communal parties in this State as well as in Rajasthan are, perhaps, the most striking features revealed by an analysis of the voting to these two State Assemblies.

The Communists polled over ten lakh votes in Punjab or more than 14 per cent of the total votes cast. This constitutes a remarkable increase over the four lakh votes secured by the party during the last elections, an increase not fully reflected in the six seats the party has been able to win.

On the other hand, the Jan Sangh too has doubled its vote from just under three lakhs to nearly 6.5 lakhs. But most of this was polled in the Hindi-speaking areas of the State and reflects an accession of strength to the party following the agitation over the reorganisation of the Punjab and the regional formula.

Much of the Akali vote has gone to the Congress with which the party merged. The dissident Akalis under Master Tara Singh have not been able to find much support.

Two other factors of interest in the Punjab have been the decline of the Praja-Socialist Party and the resurgence of the Scheduled Castes Federation. The Communists appear to have eaten into the P.-S.P. vote.

The most noteworthy feature of the Rajasthan elections was the improvement in the poll over 1951 when about 30 per cent of the electorate turned up to vote. There appears to have been a considerable development of political consciousness over the past five years.

The Ram Rajya Parishad remains the strongest organised opposition party in the State. Together with the Jan Sangh it polled a little over six lakh votes or 17 per cent of the total in 1951 and 7.5 lakh votes or just over 15 per cent of the total poll on this occasion.

The P.-S.P. in Rajasthan shows little signs of growth. The Communists have, however, established themselves and, as in many other States, bid fair to capture the Socialist vote.

## TELANGANA

The Congress was able to "contain" the Communists in Telangana while itself polling over five lakh votes more than in 1951.

The Communist and People's Democratic Front secured 9.7 lakh votes or 31.2 per cent of the total votes cast in Telangana in 1951. This time they polled only 9.4 lakh votes, which is 25.6 per cent of the total poll.

The Congress on the other hand, was able to better its position from 37.5 per cent to 46.5 per cent of the total number of votes cast.

The Congress has eaten into both the Communist and the P.-S.P. vote, the latter of which have been halved. The P.-S.P. has obviously suffered a serious reverse in the south, having fallen down badly in Kerala, Madras and the former Andhra area.

Although the Communists have lost ground proportionately to the Congress in Telangana, it must be noted that it retains a solid core of support. But at the same time, the stranglehold it enjoyed in certain districts has definitely been broken. In 1951, the P.D.F. captured all the 12 seats in Nalgonda district. This time however it has lost three Assembly seats and a Lok Sabha seat to the Congress. The Communist vote in the

district has also declined from 3.4 lakhs to 2.6 lakhs while the Congress vote has nearly doubled at 2.2 lakhs.

If the Communists have lost ground in Telangana they have bettered their position in the old Andhra proper where elections were held early in 1955.

The Communists improved their position in this area from 14.7 lakh votes or 19.6 per cent of the total in 1951 to 26.9 lakh votes or 31.13 per cent of the total in 1955. The Congress vote rose from 22 lakhs to 34 lakhs while the P.-S.P. lost heavily, its vote having declined from just under 15 lakhs to just under five lakhs in 1955.

In Andhra proper the Congress has gained from the return to it of the bulk of the Krishnar Lok Party and part of the K.M.P.P. section of the P.-S.P. The P.-S.P. has in its turn been weakened on account of breakaway of the Lohia group which has some influence in Vishakapatnam district.

The voting pattern for the Lok Sabha to which the entire State returned 43 members gives the overall picture for Andhra Pradesh. Nearly 95 lakh votes were polled. Of these the Congress got just under 48 lakhs or a little over 50 per cent. The Communists (including the P.D.F.) secured 21 lakhs, the P.-S.P. 3.5 lakhs and the Lohia Socialists 3.7 lakhs.

## UTTAR PRADESH

The political monopoly so long enjoyed by the Congress in Uttar Pradesh was effectively challenged in the present elections.

The Congress still enjoys very substantial support, but the lesson of the poll is that the electorate will not necessarily long continue to vote for a party machine and the party bosses who control it.

Although the Congress was returned to power with a comfortable majority, the rejection by the people of Mr. C. B. Gupta, the strong man of the U.P. Congress, and his group reveals a shrewd sense of political discrimination that the party cannot afford to ignore.

The fact that some rebel Congressmen were able to win a few seats is also a pointer in the same direction.

Uttar Pradesh is one of the few States in which the ratio of votes polled by the Congress to the total number of votes cast declined. It dropped from 48 per cent in 1951 to 42.7 per cent in 1957.

The Praja-Socialist Party emerged as the largest opposition group with 44 members. It might well have captured a hundred seats were it not for the break with the Lohia Socialists who managed to secure 25 seats.

The P.-S.P. secured more votes than before, but it too moved down proportionately to the total poll.

Further to the left, the Communists improved their position with a poll of nearly 4 per cent of the total as against a little under one per cent in 1951. They polled about 8,50,000 in 90 constituencies and won nine seats. In 1951, they put up 43 candidates, 40 of whom lost their deposits.

On the right, the Jan Sangh too forged ahead and doubled its vote at 21,50,000. But the Hindu Mahasabha was wiped out, while the Ram Rajya Parishad lost much ground.

## WEST BENGAL

The Congress Party firmly back in power, but with slightly less than the two-thirds majority which it had enjoyed in the former State Assembly.

The stout bid by the five major leftist parties—the Communists, the Praja Socialists, the two Forward Blocs and the Revolutionary Socialist Party—to oust the Congress and form an alternative Government failed, but it fulfilled its claim to be the only real opposition. The alliance captured slightly more than 34 per cent of the total votes cast as compared to 46 per cent by the Congress.

The Congress Party's 46 per cent represents a not inconsiderable increase over the number of votes the party secured during the 1952 elections when its percentage was 39 per cent.

With the complete rout of the Hindu Mahasabha and the Jan Sangh who jointly as the National Democratic Party had 13 members in the old Assembly and with the success of only two members of the other leftist combination (comprising eight small parties), the five-party alliance has 85 members in the House, besides the support of several of the 11 Independents. The Congress has 152.

The Communists with 46 seats are by far the largest opposition party in the new House. In the last elections this party bagged 28 seats.

The Praja Socialists, with 21 members, are the second largest opposition party. In the 1952 elections the Kisan Mazdur Praja Party (which is now part of the P.-S.P.) secured 15 seats in the House.

A remarkable feature of the elections in this State was the unseating of as many as 70 former members of the Assembly. These include three Ministers, two Deputy Ministers, the Government Chief Whip and 36 other Congressmen, 13 Communists, one member each of the Socialist Party and the Forward Bloc, four of the Jan Sangh, two of the Hindu Mahasabha and one Independent.

Even more interesting, and in the eyes of certain political circles, of significance to the future, is the Congress defeat in Calcutta. Here, out of the total of 26 seats, the Congress won only 8 as against 16 in the last elections.

The pattern has been similar in other areas where industrial labour is concentrated. In the hill regions of North Bengal too, the Congress fopped miserably. The best it could do was to support a successful Independent candidate.

On the other hand, Congress claims of gaining a firmer foothold in rural West Bengal was borne out. The abolition of the zamindari system and the introduction of various measures of agricultural improvement have been listed as reasons for the Congress success in the rural areas.

Restlessness born of growing unemployment, particularly among the hard-pressed middle classes, was the principal factor responsible for the Congress reverses in industrial and urban areas. Equally operative was the general bitterness over the high prices of food and other essentials.

Another highlight of the elections in this State was the high percentage of the electorate who exercised their right of franchise. Out of the 15 million eligible voters, over 10 million cast their votes (in the 1952 elections the figure was slightly over 7 million). The votes cast in the newly-acquired area of Purulia, formerly in Bihar, numbered roughly 350,000.

Still another interesting point about polling in West Bengal was the anti-Congress vote of displaced persons from East Pakistan. Those refugees voted overwhelmingly against the Congress.

## ANDHRA PRADESH LEGISLATIVE ASSEMBLY

**Speaker :** A. Kaleswara Rao; **Deputy Speaker :** K. Laxman Bapuji.

**Secretary :** G. V. Chaudhary; **Joint Secretary :** M. Surya Rao.

There are 196 members from the former Andhra area and 105 from Telangana. The members from the former Andhra area were elected in 1955 while those from Telangana in March, 1957. The term of the Assembly has been extended till 1962.

## THE FIRST PARLIAMENT

The first Parliament, constituted in May 1952 after the first general election was dissolved by the President on April 4, 1957 soon after the conclusion of its 16th session.

Over half the membership of the second Parliament is new.

The political and economic consolidation of the country under the new Constitution was achieved during the tenure of the first Parliament.

On the political plane, the outstanding achievement of the first Parliament was the reorganisation of States which, by redrawing the internal political boundaries has completed the process of political integration initiated under Sardar Patel. The distinction between the Part 'A' and Part 'B' States was ended and the Part 'C' States were abolished. The institution of Rajpramukhs, the last symbol of the old princely order, was terminated. The formation of larger and more compact States, grouped in zonal councils has made the planning and execution of economic policy more effective.

It was in and through Parliament that the bitter reorganisation controversy was stilled. The ultimate decision to form a bilingual Bombay State was in particular a triumph of and for Parliament.

On the economic plane the first Parliament adopted in 1955 a resolution proclaiming the objective of a socialist pattern of society. This was preceded by a vital amendment to Article 31 of the Constitution, the compensation clause—and the nationalisation of the airlines and followed by the enunciation of the new industrial policy, and the nationalisation of the Imperial Bank and the life insurance companies.

The Parliament made the country plan-conscious and was in time able to elicit the co-operation of the Opposition in support of the first five-Year Plan.

Two factors stand out on the debit side. The Opposition robust and challenging at first became largely ineffective and all but collapsed after the death of Dr. Syama Prasad Mookerjee, the only real orator the House possessed and the one man that welded the various Opposition groups into a cohesive force. The Opposition started with an initial strength of about 135 members in a House of 500. But gradually many of these were absorbed into the Congress. In this category were a number of P.S.P., K.F.P., Akali and Independent members. No opposition party had the minimum strength of 50 required for official recognition. The Communists were the largest single group, a position they retain in the new House.

In respect of legislative activity the work of Parliament became more businesslike following adherence to agreed time tables adopted by the Business Advisory Committee in which all the parties are represented. But in its concern for legislation the House found or was perhaps given little time to discuss broad policy. The one exception is foreign affairs. There was a foreign affairs debate in every session, which by and large revealed a remarkable unanimity of opinion behind the Prime Minister. It also created a growing awareness and understanding of the country's external relations.

But foreign affairs apart, discussion on other policy matters was limited. Many important and valuable reports of committees and commissions were never debated. The recommendations of the Public Accounts Committee, the Estimates Committee and the Committee on Subordinate Legislation have helped to tune up the administration. But parliamentary debate would render them more effective.

The provisions for half hour discussions and for 'calling attention' were exploited to some advantage. But this is not enough. Parliament is still too much a law making machine. A few informal consultative committees of Parliament

were constituted for various Ministries. But private discussion has obvious limitations.

Having said all this, it must be admitted that the legislative record of the first Parliament was impressive. A tremendous amount of legislation was put on the statute book, some of this of great social and economic consequence. The Hindu personal law was codified, untouchability was made an offence and the civil and criminal procedure codes overhauled. There were also enactments to regulate the conduct of companies, forward markets and stock exchanges. Statutory retrenchment benefits were provided to labour.

Other important bills passed include the Estate Duty Bill, the Press Bill, the Displaced Persons Compensation Bill, the Citizenship Bill, a series of bills amending the Representation of the People Act, the University Grants Commission Bill, the Jammu and Kashmir (Extension of Laws) Bill, the Children's Bill, the suppression of Immoral Traffic in Women and Girls Bill and a bill to ban horror comics.

The first Parliament evolved certain traditions and precedents. Some of these flow from the attempted impeachment of the former Speaker, Mr. G. V. Mavalankar, the resignation of the Railway Minister Mr. Lal Bahadur Shastri—which upheld the principle of Ministerial responsibility—and the clarification of the relationship between the two Houses. In respect of the last, the constitutional equality of both chambers was established except in regard to financial matters where the Lok Sabha is supreme.

In the last five years the library of Parliament and its research and reference section has expanded considerably. More interesting is the fact that these facilities are being increasingly used. A number of parliamentary delegations went abroad and Indian Members of Parliament participated with distinction in the Commonwealth Parliamentary Association, the Inter-Parliamentary Union and as members of our delegation to the U.N.

### AIMS AND OBJECTS

The aim of the Hindu Mahasabha is the protection and promotion of all that contributes to the advancement, strength and glory of Hindu Rashtra, Hindu culture and Hindu polity, and as a means to that end, to achieve Hindu Raj and re-establish the integrity of the State of Bharat by constitutional means.

Besides the establishment of 'Akhanda Hindustan' the aims and objects of the Hindu Mahasabha are defined as follows :

The establishment of a really democratic State in Hindustan, based on the culture and Socialist tradition of the land ;

The organisation and consolidation of all sections of the people into one organised whole ;

The creation of a new social order in which all nationals will enjoy equal rights and opportunities and share equal responsibilities ;

The assurance to each national of the dignity of human values and full freedom of thought, expression, association and worship ;

The revival and promotion of the ancient Indian motto of plain living and high thinking, and the glorious ideals of Aryan womanhood ;

Adoption of (Sanskrit-Nishta) Hindi as the national language and Devanagari as the national script of India,

Removal of all forms of social inequalities and disabilities ;

Reclamation of all those who have left the Hindu fold and welcoming of others into the community ;

Ending of gross inequalities in the distribution of wealth, assurance of a decent standard of living to each national, and securing for workers and peasants their rightful share in the economy of the country ;

Industrialisation of the country as rapidly as possible ;

Promotion of cow protection and abolition of cow slaughter ;

Cultivation of friendly relations with other nations with a view to maintaining international peace and progress.

The present Constitution of India is borrowed from the Constitutions of America, England, France and other Western countries and is not suited to the genius of the people. The Hindu Mahasabha would undertake the task of amending the Constitution so that it may be in consonance with the tradition and culture of the land and make Bharat a truly democratic Hindu State.

The Hindu Mahasabha wants to discourage all separatist tendencies and hence would amend the Constitution so that Bharat may be a well-knit homogeneous State with a strong centre and not a loose combination of autonomous States. Bharat itself would be a State and the units would be provinces and not States.

The Hindu Mahasabha believes in the policy of formation of provinces on a linguistic basis and the readjustment of boundaries of the existing provinces wherever necessary, with due regard to the problems of defence and security, the area, population and economic stability of the province concerned and the rehabilitation of the refugees.

The distinction between States as Parts 'A', 'B' and 'C' would be removed and all parts of India would enjoy the fullest democratic rights without any distinction.

The Hindu Mahasabha proposes to come out of the Commonwealth in order to make Bharat a really free nation. It will enter into treaty relations with the United Kingdom and other countries for mutual help and co-operation.

India's foreign policy will be guided by the principle of enlightened self interest and reciprocity.

The Hindu Mahasabha will adopt the policy of reciprocity towards Pakistan.

The Hindu Mahasabha will endeavour to build up a strong defence in the present disturbed condition of the international situation and with this object in view, will develop the country as a first rate military power in order to make its voice felt in the United Nations Organisation.

The Hindu Mahasabha will make military education compulsory for all young men between the ages of 18 and 25, who are physically fit and special attention will be paid to industries connected with war machines and materials of all types.

The Hindu Mahasabha will relax the rigours of the Arms Act and issue licences liberally to the inhabitants in border areas.

The Hindu Mahasabha recognises the sanctity of private property and guarantees its possession and inheritance to its owners.

All key industries such as electricity, railway, coal and steel mines and industries dealing with war materials and weapons will be owned and controlled by the State. The remaining industries will remain open for private enterprise. In running these industries the Mahasabha assures all investors full facilities to start new industries with State aid and partial exemption from taxation in the initial stages.

The Hindu Mahasabha is convinced that controls, without guaranteeing adequate supply of controlled commodities to the public, have only a nuisance value and also often actually lead to blackmarketing and corruption.

The Hindu Mahasabha will give priority to rehabilitation of refugees and would even levy a special tax, if necessary, for the purpose. The Hindu Mahasabha guarantees compensation to all evacuees who have lost their property in Pakistan and will settle the problem of evacuees' properties at Government level speedily. The Hindu Mahasabha also declares that the refugees will become full-fledged citizens of Bharat. The Hindu Mahasabha will take effective steps to recover abducted women from Pakistan.

The Party lays special stress on the reconversion of those who had left Hinduism. It believes that the activities of non-Indian missionaries are harmful to the country. The Party, therefore, demands a ban on foreign missions and the nationalization of Christian churches.

\* Resignation was reported on 18th March, 1957.

## ALL INDIA SCHEDULED CASTES FEDERATION\*

(26, Alipur Road, Civil Lines, Delhi.)

**President :** Vacant.

**General Secretary :** Haridas Awode.

The object of the All India Scheduled Castes Federation is the attainment by the Scheduled Castes of a status equal to that of others in all walks of life.

To organize the peasants, landless labourers and workers.

To undertake educational work, starting of schools, colleges.

To keep a record of instances of tyranny and oppression committed on the Scheduled Castes.

At a meeting in Nagpur on Apr. 22, 1957 the Working Committee decided to convene a meeting of the general body at Nagpur on Oct. 3, 1957 to form a new political party to be named 'National Republican Party'.

The General Secretary explained that the step was being taken to fulfil the wish of the late Dr. Ambedkar who had announced after embracing

Buddhism that the Federation would be dissolved.

The Republican Party would work for the betterment of the downtrodden.

**Strength in the Lok Sabha :** 2.

**Strength in the Rajya Sabha :** 2.

**Total strength in State Legislatures :** 12.

**Has the largest following in** Bombay, Madras, Madhya Pradesh, Hyderabad and Uttar Pradesh.

**Total number of votes polled in General Election :**

**Lok Sabha :** 25,01,964.

**State Assemblies :** 18,08,742.

**Total :** 43,10,706.

A new constitution was adopted in August 1955 and was expected to come into force in April 1957 or any other date fixed by the Working Committee.

The S.C.F. supports the principle that States should be linguistically homogeneous. But it is

not necessary to have one State for all people speaking the same language.

The north Indian States are very large while the States in the south are comparatively small. The north may tend to dominate with the result that there will be disaffection in the south and possibly a movement for secession.

The party therefore suggests that U.P. should be divided into three States and Bihar and M.P. (enlarged) into two States each.

Bombay city should form part of Maharashtra. But if it is separated it should not come under Central rule.

Maharashtra should be divided into three parts : western, central and eastern.

There should be a second capital for India—Hyderabad-Secunderabad-Bolarum. This will make people in the south feel near enough to the Central Government.

\* Is due for dissolution at the meeting of the party scheduled for Oct. 3, 1957.

## BHARATIYA JAN SANGH

(Ajmere Gate, Delhi.)

**President**, Principal Deva Prasad Ghosh.  
**General Secretary**, Din Dayal Upadhyay.

**Strength in the Lok Sabha**: 4.

**Total strength in State Legislatures**: 56

**No. of votes polled in elections to Lok Sabha**: Over 72 lakhs.

Has branches in all the States. The Praja Parishad of Kashmir is affiliated to it.

### AIMS AND OBJECTS

The party put forward the following programme in its election manifesto in the 1957 general elections.

Opposition to copying U.S.A. or U.S.S.R. systems.

Promotion of private enterprise with adequate checks against concentration of power. The present trends will lead to State capitalism.

Top priority to food, defence, unemployment. Country should be self-sufficient in defence equipment and producer and consumer goods.

Right to work should be a fundamental right. Unemployment benefits.

Is opposed to the mechanization of agriculture. Economic power should be decentralized.

Spheres of small-scale and large-scale industry should be clearly demarcated. Will promote small-scale industry by reserving markets, encouraging cooperative industries, giving protection to handloom industry.

Nationalisation of basic industries and defence industries. Other industries subject to supervision and regulation. Is opposed to nationalisation of banking and road transport. The present trend in the nationalisation of industry will destroy democracy.

Indianization of foreign-owned industries (e.g. tea, coffee and rubber plantations). In others, two-thirds of investment and staff should be Indian. A ceiling on the profit which can be remitted abroad.

Co-sharing and Co-partnership in industry. Adequate representation of labour on boards of

management. Encouragement of labour unions and automatic recognition. A permanent Wage Board. Periodic revision of scales of pay. Rs. 100 as the minimum wage at present. Social security legislation. Special allowance for hazardous jobs. Abolition of the employees' contribution to the Employees State Insurance scheme. Equal pay for equal work.

Rs. 2,000 as maximum expendable income for individual— to be brought about through taxation and compulsory loans and investment.

Restriction on import of consumer goods sp. luxury goods. Encouragement of swadeshi. Only swadeshi goods to be used in Government offices.

Generally opposed to indirect taxation. Abolition of Sales Tax and excise duty on the necessities of life such as cloth.

Parity in price between agricultural and industrial goods. Upholds abolition of zamindari and distribution of land to the landless. Rehabilitation grants. Cooperative banks and insurance of villagers and cattle.

Compulsory military training. Establishment of defence industries. Abolition of untouchability and fighting caste feeling to bring about unity in Hindu society. Nationalise non-Hindus by inculcating Bharatiya culture. Will implement recommendations of the Niyogi Committee.

Stands for unitary rather than federal conceptions.

Part of land revenue to Panchayats.

Will abolish Legislative Councils and repeal the Preventive Detention Act and the Public Safety Acts and amend sections 107, 108, 109 and 144 of the Criminal Procedure Code and Sections 124A and 153 of the I.P.C. to protect civil liberty.

All India services in health, forests and engineering.

Rs. 500 a month as a Minister's salary. Will separate judiciary from executive, abolish honorary magistrates and preserve the system of benches of High Courts.

Strict reciprocity towards Pakistan.

Will press for decent treatment of minorities in Pakistan.

Will press for full compensation for property left by refugees in Pakistan, and no concession in the matter of loans or canal dues.

Kashmir an integral part of India.

No plebiscite in Kashmir; and no special position to Kashmir in the Indian Union: same status as other States.

Neutrality in foreign affairs. Friendly relations with all. Opposition to colonialism and Communist expansion.

Cooperation with U.N.O. Amendment of the Charter to make U.N.O. truly representative of the people. Permanent seat for India in the Security Council. Full support for people in revolt against Western Colonialism or Russian imperialism.

All steps including police action to liberate Goa.

On the question of displaced persons, stands for (i) immediate payment of small claims, (ii) Revaluation of shops and houses, (iii) Crediting rents realised towards prices of the tenements, (iv) Realisation of values of properties in easy instalments spread over thirty years, (v) No recovery of amounts up to Rs. 2,000 given as help. Recommends demanding territory from Pakistan for resettling the refugees.

Is opposed to the extension in the fifteen-year limit laid down for the replacement of English by Hindi. Will have a five-year plan for the development of Hindi and other Bharatiya languages. Stands for the inclusion of Sindhi in the list of Bharatiya languages.

Stands for giving Hindi its rightful place in the State of Jammu and Kashmir.

Stands for (1) primary education through the mother tongue, (2) secondary and higher education through the regional language and Hindi as compulsory subject, (3) making learning of one regional language compulsory for Hindi-speaking students, (4) compulsory course of Sanskrit studies, (5) recognition of graduates of Hindi and of other recognised Indian languages as on par with English, (6) autonomy of educational institutions and universities.

Free and compulsory education at the primary and secondary stages. Free education to poor but deserving students at the higher stages.

## COMMUNIST PARTY OF INDIA

(7/4, Asaf Ali Road, New Delhi.)

**Politbureau**: Ajoy Ghosh, E. M. S. Namboodiripad, C. Rajeswar Rao, S. A. Dange, P. Ramamurty, P. Sundarayya, Dr. Z. A. Ahmed, Harkishan Singh Surjeet, Bhupesh Gupta.

The Central Committee which is the executive body of the party has a membership of 39, including the nine members of the Politbureau given above.

**General Secretary**: Ajoy Ghosh.

**Membership of party in country**, about 125,000.

**Members in the Lok Sabha**, 30 (including one independent).

**Members in the Rajya Sabha**, 11.

**Total number in State Assemblies**, over 208.

In addition there are 9 independents elected with the support of the Communist Party (five of these in Kerala).

**Number of votes in General Election**, Lok Sabha: 127,46,056 (including those for independents supported by party). Assemblies: 10,433,082 (including those for independents).

The party emerged as the strongest after the Congress both in terms of the seats won and the votes polled.

The number of seats that the Party and its allies held in the various State Assemblies were as follows:

Andhra 26, Assam 4, Bihar 7, Bombay 21, Kerala 65, Madhya Pradesh 3, Madras 4, Mysore

2, Orissa 9, Punjab 6, Rajasthan 2, U.P. 9, W. Bengal 49, Tripura 15, Manipur 4.

In Kerala the Communist Party which was the most numerous single party and also the majority party formed the Government.

The Election Manifesto issued by the Party in January, 1957 stated:

"A determined effort has to be made in the coming elections to put an end to the monopoly position which the Congress enjoys. This position has meant callous betrayal of pledges, defiance of popular will, stifling of political life . . .

"In those States where the democratic movement is especially strong, the Communist Party will strive to create conditions in which democratic governments, based on a coalition of democratic parties and individuals, can be formed . . .

"In other States, the Party's endeavour will be to strengthen its own position and the position of the democratic opposition in the legislatures."

In Kerala and West Bengal the Communist Party fought the elections on the slogan of an alternative Government.

In West Bengal the Communist Party formed an alliance with the Praja Socialist Party, the Forward Bloc, R.S.P. and Independents on the basis of a common programme and the formation of an alternative Government.

### AIMS AND OBJECTS

The aims are described in the Political Resolution adopted at the Fourth Congress of the Communist Party of India held at Palghat from the 19th to the 29th of April, 1956.

This resolution welcomes the foreign policy of the Government which champions the cause of world peace, Asian independence and solidarity, and Indian freedom. The Communist Party will rouse and unite the people to help the country to carry these policies forward through nationwide campaigns around a charter of demands, which will include a demand for breaking with the British Commonwealth.

In the domestic sphere, the Communist Party while taking note that agricultural and industrial production has risen, there is no all-round strengthening of the national economy so that the standard of life of the vast majority of the people continues to be low. The greater part of the heritage from colonialism is yet to be liquidated.

The Communist Party feels that while taking steps to curb imperialism and feudalism, the Government of India simultaneously compromises and sometimes allies itself with them and attacks the living standards and democratic rights of the people.

Hence, the Communist Party will support all those measures of the Government which weaken imperialism and feudalism, curb monopoly and strengthen the national economy. At the same time, it will vigorously combat the policies of compromise with imperialism, of concessions to foreign and native monopolists, or of alliance with the landlords.

In order that the Communist Party may pursue this policy and play its rightful role as the spearhead of the democratic movement, it must come forward as an independent national force. It must act as a party of Opposition in relation to the present Government.

The immediate programme in the domestic sphere is to unite the masses who follow variously the Congress, the P.S.P., the Socialist Party and the Communist Party or no particular party for concrete policies and measures which help to strengthen the freedom and independence of India, to rebuild the national economy and improve the condition of the people.

The country's national regeneration demands immediately the implementation of the following minimum programme :

### INDUSTRY

(1) Priority to development of heavy and basic industries, which includes iron and steel, machine-making, including fabrication of steel plants, heavy chemicals, oil, coal, minerals and power, which should be in the State sector.

(2) Protection to national industries against foreign competition.

(3) Location of industries should be so arranged that while taking into account natural advantages, balanced development of various regions is provided for. In backward States where private capital cannot be mobilised even for large-scale light industries, these should be undertaken by the State.

(4) Development of armaments, aircraft and ship-building industries by the State with a view to strengthening national independence.

(5) Pending the development of heavy and basic industries, increased consumer demands should be met, as far as possible, by maximum utilisation of existing capacities in organised industries and by encouragement of small-scale and village industries.

### RESOURCES

(6) In order to augment the resources for national reconstruction, certain industries and undertakings should be nationalised. To begin with, banking, general insurance, coal-mining as a whole, aluminium industry, manganese, copper, iron and gold-mining as well as British-controlled jute mills and plantations, should be immediately nationalised.

(7) Impose a ceiling on export of profits, and take over profits in excess of the ceiling as compulsory loan.

(8) Impose a ceiling on profits of all big industries and commercial undertakings, and take over profits in excess as compulsory loan.

(9) These, together with the reserves of large companies to form a National Development Pool, to be invested in the State and private sectors in accordance with national needs.

(10) State monopoly of foreign trade in the principal commodities. This would give the State the profits from such trade. It also enables it to diversify our foreign trade and develop it on the basis of mutual advantage.

Further promotion of State trading in the internal market.

(11) Heavier taxation on corporation profits, tax on personal wealth and tax on capital gains. Steeply graded income-tax, and fixation of ceilings on personal and family incomes.

(12) Postponement of payment of compensation to big landlords.

(13) Cancellation of Privy Purse to Princes.

(14) Requisition of the hoarded wealth of the Princes as compulsory loans.

(15) Reduction of the salaries and allowances of highly-paid officials.

### PEASANTS

(16) Immediate carrying out of urgent agrarian reforms and substantial reduction of the burden of the rents and usurious interests.

(17) Immediate fixation of ceiling on land-holdings and distribution, without any payment, of the land in excess to the agricultural labour and peasants.

(18) Settling up agricultural labour and peasant committees to implement land reforms.

(19) Planned free distribution of all Government cultivable waste-land to poor peasants and agricultural labourers within a period of three years and State aid for bringing these under cultivation.

(20) Substantial scaling down of debts owed by peasants to landlords and money-lenders by cancellation of unconscionable debts. Arrangements for the liquidation of remaining debts in easy instalments spread over a number of years. Setting up of Debt Conciliation Boards for this purpose.

(21) Wide extension of co-operatives for rural credit, marketing of produce as well as for supply of agricultural machinery and implements, fertilisers, etc. The existing co-operative law to be drastically amended in a democratic direction, by drastically curtailing the powers of the bureaucratic officials of the co-operative department.

(22) Fixation of minimum wage for agricultural labour, and its enforcement by encouraging the organisations of agricultural labourers.

(23) Guaranteeing of a fair price to the peasants for their produce.

### WORKING CLASS

(24) The present rationalisation drive in major industries like jute and cotton textiles, in the name of stepping up exports, should be stopped.

(25) The present policy of wage-freeze should be given up. A national minimum wage should be fixed, and workers should be assisted in securing fair wages which should be above the minimum.

(26) Pending such fixation, an immediate increase by 25 per cent to all workers' wages in view of the increased productivity of labour. The dearness allowance should be amalgamated with basic wages.

(27) Social insurance schemes to be rapidly extended to cover all industries and types of benefits and not merely confined to health. The benefit of the present health insurance scheme should be extended to the workers' family members.

(28) Provision for unemployment benefits.

### DEMOCRACY

It is necessary to :

(29) Abolish Upper Houses in the Legislatures ; introduce proportional representation in all elections, right of recall, secret ballot even for Panchayat elections ; and officials at various levels to be under the control of elected local bodies.

Union territories, as long as they continue, must have a democratic set-up and not be administered by Commissioners with nominated Advisory Councils.

(30) Ensure the right to organise, hold meetings and demonstrations and for this purpose repeal all repressive laws and measures.

(31) Drastically revise the Police Code, curtailing the powers of the police to arrest, shoot, lathi-charge and ban meetings and processions.

(32) Repeal the Dramatic Performances Act of 1876, and police censorship of plays, restrictions on renting of halls, etc.

(33) Repeal of legislation which encourages regimentation ; active encouragement to trade unions to unite and form one trade union in each industry or undertaking on the basis of internal trade union democracy.

(34) Assure trade union rights to all workers. The National Security and Safeguarding Rules under which workers in Government undertakings and departments are arbitrarily and summarily dismissed, must be repealed. Declaration of areas like Chittaranjan and Hirakud as prohibited areas must be rescinded.

(35) Give workers and employees an effective voice in the management and direction of industrial enterprises. Committees of elected representatives of workers and employees should be recognised on an equal footing with the administration.

(36) Entrust trade unions with the management and administration of Employees' State Insurance and other social amenity schemes.

(37) Associate, with an effective voice, in rural areas the kisan sabhas and organisations of agricultural labour, in the implementation of agrarian reforms, in the execution of local development schemes.

(38) Vest the local organs of the people like Village Panchayats, Local Boards and Municipalities with powers to discharge their responsibilities. The power of Government officials should be curtailed so that they function as the servants of the elected representatives of the people in the local boards.

(39) Entrust all local developmental work, such as Community Project Scheme, NES, etc., to the Panchayats and reduce the present high administrative cost.

### AIMS AND OBJECTS

The ideology, outlook and policy may be described as follows

The object of the Indian National Congress is the well being and advancement of the people of India and the establishment in India by peaceful and legitimate means of a Socialist, Co-operative Commonwealth based on equality of opportunity and of political, economic and social rights, aiming at world peace and fellowship

The provision of the basic needs of food, clothing and shelter, and of opportunity for cultural growth for all people

With a view to achieving the above objects planning should take place with a view to the establishment of a socialistic pattern of society where the principal means of production are under social ownership or control and there is equitable distribution of national wealth

The national aim is a welfare state and a socialist economy

Full employment should be achieved in ten years.

The State should initiate and operate large-scale schemes, providing services such as power, transport; have over-all control of resources, social purposes and trends, maintain strategic controls; prevent private trusts and cartels, maintain standards of labour and production, the public sector must progressively play a greater part particularly in the establishment of basic industries; the private sector should function in terms of the national plan.

Special stress on the development of steel, building of heavy machines, coal and heavy chemicals Extensive mineral surveys.

Organization of industry, commerce, agriculture on a co-operative basis.

Participation of workers in management of industry

Perspective planning; flexible short-term plans in the context of a long-term plan.

Backward areas and regions should be specially helped to develop themselves.

The Congress Party's industrial policy in general is embodied in the Government of India resolution a lengthy summary of which is given in the article dealing with industrial structure and policy

The per capita income should be doubled in fifteen years

Relief in a secular state, all citizens to have equal rights, removal of barriers which divide people on the basis of religion, caste, class or region

Separatist tendencies which hinder national unity should be discouraged Caste, communalism and provincialism should go

Abolition of old and out dated agrarian systems of tenure, security of tenure and fair rents for tenants and tillers of the soil.

Land reform should be effected quickly, agricultural prices stabilized at a reasonable level and facilities for rural credit greatly enlarged The Government would play its part through the nationalization of the Imperial Bank.

There should be a ceiling on holdings

Co-operative farming, the village as the unit of co-operative management.

Local administration through Panchayats.

Promotion of small scale and cottage industries as supplier of consumer goods and source of employment, organization of cottage industries in industrial co-operatives

Supply of adequate quantities of yarn to handloom weavers.

State trading should be undertaken whenever the balance of advantages lies in favour of such a course

Control of distribution is essential in times of scarcity

Time, skill, resources of the people must be organized on a voluntary basis for the economic and social betterment of the community.

Redirection of public expenditure, imposition of estate duties and of tax on wealth and spending for the removal of inequalities and the provision of resources for the Second Plan.

There should be a reasonable relationship of maximum and minimum incomes.

A certain minimum standard of living should be guaranteed to every citizen.

A measure of austerity and avoidance of waste is necessary so that the maximum use could be made of the nation's resources.

Better housing for workers.

Effective machinery to commend good work and condemn bad work in the public services.

Summary method to deal with corruption.

Basic education would provide the future pattern of primary as well as secondary education. Primary Schools will be converted to the Basic type in a well-planned manner within ten years.

Multi-purpose schools will be established.

Manual work as part of curriculum of higher education; no degree or diploma without manual work.

The medium of instruction at the primary stage must be the mother tongue. Where the mother tongue of a child is not identical with the regional language instruction in the mother tongue should be made available, provided there are a reasonable number of persons demanding such instruction.

At the secondary stage instruction should ordinarily be in the regional language, though other languages could be used if there is a large enough demand.

At the university stage, the regional language should be the medium, though Hindi and even English could be used as this will facilitate inter-provincial cultural intercourse.

In the teaching of scientific and technical subjects the transition from English to Hindi or the regional language should be gradual.

Hindi should be a compulsory second language at the Secondary stage.

The study of English should be taken up at the secondary school stage and continued at the university.

Progressively, examinations for the all-India services should be held in English, Hindi and the regional languages. Candidates who have chosen Hindi or a regional language should pass separately in English.

Successful non-Hindi candidates should take a test in Hindi at an early stage.

Hindi Prachar Sabhas in the headquarters of every Taluka in the south.

It is necessary for people in Hindi-speaking areas to learn at least one regional language.

Proper representation to minorities in legislatures and other public bodies.

Removal of social disabilities of women.

Social and legal disabilities hindering the progress of women should be removed and women should be placed on a footing of equality in the matter of marriage, property, inheritance and divorce through a series of Hindu law reform bills.

Need for action in the matter of redistribution of provinces on a linguistic basis where there is a demand representing the agreed views of the people of the area economic, administrative and financial considerations must be taken into account.

The Congress supports Bhoodan and Sampattidan.

The Congress gives active help to movements for communal unity, uplift of Harijans and Adivasis, promotion of cottage and village industries, organization of co-operatives, and in the developmental programme of the Five Year Plans.

The Congress is committed to prohibition.

Independent line in foreign policy, friendly relations with all countries.

India's relations with foreign countries will be governed by the Pancha Shil. They should

also be the basis of the relations between all nations.

Regional military pacts which happen to serve specific interests of the Great Powers will not promote the cause of peace.

India will not be aligned to any power bloc, and will not take part in other people's wars.

China must be admitted to the United Nations. Membership should, in fact, be universal.

Foreign establishments on Indian soil must revert to India.

Only peaceful methods will be used for the liberation of Goa.

In general, people under colonial rule should be free.

Racialism should end.

The Kashmir dispute must be settled in accordance with the wishes of the people of Kashmir.

On the reorganization of States, specific ideas are embodied in the States Reorganization Act. Language is an important but not dominating factor. Major consideration now is economic development. Also, there are bilingual areas; any attempt to set up rigid unilingual States here is unjust.

Unilingual States may exist where this is considered desirable. But unilingualism cannot be made a fetish.

It is also desirable to encourage where feasible the formation of bilingual States with regional councils for each linguistic area. In this sense any union of two States is specially welcome.

Formation of regions within a State may be necessary for the full development of a language or culture.

On the whole, it is best not to have relatively small units.

## PEASANTS AND WORKERS PARTY OF INDIA

(Shivaji Nagar, Sangli.)

General Secretary D. B. Dosal

### AIMS AND OBJECTS

To establish complete independence by severing all connections with British Imperialism.

To establish a People's Democratic Government of Workers and Peasants and all other classes which are firmly opposed to Anglo-American domination and are inside the World Peace Front.

To reorganise India on a linguistic basis, fully recognising the right of nations to self-determination.

To provide constitutional protection to the language and culture of all minorities.

To abolish all vestiges of Princely rule and feudalism.

India and Pakistan to give mutual aid to each other with a view to furthering the interests of the toiling masses of both the States.

Abolish Landlordism without compensation, redistribute land, abolish usury, guarantee minimum living wages to agricultural labourers.

To confiscate foreign capital invested in big industrial concerns, banks, means of communications, plantations, mines, etc.

Nationalise big monopolist industries, banks and insurance companies, to secure for workers a control in the management, to guarantee a living wage, seven hour day, old age pension, sickness benefits, etc to workers.

Guarantee right of work to everybody.

Control profits of private enterprises.

Abolish bureaucracy, officials to be elected by the people with a right to recall.

Creation of peoples' militia.

Equal rights to women, and enforcement of the principle of 'equal pay for equal work'.

**Total Membership** - As a Marxist Party the membership of the Party is strictly restricted to those who are active workers and devote a major part of their time to party work. The rest are put in the class of sympathisers.

Both classes of members together number about 5,000.

There are 22 provincial branches. There are also district branches, the number of which was 336 in 1955-56. The number of organized constituency branches would be about 2,000.

The Party also functions through three different fronts: the peasants (Hind Kisan Panchayat), labour (Hind Mazdoor Sabha), youth (Samajwadi Yuvak Sabha).

The P.S.P. supports the Hind Mazdoor Sabha, which has also the affiliations of unions organized by other parties. The P.S.P. believes that a trade union should be free of all outside influence. The strength of the HMS would be about 6 lakhs. The P.S.P. also functions in a number of smaller unions which are not affiliated to any of the national unions—especially in the railways, posts and telegraphs, banks, insurance and defence industries.

The official organ of the Party is the *Janata*, an English weekly. Provincial branches have journals of their own published in the regional languages.

The central office has a publications department which brings out pamphlets, brochures, etc. on relevant subjects.

There is an International Affairs Committee of the Party which keeps liaison with socialist parties in other countries and concerns itself with international affairs.

The P.S.P. is a member of the Asian Socialist Conference. The P.S.P. maintains an observer status with the Socialist International.

**Total membership of the Party,** 280,825.

**Total number of votes polled in General Elections :**  
**Lok Sabha,** 1,18,59,225.

**State Assemblies,** 1,18,92,500.

## AIMS AND OBJECTS

The Party believes the reconstruction of the country can best be achieved on the basis of an equalitarian social order free from political and economic exploitation and ensuring personal freedom.

The yearnings of the people for clean and efficient administration and expanding and equitable economy can be realised only through decentralisation in administration and economy.

Local initiative and local control must, therefore, be the pivot of our administration and economy.

Village or a group of small villages should be the unit of both administration and economy. Inside the village there has to be full democratic functioning.

Local governments based on the elective principle will be the chief instruments of change in the rural set-up. Local bodies will be endowed with legislative and administrative power, and power over welfare and development departments. Such of those as qualify for it will also be in control of the police except special armed constabularies. After five years of Socialist rule the office of district collector and deputy commissioner will be abolished. This type of functionary would thereafter work under a panchayat. The local authority will have a share of the revenue amounting to about a fourth of the revenue of the State.

To vitalise rural economy, land must belong to the tiller of the soil. It must be redistributed in economic holdings.

Redistribution will be completed in a five-year period by a Socialist Government; family of five persons will be left with a maximum of three times the unit of land that a family can cultivate without employing hired labour or mechanical tools.

The Party will foster and encourage co-operative farming and distribution.

There will be co-operatives of various kinds and degrees, operated primarily through the village panchayat.

To bring undeveloped land under cultivation a food army of a million persons will be raised. It will be clothed and housed by the State and a modest salary will also be permitted. After two years when the reclamation is over the food army will have turned into farmers of model villages. There will be an additional production of four million tons of food, and a trained technical personnel of over 10,000 persons.

About irrigation, the main emphasis will be on minor irrigation, particularly earth works. These will be constructed by the voluntary labour of almost the entire adult population who will give an hour's free work.

The Socialist Government will try and implement a policy of parity between agricultural and industrial prices.

The Government will also make efforts to replace land revenue whenever possible by a graded income-tax.

Economic development should be effected mainly with the help of local resources in men, material and skill.

To this end the Party advocates decentralisation of industry.

It also envisages the development of a new technology based on small machines operated by power, capable of distribution in small units.

A new type of machine will have to be devised, and a scientific and technical research department will be put on the job of discovering suitable types.

Such a technology not only harmonises with the economic and social conditions in our country, but would create circumstances which would eliminate bureaucratic control.

As regards key industries, foreign trade and the sectors of economy where capital tends to accumulate and power concentrate the policy of the Party will be one of nationalisation.

To enable democratic checks and participation, nationalisation will generally be worked out through autonomous corporations in whose control and conduct the workers, technicians, consumers and other allied interests are represented.

The Party stands for a free trade union movement, that is, trade unionism free from the control of government, employers and political parties.

All incomes must be subject to a ceiling: This will be imposed at Rs. 2,000 at the present level of prices. Other incomes will be adjusted. This may be brought about either through taxation or straight-forward fixation.

Fulllest realisation of civil liberties is one of the major objectives of the Party.

The law relating to evidence and criminal procedure will be so altered as to make the processes of justice quicker and cheaper.

The office of Governor and Rajpramukh will be abolished. The distinction between Parts A, B and C States will also be removed. The second chambers in States will also go. Territorial adjustments will be made on a basis of language, economic viability and good administration.

The spirit of austerity and of swadeshi, so far as goods manufactured by decentralised industries are concerned, will be fostered.

The principle of swadeshi can be extended to centralised private enterprise on the basis of fair price and standard of goods. Both public finance and foreign trade will be so reorganised as to work out the above policy.

Economic equality and social mobility with democratic functioning are the ultimate guiding principles.

In foreign policy, the party favours a policy of neutrality and non-involvement and co-operation with like-minded forces in other countries.

In defence the policy will be one of maintaining minimum armed forces and building up of a popular militia.

## THE SIKHS

Broadly speaking there are three groups among the Sikhs. One group forming the main body of the Shiromani Akali Dal is led by Master Tara Singh who is also its President. It is in favour of maintaining the separate identity of the Sikh community.

The Akali president, Master Tara Singh is also president of the Shiromani Gurdwara Prabhandak Committee.

At a meeting in Amritsar on 24th Nov. 1956, the Akali Dal adopted by an overwhelming majority four amendments to its constitution by which members were enabled to join the Congress and exclude politics from the Dal's domain.

On account of the general settlement there is now no difference between the Akali Sikhs and the Congress Sikhs.

In between these two is the Chief Khalsa Diwan with Sardar Mangal Singh Mann as President. It is older than either of the two mentioned above, and was started by the late Sardar Sundar Singh Majithia.

Outside the Punjab there is a U. P. Sikh Pratidin Board with its headquarters in Luck-

now. The President of this body is Dr. Tarlok Singh.

The Sikh point of view as such is underlined by two memoranda. The first is a four-page memorandum presented by Sikh members of the Minorities Advisory Committee of the now defunct Constituent Assembly to the sub-committee which was specifically set up to consider the Sikh case.

This memorandum can be regarded as the most authoritative statement of the demands made by the Sikhs from time to time since independence. (Quoted in earlier editions).

About the same time as Sikh members of the Constituent Assembly handed in their memorandum four Sikh scholars issued a lengthy statement discussing the question of what the Sikhs really wanted.

Among the most urgently-needed relief were the following. 1. An announcement that the question of the Gurudwaras left behind in Pakistan was being taken up by the Government of India with the Pakistan Government. The Nankana Sahib Gurudwara should be created a free city like the Vatican. The other Gurudwaras in Pakistan should be administered by the Nankana Sahib authorities. An equiva-

lent of the land attached to the Nankana Sahib and other Sikh shrines in Pakistan should be allotted to the S.G.P.C. in the Punjab thus giving the Sikhs an opportunity to re-establish their educational and social life; 2. As the worst sufferers among land-holders they should be given a generous share in the new colony areas in Hissar and Karnal Districts to make up for their losses in the colony areas of Pakistan; 3. All Sikh refugees no matter where they come from West Punjab, N.W.F.P., Bahawalpur or Sind should be accommodated in the Punjab. This will provide a homeland for Sikhs in India; 4. In their rehabilitation policy Government should make no distinction between landlords and tenants.

The Akalis and Sikhs in general have accepted the new Punjab of the States Reorganization Act (Pre-reorganization Punjab and PEPSU) and the idea of the regional formula with a zonal council for the Hindi and Punjabi speaking areas. A Gurudwara Act, on an all-India basis is also being talked about. The Sikhs will be in a majority in the Punjabi-speaking zone, where the court language will be Punjabi in the Gurumukhi script. It is estimated that the Sikhs will form about 57 per cent of the population of the Punjabi zone.

## SOCIALIST PARTY

(CENTRAL OFFICE: 3-6-19 HIMAYATNAGAR, HYDERABAD)

Chairman: Gopal Narain Saxena.

General Secretary: Bipinpal Das.

Joint Secretaries: R. M. Manakalath and Rangnath.

Treasurer: I. Narayan.

National Committee:

Rammanohar Lohia, B. S. Mahadev Singh, Rajnarain, Keshav Gore, S. C. C. Anthoni Pillai, Jagdish Joshi, Vijayarama Raju, Jyotish Joarder, Smt. Alamelu Ammal, Kamalnath Jha, Bhupendra Narayan Mandal, Gopal Gowda, S. K. Saxena, Hiralal Jain, Rabi Roy, Shamsi Minal, L. Narayan, Chotela Bharadwaj, Balasubramaniam, Shiva Prasad Chanpuria, Dal Shringar Dube, Madhu Limaye and Baleswar Dayal.

### AIMS AND OBJECTS

**National:** To establish a socialist society through a democratic and peaceful revolution.

**International:** To end inequality among the nations and establish a World Parliament and a socialist world.

The Socialist Party's planning will be directed towards raising living standards as a whole simultaneously and not sector by sector as attempted by the Congress Government.

It accepts large-scale industry wherever necessary and power driven small industry wherever possible.

The Socialist Party will take measures to narrow down existing differences of incomes aiming at a ratio of 1:10.

Will democratise the constitution as well as the administration in the directions both of decentralisation and people's control.

As a first step towards a four pillar State, police powers will be transferred to District and village control, and district and village councils will acquire a quarter share in all revenues and expenditures for the republic.

The police will not be allowed to open fire on the people except in the event of armed insurrection or killing by the crowd.

Believes that people's right to civil disobedience must be recognised as much as

Government's right to arrest and imprison under due processes of law.

All Government employees except the army and armed police will have unfettered political rights.

Justice must be made cheaper and of quicker despatch.

Private ownership of land about 3 times the size of the minimum holding, that is a holding which a family of five can cultivate without employing hired labour or heavy mechanisation, will be permitted. All lands in excess of these will be distributed among poor peasants and landless labourers. Common lands which have been usurped by private individuals will be returned to the village. Land tax on profitless agriculture and uneconomic holdings will be abolished.

More land will be brought under cultivation with the help of a food army.

Agricultural labourers will have a guaranteed fair wage. Ejectments will be banned.

Will nationalise all main industries like iron and steel, engineering, sugar, textiles, cement, mines, electric power and chemicals. All foreign capital invested in the country will be nationalised.

Rejects the concept of property compensation, and accepts instead the concept of rehabilitation compensation.

In the nationalised sector workers will have adequate and effective representation in the State Corporations. In the private sector too representation will be provided in the management, but this would not in any way affect the right to strike or other rights inherent in collective bargaining.

Will fight for a "Fair day's wage for a fair day's work".

Will meet the challenge of unemployment adequately, and until then the Party will agitate for payment of reasonable unemployment relief to the unemployed.

Believes that education upto middle standard should be free and compulsory, and is opposed to the continuance of expensive educational

institutions like the ones at Dehra Dun, Lucknow, Delhi, Ooty and other places.

Will bring all primary schools under the control of municipalities and district boards.

English must be eliminated forthwith from all Government and public use.

The medical profession will be progressively socialised and the Socialist Government will provide for free medical treatment to large sections of the population.

Will prohibit the plying of rickshaws.

Women will be given equal status with men in all matters, political, social and economic.

In the rural areas water pumps will be fitted to wells so that women who draw water save time.

Is committed to the principle of the equal irrelevance of capitalism and communism for promoting a new human civilisation. It wishes to build a third camp that keeps away from the Atlantic and Soviet systems and does not prefer one to the other and would strive to create a civilisation of free men in an equal world.

Aims at India's dissociation from the Commonwealth.

Is certain that no solution to the problems of Goa, Pakistan and Indians overseas is possible without a change of the present Government.

Will enact legislation providing the right of recall.

The Socialist legislator or successful candidate pledges to wipe out illiteracy in his constituency under a phased 10 year programme.

He will equip his constituency with regularly functioning manure pits and Wardha latrines.

He will organise minor earth-works, particularly for irrigation, wherever possible and they will also help set up small-unit industry preferably run on power.

Socialist legislators will also make themselves responsible for such fulfilment of the above plans as is possible through agitation within and outside the Legislatures. If their efforts do not succeed, they will undertake civil disobedience.

## BY-ELECTIONS

Below we give an analysis of the results of the by-elections to the Lok Sabha and the State Assemblies between the two General Elections of 1952 and 1957.

## TAX CHANGES

The following are the new tax proposals:

**1. Import Duties:** The rates of import duties on about 90 items have been raised by small amounts. At the same time, the rates of several hundred items in the Customs Tariff have been rationalised by giving the rates a simpler form and by merging the surcharges into the basic rates. These changes will yield a revenue of about Rs. 6 crores.

**2. Excise Duties:** The excise duty on motor spirit has been raised from 98 nP. per imperial gallon inclusive of surcharge to 125 nP. per imp. gallon to give an additional revenue of Rs. 6.65 crores in a full year; that on refined diesel oil from 25 nP. per l. G. to 40 nP., to yield Rs. 1.80 crores and on diesel oil, not otherwise specified, from Rs. 30 to Rs. 40 per ton to give an estimated yield of Rs. 35 lakhs. The duty on kerosene has been increased fractionally from 18.75 nP. per l.G. to 20 nP., to yield Rs. 20 lakhs.

The duty on cement has been raised from Rs. 5 to Rs. 20 per ton (yield Rs. 6.7 crores), on steel ingots from Rs. 4 to Rs. 40 per ton (yield Rs. 5.7 crores) and on sugar from Rs. 6.52 to Rs. 11.25 per cwt. (Rs. 18.55 crores).

The excise duty of Rs. 70 per ton on vegetable non-essential oils has been increased to Rs. 112 per ton to yield Rs. 3.15 crores.

The duty on tea has been raised as follows to give an additional revenue of Rs. 2.45 crores in a year: (a) loose tea—from 6.25 nP. per lb. to 10 nP. per lb.; (b) packages tea converted from duty-paid loose tea—from 18.75 nP. per lb. to 35 nP. per lb.; (c) package tea—from 25 nP. per lb. to 45 nP. per lb. Likewise the duty on coffee has been raised from 18.75 nP. per lb. to 35 nP. to give Rs. 80 lakhs.

The excise duty on unmanufactured tobacco has been raised to yield an aggregate revenue of Rs. 6.15 crores in a full year as follows: (a) if other than fine-cured and used for the manufacture of cigarettes or smoking mixtures for pipes and cigarettes from 58 nP. to 75 nP. per lb.; (b) if not fine-cured and not actually used for the manufacture of cigarettes or smoking mixtures for pipes and cigarettes, and such tobacco cured in whole leaf form and packed or tied in bundles, hanks or bunches or in the form of twists or coils—from 37 nP. to 50 nP. per lb.; (c) if other than fine-cured and not otherwise specified—from 87 nP. to 100 nP. per lb.

The previous duty on matches has been raised to gain a revenue of Rs. 6.2 crores in a full year and on paper to yield Rs. 2 crores.

All these changes in excise duties are estimated to yield Rs. 60.80 crores in a full year and Rs. 53.20 crores for the remaining part of 1957-58, out of which Rs. 4.2 crores will be payable to the States as their share in respect of tobacco and matches.

**3. Income-Tax:** Certain adjustments in personal income-tax and super-tax rates have been proposed, applying a standard schedule of rates to all incomes and imposing a higher surcharge on unearned incomes. The net effect is that the total of the income-tax, super-tax and surcharge for the highest slab will be brought down from the old level of 81.8 per cent to 84 per cent, for unearned and 77 per cent for earned incomes. The surcharge will be 5 per cent, on the tax computed at the standard schedule rates for earned incomes up to Rs. 1 lakh and 10 per cent, on incomes in excess of that sum. For unearned incomes, there will be a uniform surcharge of 20 per cent, over the standard schedule rates. But no surcharge on unearned income will be levied where the total income does not exceed Rs. 7,500.

The old income-tax base has been widened by reducing the taxable minimum from Rs. 4,200 to Rs. 3,000 for individuals and the exemption limit for Hindu undivided families has been fixed at Rs. 6,000. At the same time the allowance for married people has been increased. The

extra tax-free slab applying to them has been raised from Rs. 1,000 to Rs. 2,000. These changes in income-tax will bring about Rs. 5 crores.

**Corporations:** The income-tax payable by companies from the present level of four annas in the rupee to 30 per cent, and the Corporation tax from the present level of 2 annas 9 pies in the rupee to 20 per cent.

At the same time, the Excess Dividends Tax has been raised to 10 per cent, on distribution of dividends between 6 per cent and 10 per cent., to 20 per cent, on distribution between 10 per cent, and 18 per cent, and to 30 per cent, on the balance of the paid-up capital. But the tax on bonus share issues has been raised from the old level of 12½ per cent, to 30 per cent.

In regard to the rates of super-tax for inter-corporate dividends, they have been reduced from 17 per cent, for Indian companies and 20 per cent, for foreign companies to 10 per cent, for both on dividends received from Indian subsidiaries. Similarly for foreign companies operating through branches and earning other incomes, the rate of Corporation Tax will be reduced from 36 per cent, to 30 per cent.

To avoid the penal consequences of inadequate distribution of profits, the minimum percentage of available profits for industrial companies has been raised to 15 and for non-industrial companies retained at 60. For a company which derives profits partly from industrial activities and partly from other activities, the minimum distribution required will be 45 per cent, of available industrial profits and 60 per cent, of other available profits. Investment companies will be required to distribute 100 per cent, as usual. In cases where the accumulated profits and reserves are not less than the paid-up capital or the value of the fixed assets required to be distributed the minimum percentage has been reduced from 100 to 45 for industrial companies and 90 for others.

Other minor changes are also made in regard to exemption from income-tax of employer's contribution to a recognised provident fund, increase in the percentage of the income that will qualify for rate of income-tax if saved in the provident fund or insurance and limitation on the carry-forward losses. Altogether the changes in the taxation of companies will bring in additional receipts amounting to Rs. 7½ crores.

**4. Tax on Wealth:** This tax based on wealth will be payable by individuals, Hindu undivided families and companies. In the case of individuals, values up to Rs. 2 lakhs and in the case of Hindu undivided families values up to Rs. 3 lakhs will be exempted. In respect of wealth exceeding that amount the rate will be ½ per cent, for the first Rs. 10 lakhs, one per cent for the next 10 lakhs and 1½ per cent on the balance. In the case of companies, there will be no tax on assets up to a value of Rs. 5 lakhs; on values above that the rate will be ½ per cent. The yield from this tax is estimated at about Rs. 15 crores.

**5. Tax on Expenditure:** This tax, designed mainly to restrain ostentatious expenditure and to promote savings, is levied on individuals and Hindu undivided families whose income for income-tax purposes is not less than Rs. 60,000. It covers all expenditure incurred in excess of certain sums which will vary with the size of the family. The amounts excluded are a basic amount of Rs. 24,000 for an assessee and his wife and Rs. 5,000 for each dependent child. It is based on a slab system, the rate for each slab increasing progressively with the increase in the level of expenditure. Thus, for excess expenditure up to Rs. 10,000 the rate will be 10 per cent, and for higher slabs the rate will increase progressively. This tax is applicable from the financial year 1958-59.

**6. Railway Tax:** A tax on railway passenger fares is also being levied at the rate of 5 per cent for distances upto 30 miles, 15 per cent for distances between 31 miles and 500 miles; and 10 per cent for longer distances. There will be no tax on season tickets. It is

expected to yield Rs. 14 crores in a year and about Rs. 8 crores for the remaining part of 1957-58, which will be distributed entirely to the States.

**7. Postal Rates:** Certain charges are made in postal and telegram rates to yield a revenue of Rs. 85 lakhs. (a) The rate has been raised from 5 nP. for single and 10 nP. for the reply post cards to 6 nP. and 12 nP. respectively. Postage on local post cards has also been raised from 3 nP. for single and 6 nP. for reply post cards to 4 nP. and 8 nP. respectively. (b) For jackets containing bona fide books only, the postage on the initial weight slab of 5 tolas will be reduced from the old rate of 6 nP. to 5 nP. but on other jackets, the rate will be raised from 6 nP. to 8 nP. The postage on additional weight slabs in both these cases, are unchanged. (c) The rates on parcels are increased from the old rate of 50 nP. for every 40 tolas or fraction thereof to 60 nP. for the first 40 tolas or fraction thereof and to 50 nP. for every additional 40 tolas or fraction thereof. (d) On inland telegrams, the charge for every additional word over the minimum of 8 words has been raised from 7 nP. to 8 nP. for ordinary and from 14 nP. to 16 nP. for express telegrams.

## SOURCES OF REVENUE AND EXPENDITURE

The principal sources of Central revenue are: customs duties, excise duties levied by the Central Government, corporation tax, income tax (excluding taxes on agricultural income), estate and succession duty, the earnings from the mints, terminal taxes on goods or passengers carried by railway, sea or air, taxes on railway fares and freights, taxes (other than stamp duty) on transactions in stock exchange and future markets, stamp duty on bills of exchange, cheques, bills of lading, letters of credit, insurance policies, transfer of shares, etc., taxes on sale and purchase of newspapers and on advertisements in newspapers.

The railways and the posts and telegraphs contribute to the Central revenues. There are also the profits on the Government industrial undertakings.

About as much as 90 per cent of the revenue is derived from the customs, excise duties, corporation and income taxes.

The principal sources of revenue for the individual States are: State taxes (on agricultural income, lands and buildings, minerals rights, consumption or sale of electricity, sale or purchase of goods other than newspapers, advertisements other than in newspapers, goods and passengers carried by road or on inland waterways, vehicles, animals, boats, tolls, professions, trades, luxuries, amusements), capitation taxes, stamp duties, excise duties on alcoholic liquors, opium and other narcotics.

A point about the Sales Tax is worth mentioning here. The Union has the power of declaring any commodity as essential for the life of the community and thereby vetoing any sales tax levied on it by a State Government. This power comes from the Essential Goods Act of 1952.

Then there are the subventions from the Central Government. Part of the proceeds of the income-tax are distributed among the States. The Jute growing States get part of the proceeds from the export duty on jute. There are also special grants which are made to certain States.

Collection and appropriation of taxes are not always vested in the same authority. Some taxes are levied by the Central Government but collected and appropriated by the States (stamp duties, excise duties, duties on medicines and toilet preparations). Some are levied and collected by the Union but assigned to the States (succession and estate duties on property other than agricultural, terminal taxes on passengers, railway fares, freights, stock exchange, future markets, newspapers or advertisements). Corporation tax is collected and retained by the Union, but taxes on other incomes are levied and collected by the Union and distributed between the Union and States.

The two biggest items of expenditure of the Central Government are outlay on development programmes (capital account) and defence.

Three important heads of expenditure of the States under the revenue account are: irrigation, security and social services.

Then there is public debt, now almost wholly internal—the rupee debt. This may be divided into three classes, long term loans and money market liabilities, the unfunded debt which includes provident funds, postal deposits, saving certificates, and last the deposits.

### LAND REVENUE

The principle underlying the land revenue system in the country has been from time immemorial on the basis that government is the supreme landlord and the revenue derived from land is by way of rent. The official term for the method of collection is "Settlement". These were of three types. The permanent *Zamindari* system was mainly found in the Bengal area, Bihar, the U.P. and parts of Madras and covered roughly an area of 120 million acres equivalent to 19 per cent. of the total agricultural area of the sub-continent. In the second group were the temporarily settled *Zamindars* such as *Malpuzari*, *Maharwari*, *Khoti*, *Narvadari*, *Bhagdari*, *Tamari* and *Talwadari*. These were found mostly in Madhya Pradesh, the Punjab, parts of U.P., the Bengal area and Bombay covering about 80 per cent. of the area of the country. The remaining 51 per cent. or approximately 285 million acres were under the *Ryotwari* system covering parts of Bombay and most parts of Madras, Berar, Assam and the Punjab area.

Most Governments have abolished the *Zamindari* system. To Madras goes the credit of being the first State to put a measure of this kind on the statute book. The Madras Bill received the assent of the Governor-General early in April, 1949. The validity of the *Zamindari* Abolition Act was contested in the various State High Courts and the Supreme Court so much so that the Constitution Act itself was amended to make such bills valid.

Land revenue was the mainstay of provincial finance till 1938-39 and still continues to be an important source of revenue.

Following the Planning Commission's recommendations, several State Governments introduced better charges in 1951 on land for which new facilities by way of irrigation were made available.

### EXCISE

The excise revenue in the country can be classified into two divisions—one derived from the Central Excise Duties and belonging to the Central Government's finance and the other derived from the manufacture and sale of intoxicating liquors, hemp drugs, toddy and opium. The latter is a provincial revenue. The budget for 1956-57 estimated the revenue at Rs. 170.45 crores. These duties are at present levied on motor spirit, kerosene, sugar, matches, steel ingots, tyres, tobacco, vegetable product, betel-nut, coffee, tea, cotton cloth, cement, art silk fabrics, footwear, soap, coal cess, etc. In accordance with the recommendations of the Finance Commission, the States are given a share in the excise duty on matches, tobacco and vanaspathi.

The Budget of the Government of India for 1944-45 brought in force important changes in the field of Central Excises. It raised the rates of duty on unmanufactured tobacco and on cigars and cheroots and included in the Central Excise Tariff betel-nuts, coffee and tea.

A further change in respect of tobacco was proposed in the following year. Accordingly, the highest class of fine-cured tobacco in the excise tariff was subdivided into three and subjected to a duty of Rs. 7-8, Rs. 5 or Rs. 3-8 per lb., according as it was intended for use in manufacturing cigarettes containing more than 60 per cent., more than 40 but not more than 60 per cent., or more than 20 but not more than 40 per cent. by weight of imported tobacco. In order to avoid double incidence, some of the provincial Governments reached

an agreement with the Centre by which they withdrew the provincial excise duty on tobacco in lieu of a share in the proceeds from the Centre's tobacco excise. Tobacco excise has been responsible for nearly half the receipts under Central Excise Duties.

The provincial excise revenue in the country is derived from the manufacture and sale of intoxicating liquors, hemp drugs, toddy and opium. The excise revenue has been pushed into the background by the prohibition policy of the State Governments.

The following are the details of revenue from Union excise duties in lakhs of rupees:—

### CUSTOMS

The import tariff is cast in the form of a commodity schedule with broad distinctions indicating the treatment to be accorded to various classes of articles. The general rate of import duty is now about 35 per cent. On certain non-essential items where it is felt that the consumer can well pay a higher rate or where there is sufficient indigenous production to meet the country's needs, higher rates of duty are imposed. Certain items subject to protective duties and certain other items are declared duty-free or are subjected to a low rate of duty, in the interest of the indigenous industry or the economy of the country. Some items which are subjected to the heaviest rates of duty ranging from 75 to 200 per cent are tobacco manufactures, wines and spirits, artificial silk goods, gold-plated articles, fabrics containing gold or silver thread, shoes and stocking of silk or art-silk, boots and socks, parasols and sunshades, gold and silver thread manufactures, silver thread and wires, motorcars, clocks and watches, etc. In the case of protected items of which the more important are some chemicals, certain coal tar dyes, matches, silk and art silk fabrics, aluminium, cycles and certain items of machinery and parts, ball bearings, titanium dioxide, power and distribution transformers, the rates of duty are fixed at such amounts and for such periods as are found necessary having regard to the recommendations of the Tariff Commission. Grains and pulses and a number of raw materials for industry are on the free list, while specially low but varying rates of tax cover a large number of essential items like fuel oils, batching oils, lubricants, raw films, machinery, etc. Since 1954 the Government has been progressively following a policy of liberalising import controls and simultaneously raising the import duties.

Export duties cover a number of items of which tea is the most important. Duty on tea is levied on a slab system depending upon the price notified by the Government from time to time in the light of the market trends. The Government continue to keep under constant review the effect of such duties on the country's export trade and recently, in certain cases, duties have either been altered to improve the competitive position of the commodities concerned in world markets. At present export duties cover cotton, cotton waste, tea, manfrase ore, some oils and oleseeds, deoiled groundnut meal and certain oilcakes.

The trend of revenue from customs is given below:—

Year	(Rs. in lakhs)
1950-51 ..	157.15
1951-52 ..	231.69
1952-53 ..	173.75
1953-54 ..	158.71
1954-55 ..	184.87
1955-56 ..	1,66.70
1956-57 (Budget) ..	1,50.00
1956-57 (Revised) ..	1,71.00
1957-58 (Budget) ..	1,62.00

### INCOME-TAX

Income-tax is levied now not only on income as ordinarily understood but also on certain capital receipts which have been included in a special definition of "income." Tax at the rate fixed for the year of assessment is charged on the income of the "previous year." Both income-tax and super-tax are levied according to the slab system.

The more recent trend of collections is given below:—

Year	Rs. 161.11 crores
1949-50 (Accounts) ..	173.22
1950-51 (Accounts) ..	187.69
1951-52 (Accounts) ..	185.28
1952-53 (Accounts) ..	164.38
1953-54 (Accounts) ..	159.59
1954-55 (Accounts) ..	168.40
1955-56 (Accounts) ..	189.60
1956-57 (Revised) ..	197.60
1957-58 (Budget) ..	

While the Corporation tax accrues in its entirety to the Centre, the net proceeds of income-tax, except the tax attributable to Central emoluments and Union territories and any Central surcharge, are divisible between the Centre and the States. Fifty-five per cent of the net proceeds of such income-tax is paid to the States.

States' share for the first seven months and the last five months of 1956-57 was distributable as follows:—

Andhra 5.49, Assam 2.25, Bihar 9.75, Bombay 17.50, Hyderabad 4.50, Madhya Bharat 1.75, Madhya Pradesh 5.25, Madras 9.50, Mysore 2.45, Orissa 3.50, PPSU 0.75, Punjab 3.25, Rajasthan 3.50, Saurashtra 1.00, Travancore-Cochin 2.50, Uttar Pradesh 15.75 and West Bengal 11.25.

For the last five months:—

Andhra Pradesh 8.09, Assam 2.25; Bihar 9.40; Bombay 19.10; Madhya Pradesh 5.14; Madras 8.03; Mysore 5.99; Orissa 3.50; Punjab 4.00; Rajasthan 3.51; Kerala 3.84; Uttar Pradesh 15.75; West Bengal 11.60.

From 1957-58 onwards, the States' share of income-tax would be such as may be prescribed by the President by Order after considering the recommendations of the Finance Commission.

The Income-Tax Investigation Commission submitted its report on the existing law of income-tax towards the end of 1948 and the same was published towards the end of 1949. A summary of the principal recommendations were given in a previous edition.

Substantial reductions in the levels of personal taxes, both earned and unearned, have been proposed by the Finance Minister in the Finance Bill, introduced in the Lok Sabha on May 15, 1957.

The Bill specifies a basic schedule of taxes applicable to earned incomes in general. This is slab-for-slab lower than the existing schedule, both in respect of income-tax and super-tax.

If an individual has an unearned income, income-tax and super-tax will first be calculated in accordance with the basic schedule, and to this amount a separate unearned income surcharge will be added. This unearned income surcharge will be calculated at 20 per cent. of the tax on the unearned portion of the income, it being assumed for the calculation that this portion occupies the top brackets of the assessee's income.

No surcharge will be levied if the taxable income is below Rs. 7,500 in the case of an individual and Rs. 15,000 in the case of a Hindu undivided family.

(Contd. in col. 3 next page).

**GUIDE TO TAXES ON INCOME (1957-58)**

(i) On dividend income derived from a subsidiary Indian company .. .. .	26-25	20	31-5	10
(ii) On the balance of Income .. .. .	26-25	36	31-5	30

**CORPORATION TAX**

Rates of corporation tax for Indian companies on bonus shares or excessive dividend distributions.

	1956-57 rates	Proposed rates
On bonus shares .. .. .	12½	30
On dividends distributed not in excess of 6 per cent. of the paid-up capital .. .. .	nil	nil
On dividends distributed between 6 and 10 per cent. of paid-up capital .. .. .	12½	10
On dividends distributed between 10 and 18 per cent. of paid-up capital .. .. .	25	20
On dividends distributed over 18 per cent. of paid-up capital .. .. .	37½	30

On earned incomes, there will be a general surcharge of five per cent. and a further charge of five per cent. on incomes in excess of Rs. 1 lakh. The surcharge will be leviable only if the total income exceeds Rs. 7,500 in the case of an individual and Rs. 15,000 in the case of a Hindu undivided family.

The lowest slab for which a nil rate is prescribed in the schedule of rates is enlarged in the case of married individuals and Hindu undivided families from Rs. 2,000 to Rs. 3,000.

In 1956-57 all individuals whose total income was less than Rs. 4,200 were exempt from tax. This limit is proposed to be changed to Rs. 3,000, and in the case of Hindu undivided families it is proposed to be fixed at Rs. 6,000.

**CHANGES IN TAX PROPOSALS**

In response to the popular demand voiced in Parliament and outside, the Finance Minister, Mr. T. T. Krishnamachari, announced on May 31 certain concessions totalling Rs. 6-05 crores in 1957-58, which would reduce the total income from additional taxes to Rs. 88 crores.

**Excise Duties :** The increases proposed in the rates of excise duty on tea and coffee were withdrawn. The question of relief in respect of excise duty on tobacco is being examined and the difficulties that have been pointed out and found to be genuine will be remedied by administrative action.

With regard to matches, it was proposed to give adequate protection to small producers. Subsequently on June 12, the Centre reduced with immediate effect the excise duty. The reduced rates are (per gross of boxes) : 1. Matches in boxes containing 60 matches on an average, if manufactured in a factory whose output (a) does not exceed one hundred gross of boxes per day, but exceeds 25 gross of boxes per day—from Rs. 4-60 to Rs. 4-50; (b) does not exceed 25 gross of boxes per day—from Rs. 4-45 to Rs. 4-30; (2) Matches in boxes containing 40 matches on an average, if manufactured in a factory whose output (a) does not exceed one hundred gross of boxes per day, but exceeds 25 gross—from Rs. 3-05 to Rs. 2-95; (b) does not exceed 25 gross of boxes per day—from Rs. 2-95 to Rs. 2-80.

**Postal Rates :** The increases in the rates of post cards, including local cards and on parcels, have been dropped. Instead it is proposed that the initial slab of weight for inland letters, including business reply envelopes, should be raised from one tola to 1½ tolas and the rates for such inland letters should be raised from 13 nP. to 15 nP. The additional weights will also be computed in 1½ tolas, instead of 1 tola as before and the rate will be increased from 6 nP. to 10 nP.

**Railway Fares :** Exemption is granted from the tax on passenger fares for the first 15 miles. But there is a tax of 5 per cent. on journeys above 15 miles and upto and inclusive of 30 miles. The other slabs remain as proposed in the Finance Bill.

**Income-Tax :** While the minimum taxable limit remains at Rs. 3,000, it is decided to make a further addition to the marriage allowance already provided for. There is an allowance of Rs. 300 per child subject to a maximum of Rs. 600. But this allowance will not be admissible to persons with incomes above Rs. 20,000. In these cases, the marriage allowance of Rs. 2,000 provided for in the budget proposals will be withdrawn.

**Wealth Tax :** A wealth tax holiday is proposed for the first five years from the date of incorporation on the value of the assets pertaining to an industrial undertaking of a new company. However, such an undertaking should not be formed by the splitting up or the reconstruction of business already in existence or by transfer to a new business of buildings, machinery and plants already used in an existing business. It is also stated that investments of one company in another company should not be included for the purpose of wealth tax in the hands of investing company.

## ESTATE DUTY

The question of levying an estate duty had been before the Government of India since 1946 when a bill was first introduced. This as well as the one introduced in 1948 lapsed. In August 1952, a third bill was introduced with the object of imposing an estate duty on property passing or deemed to pass on the death of a person. The underlying idea is to rectify to a large extent unequal distribution of wealth and to assist the States towards financing their development schemes. The Bill was passed in Parliament in September 1953. The Act came into effect from October 15, 1953 and is applicable to the whole of India, except the State of Jammu and Kashmir.

The main features of the Act are that the levy of duty depends on the domicile of the deceased, the power to assess duty is vested in the Controller of Estate Duty, and the scale of duties is stipulated in the law itself. The Estate Duty proceeds go almost entirely to the States and do not affect the Central Budget. Pending the recommendations of the Finance Commission, a provisional distribution is being made on the basis of the States' share of income-tax. The Commission in their interim Report have also recommended the distribution of Estate Duty for 1957-58 on the same basis, pending re-adjustment in the light of their final recommendations. Like the Income-tax law, this legislation also provides for exemption limits and defines what items are eligible for exemption and to what extent.

The minimum exemption limit provided in the Act is Rs. 50,000 in respect of property which consists of an interest in the joint family property of a Hindu family governed by the Mitakshara, Marumakkattayam or Aliyasantana Law and Rs. 100,000 in respect of all other property. ## SALES TAX

Sales tax is an alternative source of revenue consequent on the introduction of prohibition in the States. It is an important feature of the provincial revenues throughout the country. In West Bengal and Bihar the single-point sales tax has been favoured. Bombay switched over to the multi-point sales tax in 1953-54 but this has since been changed into a two-point sales tax.

## SUPPLEMENTARY BUDGET, 1956

On November 30, 1956 the Union Finance Minister presented a supplementary budget to the Lok Sabha through two inter-connected Finance Bills, which incorporated a capital gains tax, increased rates of super-tax on dividends, additional super-tax on the undistributed profits of Section 23-A non-investment companies, higher in port and excise duties on selected articles, enhanced stamp duties on the bills of

exchange and a provision for control over depreciation and other reserves of companies.

The proposals were expected to yield Rs. 16 crores per year.

Revival of capital gains tax from the financial year 1957-58 :— Finance Bill No. 3 proposed to revive with a few modifications the provision under the Income Tax Act for taxation of gains which resulted from the sale, exchange or transfer of capital assets during the period April 1, 1946 to March 31, 1948. The modified scheme was to apply to capital gains arising on or after April 1, 1956. The definition of "capital gains" remained unchanged, but some of the existing exemptions relating to the capital gains which arise on transfers of property on compulsory acquisition, distribution of assets on dissolution of partnerships or on liquidation of companies and on the sale of residential property possessed by the tax payer for seven years etc. would be withdrawn and be subject to tax.

While the effective basic rate of super-tax applicable to companies for the financial year 1957-58 would remain the same as in the financial year 1956-57, it was proposed to continue the special super-tax levied in the financial year 1956-57 on the companies with altered rates for 1957-58. Thus on the amount of dividends in excess of 6 per cent but less than 10 per cent the rates of super-tax would be the same as the then existing rate of 2 annas per rupee. For dividends over 10 per cent but within 18 per cent of the paid-up capital, the super-tax chargeable would be 4 annas per rupee instead of the present rate of 3 annas per rupee. On the amount of dividends in excess of 18 per cent of the paid-up capital, the super-tax would be 6 annas per rupee, in place of the then existing rate of 4 annas per rupee. The extra super-tax of 2 annas in the rupee for particular companies (levied during the financial year 1956-57) on the face value of the bonus shares issued by them would be continued for the financial year 1957-58 in regard to bonus shares and excess dividends which were not subjected to additional super-tax during the financial year 1956-57 for want of adequate total income were to be accounted during the financial year 1957-58.

In accordance with Section 23-A of the Income-tax Act, companies which do not distribute to their shareholders as dividends at least 60 per cent of their distributable profits within one year from the close of the accounting year, have to pay a special additional super-tax on the whole of its undistributed profits of the year. Before the new proposals came into force, such super-tax payable by an investment company was 8 annas in the rupee, and four annas in the case of other companies. According to the new proposals, the rate for non-investment companies was to be increased from 4 annas to 6 annas, while the rate for investment companies would continue to be 8 annas. It was also proposed that the minimum distribution of dividends for companies engaged in industrial activity was to be reduced from 60 per cent to 50 per cent.

The new proposals relating to increased customs and excise duties, and stamp duties on bills of exchange were incorporated in Finance Bill No. 2. Under customs, the duties on wines and spirits were raised from 25 to 50 per cent so as to yield about Rs. 70 lakhs per year. The increased duties on motor cycles and scooters, clocks and watches were expected to yield another Rs. 50 lakhs. An annual yield of Rs. 180 lakhs was expected from duties on items like coal-tar dyes and certain types of machinery.

The proposed increases in this group of articles were to be effected partly by changes in the present Finance Bill and partly by executive notification. The last proposal under the customs duties provided for an increased import duty on artificial silk yarn. This duty was to be Rs. 3 per lb. but the immediate effective rate would vary from Rs. 1-4-0 to Rs. 2 per lb. according to deniers. It was estimated that the annual yield of this duty would be Rs. 160 lakhs.

On the whole, basing the estimates on current imports, the yield from the customs duties was likely to be about Rs. 9 crores.

Proposals under excise duties were expected to yield an income of Rs. 70 lakhs per year. The Finance Minister proposed a central excise duty on indigenous art silk yarn with a ceiling rate of Rs. 1-8-0 per lb. which was to be brought down to 4 annas and 8 annas per lb.

A low excise duty of 2 annas per lb. was to be provided, by executive notification, for staple fibre and staple fibre yarn.

An excise duty of Rs. 3,000 each on the more expensive types of motor cars made in India was also proposed. The duty, however, would not affect small cars and trucks.

Before these proposals came into force the stamp duties on inland bills of exchange upto one year's maturity were at a flat rate of 2 annas per Rs. 1,000. Government proposed to increase the statutory rate for bills, both inland and foreign upto one year's maturity to Rs. 10 per Rs. 1,000 with proportionate reduction for bills of shorter duration. For some time, the intention of the Government was to operate on the basis of one half of this rate. The additional revenue from enhanced stamp duties would accrue to the State Governments.

The Finance Minister announced that banking companies would be exempted from the provision for compulsory deposits by companies, and indicated that the interest rate which was to be paid on the compulsory deposits would be the same as on Government securities.

It was also announced by the Finance Minister that no capital gains tax would be assessed if the value of the property was not more than Rs. 25,000 or if the value of the entire property of an assessee was not over Rs. 50,000.

## INDEX OF WHOLESALE PRICES (1956-57)

The official index of wholesale prices in India (with year ended August 1939=100), which had exhibited an upward trend during 1955-56, continued to rise further during the year under review till December 1956.

The rate of increases was, however, less than in 1955-56. The index after rising from 345.4 in April, 1956, to 387.4 in March, 1956, advanced further to 428.8 in December, 1956, after which, however, it declined to 421.8 at the end of the year showing a net increase of 7.7 per cent during 1956-57 as compared with 12.2 per cent during 1955-56.

The annual average index for 1956-57 worked out to 414.0 revealing a rise of 15 per cent over the last year's average of 360.4. This advance in the general index was contributed by all the five constituent groups. The highest rise was in 'Food Articles' which moved up by 24 per cent to 388.5; 'Industrial Raw Materials' increased by 20 per cent to 501.9; 'Semi-Manufactures' by 19 per cent to 402.3; 'Manufactures' by 3 per cent to 384.6 and the 'Miscellaneous' group by 2 per cent to 559.3.

## PRICE MOVEMENTS

The sharp decline in prices in 1954-55 was virtually reversed in 1955-56. On March 31, 1956, the general index of wholesale prices stood at 390.3 (Base : Year ended August, 1939 = 100), which was only a little below the level reached before the Korean War (397) or before the 1954-55 decline in prices (404.4). By November 24, 1956, the index advanced to 434.2. Over 1956 as a whole, the general index of wholesale prices increased by 18 per cent, from 373.4 to 421.8. On February 16, 1957, the index moved to 424.4. For the week ended April 27, it was 423.5, which showed a rise of 8.6 per cent over the level of the previous year. Thus, in recent months, the index has remained stable around 420.

To some extent, the rising price trend is attributable to external developments. Thus increases in prices for tea (+ 56%), raw jute (+ 30%) and manganese ore (+ 37%), the prices of which are governed largely by conditions abroad, contributed materially to the increase in the wholesale price index. Similarly, the increase in the prices of metals and metal products was largely the result of an increase in import prices. Besides, the prices of goods produced and consumed in the country have also moved up. Thus the all-India working class consumer price index (1949-50 = 100), which is little affected by external factors, has also advanced from 100 in March 1956 to 110 in November 1956.

The rise in prices has been particularly marked in the case of agricultural commodities, which registered a decline in production in 1955-56. Prices of cereals increased by 27.6 per cent. in 1956 and of groundnut and groundnut oil prices by 26.5 and 31.8 per cent, respectively. The index for cotton manufactures, on the other hand, increased by 4.3 per cent, only, that for sugar remained more or less steady and the indices for gur and coffee declined by 18 per cent. during the year.

## INDEX OF WHOLESALE PRICES (1956-57)

The official index of wholesale prices in India (with year ended August 1939=100), which had exhibited an upward trend during 1955-56, continued to rise further during the year under review till December 1956.

The rate of increases was, however, less than in 1955-56. The index after rising from 345.4 in April, 1955, to 387.4 in March, 1956, advanced further to 428.8 in December, 1956, after which, however, it declined to 421.8 at the end of the year showing a net increase of 7.7 per cent during 1956-57 as compared with 12.2 per cent during 1955-56.

The annual average index for 1956-57 worked out to 414.0 revealing a rise of 15 per cent over the last year's average of 360.4. This advance in the general index was contributed by all the five constituent groups. The highest rise was in 'Food Articles' which moved up by 24 per cent to 388.5 ; 'Industrial Raw Materials' increased by 20 per cent to 501.9 ; 'Semi-Manufactures' by 19 per cent to 402.3 ; 'Manufactures' by 3 per cent to 384.6 and the 'Miscellaneous' group by 2 per cent to 559.3.

## PRICE MOVEMENTS

The sharp decline in prices in 1954-55 was virtually reversed in 1955-56. On March 31, 1956, the general index of wholesale prices stood at 390.3 (Base : Year ended August, 1939 = 100), which was only a little below the level reached before the Korean War (397) or before the 1954-55 decline in prices (404.4). By November 24, 1956, the index advanced to 434.2. Over 1956 as a whole, the general index of wholesale prices increased by 13 per cent, from 373.4 to 421.9. On February 16, 1957, the index moved to 424.4. For the week ended April 27, it was 423.5, which showed a rise of 8.6 per cent, over the level of the previous year. Thus, in recent months, the index has remained stable around 420.

To some extent, the rising price trend is attributable to external developments. Thus increases in prices for tea (+ 58%), raw jute (+ 30%) and manganese ore (+ 37%), the prices of which are governed largely by conditions abroad, contributed materially to the increase in the wholesale price index. Similarly, the increase in the prices of metals and metal products was largely the result of an increase in import prices. Besides, the prices of goods produced and consumed in the country have also moved up. Thus the all-India working class consumer price index (1949-50 = 100), which is little affected by external factors, has also advanced from 100 in March 1956 to 110 in November 1956.

The rise in prices has been particularly marked in the case of agricultural commodities, which registered a decline in production in 1955-56. Prices of cereals increased by 27.6 per cent. in 1956 and of groundnut and groundnut oil prices by 26.5 and 31.8 per cent. respectively. The index for cotton manufactures, on the other hand, increased by 4.3 per cent. only, that for sugar remained more or less steady and the indices for gur and coffee declined by 19 per cent. during the year.

## INSURANCE

The outstanding event of the year 1956-57 under review, in the insurance market, was the nationalisation of the entire life insurance business in India, including the foreign business of Indian Insurers and the Indian business of foreign insurers.

The changeover was effected in two stages. By a special Ordinance promulgated in January 1956 (subsequently replaced by an Act of Parliament), the management of the life business of all insurers registered in India including provident societies and foreign offices, was taken over by the Government of India, thereby suspending the authority of the respective Boards of Directors. Some forty high officials of various insurance companies were designated as 'custodians' and put in charge of offices other than their own, to be administered under instructions from the Union Finance Ministry. This interim arrangement continued till August 1956.

Meanwhile Parliament passed an Act called, the Life Insurance Corporation Act, 1956, enabling the Government to take over the proprietorship of the life insurance business of all insurers registered in India subject to a reasonable compensation being given to the original proprietors, and authorising the Government to establish a corporation to administer life insurance business in India.

The Act consists of 49 sections and three schedules setting out the authority, constitution and functions of the Corporation. The schedules give the formulae for reckoning the compensation payable to Indian and foreign insurers and to their chief and special agents and set out the basis for determining the value of the liabilities of foreign insurers in India. (For fuller details of the various provisions reference may be made to the article in the previous year's YEAR BOOK.)

The Corporation is named, The Life Insurance Corporation of India. It started functioning on the 1st of September 1956. It has fifteen members on its Board.

The first Board consists of the following members: G. B. Kamat, I.C.S., Finance Secretary to the Union Government (Chairman), K. K. Jha, I.C.S., B. K. Kaul, I.C.S., Md. H. Premji, Dhiren Mitra, M. M. Ramkrishna Rao, C. K. Jain, Vadilal L. Mehta, Lala Raghuram Swarni, Prof. D. G. Karve, A. Rajagopalan (ex-controller of insurance), L. S. Vaidyanathan, K. R. Srinivasan, V. H. Vora and D. P. Guzdar. The last five are also officers of the Corporation, the first two being designated Managing Directors and the other three Executive Directors.

The Board has formed, from among themselves, two committees—an Executive Committee consisting of five members and an Investment Committee, consisting of seven members.

It was in Feb. 1957 that Mr. Kamat took the place of Mr. V. L. Mehta and was designated Deputy Chairman.

The central office of the Corporation is in Bombay where also are the Chairman, the two Managing Directors and the three Executive Directors.

The whole country is divided for administrative purposes into 5 zones—Western, Eastern, Southern, Northern and Central—with the Zonal Offices in Bombay, Calcutta, Madras, Delhi and Kanpur respectively.

These zonal offices are semi-autonomous. Each zonal office has several divisional offices and each division its branch offices and sub-offices to administer the existing business and develop and procure new business. In all there are 33 Divisional Offices, 180 Branch Offices and 59 Sub-offices.

The business procurement staff consists of Inspectors as whole-time workers on a salary basis, each with a number of agents allotted to him, who may be whole-time or part-time workers on a commission basis.

The existing foreign business is also being administered by the Corporation, though the original intention was to land it over to some leading general insurance companies in India. The Corporation is, it is understood in correspondence with various foreign Governments to get itself registered in those countries for procuring new business. It has recently opened a divisional office at Nairobi in British East Africa.

The Corporation has absorbed in its organisation, almost all the employees of the life departments of the former insurance companies. A Committee called the Jail Committee is at the moment (May 1957) engaged in the task of dividing the officials into various cadres. Their scales of remunerations are also under consideration. Chief and Special agencies have been abolished and such of them as wished to join the Corporation have been offered suitable posts in the Branch Offices.

The great body of the clerical and lower grade staff presented great difficulty in the way of integration. They were scattered among 150 different companies with different pay-scales and conditions of service. The terms and regulations announced by Government towards the end of 1956 did not seem acceptable. There were

prolonged negotiations and an agreed scheme was finally drawn up towards the end of May 1957.

In pursuance of one of the main objectives of the Corporation, viz. making available the benefits of life insurance to every family in the country, the Corporation has introduced a "Janata Life Policy" scheme which is to bring life insurance within the reach of the industrial and rural population in the country. The main features of the scheme are: (1) The sum assured under a policy can be as low as Rs. 250. (2) Medical examination would not be required in most cases. (3) Requirements of proof of age are greatly simplified. (4) Premiums payable monthly would be collected from the homes of the policyholders by authorised agents.

Several prominent labour leaders of the country and social workers have offered their co-operation in the task of popularising the scheme. It is hoped that eventually the Janata Policies will cover the whole country and bring new business of several crores.

In accordance with Sec. 17 of the Life Insurance Act the Union Finance Ministry has set up a tribunal to adjudicate on various matters referred to it including the quantum of compensation payable to the former life insurance companies by the Corporation.

The Chairman of the Tribunal is Mr. P. P. Doo, a retired judge of the Nagpur High Court. The members are Mr. K. R. Krishnaiah Chetty, a retired member of the Income-tax Appellate Tribunal and Mr. H. R. Agnihotri, a Commissioner of Income-tax. The head-quarters of the Tribunal are in Nagpur.

As already stated in one of the foregoing paragraphs, the number of insurance companies registered under the Insurance Act, 1938 was 312 on August 31, 1956, the day immediately preceding the establishment of the Life Insurance Corporation of India, and the number of Provident Societies was 71.

Out of these 312, 207 were Indian and 105 foreign. Of the Indian companies 107 were purely life offices, 38 composite offices (that is they carried on general insurance business as well as life insurance) and 62 were purely general insurance offices. The corresponding figures for non-Indian insurers were 3, 12 and 90 respectively.

The Life Insurance Corporation absorbed all the life offices, Indian and foreign, the life departments of all except two of the composite offices, and also the 71 Provident Societies.

The affairs of the two composite offices, referred to above, to whom the provisions of the Life Insurance Corporation Act 1956 are not applicable, continue to be managed by Government Administrators in accordance with Section 52A of the Insurance Act, 1938. They are, however barred from writing new life insurance business. When their affairs are finally set in order, their life departments will be taken up by the Life Insurance Corporation, and the general departments handed over to their respective shareholders.

As from September 1, 1956, insurance companies in India have carried on only general insurance business. There are 100 Indian insurers and 102 foreign insurers. There are no Provident Societies.

### GENERAL INSURANCE

An equally outstanding event in the general insurance business in India is the establishment of a joint stock company to conduct only reinsurance business. A private limited company has been registered under the Indian Companies' Act, 1956 (called, "India Reinsurance Corporation Ltd."), with its registered office in the Industrial Assurance Building, Churchgate, Bombay. Its authorised capital is Rs. 10 crores, issued capital Rs. 2½ crores, subscribed capital Rs. 2 crores and the called-up capital Rs. one crore. Indian companies subscribing 80 per cent. of the capital and foreign companies registered in India the remaining 20 per cent. Two out of the twelve members on the Board of Directors represent foreign insurers. Members should cede to the Corporation 10 per cent. of their fire and marine acceptances and 5 per cent. of their accident acceptances.

The Corporation started business in January 1957. Mr. A. D. Shroff, Chairman of 'New India' is the Chairman of the Corporation, Mr. R. M. Desai, formerly General Manager of the Indian Mercantile, the General Manager and Mr. S. K. Desai, formerly Manager of 'Devkaran Nanjee' is the Manager.

This is the first purely Indian reinsurance company to be established in India. Its progress is, therefore, being watched with keen interest by the Government of India as the Government is interested in conserving as much as possible, foreign currency. The establishment of the Corporation will promote this objective as the Corporation will now under-write reinsurance risks—something that was previously done only in foreign countries.

### NEW CODE

While the entire life business has thus passed into the public sector the general insurance business continues to make progress in the private sector. Government, however, partially controls its practices through the General Insurance Council of the Insurance Association of India and its two committees—the Executive Committee and the Tariff Committee. The Executive Committee has recently prescribed certain rules to be adopted by all insurers in India so that business could be conducted on healthier lines. These measures are collectively called the 'New Code of Conduct', since there was already a 'Code' adopted by the Trade some years back, the terms of which were found to be inadequate for the purpose. The newly prescribed measures are, in brief, as follows:—

- All insurers should maintain certain minimum departmental reserves.
- They should maintain a certain minimum margin between their assets and liabilities, called the 'Minimum Security Margin'.
- Except in specified cases, they should collect the premium before assuming a risk.
- The Controller of Insurance should carry out an inspection of all insurers, as often and at such intervals as he considers necessary to ensure that the business is being conducted in accordance with law and tariff regulations, that a proper value is placed on the assets and liabilities and that they are complying with the directions of the Executive Committee.

The Board of Directors of almost all insurers have given a written undertaking to abide by the terms of the New Code, as required by the Executive Committee.

Chapter VIII of the Motor Vehicles Act, 1939, which compels motorists to cover third party liabilities, has been considerably amended by the Amendment Act, 1956 with a view to correcting certain defects in the original Act.

Five more local insurance institutes have been established, in addition to the three already in existence and have been affiliated to the Federation of Insurance Institutes (J. C. Setalvad Memorial), Bombay. These eight institutes—two in Calcutta and one each in Bombay, Madras, Delhi, Kanpur, Ahmedabad and Jaipur—serve to disseminate insurance knowledge by holding debates, lectures and classes. They also encourage corporate life among its members through social activities. The Federation has recently announced a comprehensive plan to conduct examinations in all departments of the insurance business and offer diplomas to successful candidates in three grades—'Licentiate', 'Associate', and 'Fellow'. The first of these examinations was to be held in October 1957 for the 'Licentiate' diploma. Examinations for the other two higher diplomas would be held later.

The Government of India appointed a special committee called the Export Credit Guarantee Committee to study the question of the State's undertaking to insure certain risks in the export trade of the country which private insurers are unable or unwilling to cover. After a comprehensive study, the Committee has suggested a scheme for the institution of an export credit guarantees by the establishment of a State-owned export risks insurance corporation.

According to recent press reports, Government appear to have accepted this recommendation and are now working on plans to establish such a corporation.

The following statistics are compiled from official figures.

## DISTRIBUTION OF COMPANIES

The total number of insurers registered under the Insurance Act, 1938, up to 31st August 1956 was 312 of which 207 were Indian insurers and 105 were non-Indian insurers, as against 210 and 107 respectively in 1954.

Of the 105 non-Indian insurers 66 were constituted in the United Kingdom, 17 in the British Dominions and Colonies, 9 in the United States of America, 4 in Switzerland, 3 in France, 2 in Pakistan, and one each in Ceylon, N. Africa, Italy and Indonesia.

Most of the Indian insurers carried on life insurance business only. They were 107 in number, and of the remaining 100 Indian insurers, 38 carry on life business along with other insurance business, and 62 carry on insurance business other than life. Of the Indian insurers, 38 were either Mutual Insurance Companies or Co-operative Insurance Societies. Further there were a few pension funds, mostly connected with Government services, and the Postal Insurance Fund which are exempt from the operation of the Insurance Act.

As regards non-Indian insurers, most of them carried on insurance business other than life, 3 carried on life business only, and 12 carried on life business along with other insurance business.

#### PROVIDENT INSURANCE SOCIETIES

As on 31st Aug. 1956 there were in existence 71 Provident Societies. Of these 25 were in West Bengal, 19 in Bombay State, 11 in Madras, the rest distributed over the other States.

The total new business effected by the societies during the year 1955 amounted to 25,349 policies insuring a sum of Rs. 2,20,41,700. The premium income received during the year on these policies amounted to Rs. 6,32,300. The business in force at the end of the year amounted to 73,003 policies, insuring a total sum of Rs. 5,28,70,400 including bonuses.

The total life insurance fund of these societies at the end of 1955 amounted to Rs. 1,20,67,000.

The net rate of interest realized on mean life funds of the societies in the year was 3.63 per cent, and the total expenses of management expressed as a percentage of the premium income was 42.5.

#### INSURANCE AGENTS

With the amendment of Section 42 of the Act, which came into force as from September 1, 1950 licences to Insurance Agents are being issued for a period of three years as against one year which was the practice followed till then. The fees for fresh licences as well as for renewals have been increased to Rs. 5.

Of the 102,122 licences issued in 1955, 86,050 were fresh and 16,072 were renewals.

Sec. 42A enjoins employers of Insurance agents (Principal, Chief, Special) to be registered. Certificates are issued to them, renewable annually. During 1955, the number of certificates issued to Principal Agents were 138 fresh and 634 renewals; to Chief Agents, 69 fresh and 259 renewals; to Special Agents, 3,358 fresh and 2,725 renewals. There were in 1955, 802 Principal Agents, 323 Chief Agents and 6,359 Special Agents as against 859, 449 and 5,633 respectively in 1951. Principal Agents are licensed to canvas general insurance business. With the formation of the Life Insurance Corporation of India on 1st September 1950, the posts of Chief and Special Agents have been abolished. The Principal Agency system is due to be abolished as from 1st September 1957 as per Section 42B(1) of the Insurance Act, 1938.

## KERALA GOVERNMENT MEASURES

Because of the general curiosity about the Kerala Communist Government we give below brief notes on the legislative measures and the policy announcements of the Government:—

The Government proposes to set up a committee to go into the question of the revision of the pay of officers and lower ranks in Government services.

It was announced that the upper limit would be Rs. 1,000. A slightly higher salary for special posts could not be ruled out.

Private forests in the States would be nationalised.

A State Trading Corporation would be set up to ensure reasonable prices for agricultural products exported from the State.

Some 7.5 lakh acres of cultivable waste land and other fallow lands would be distributed to relieve unemployment.

The pay-scales of the employees of State Transport numbering a little over 3,000 were revised. The lowest grade is fixed at between Rs. 30 and Rs. 50. The non-pensionable employees were to get a gratuity. Daily rated workers attached to the permanent establishments were to be absorbed permanently on a monthly basis. Employees were to be associated with the management in such matters as fixing

schedules and running time. Appeal Boards would be constituted for hearing cases in which employees have been punished.

Certain jail regulations were modified. Hand-cuffing was abolished. Punishment would take the form of withholding or reducing amenities. The clothing worn by prisoners was to be without degrading or humiliating marks such as stripes. Prisoners could smoke in their wards or in latrines. They could send one letter every fortnight and one interview every week instead of one letter and one interview once in two months—which is the present rule. There would be no insisting on close hair cutting.

A committee was constituted to go into the modification of jail rules.

Industries like printing and banking would be brought within the minimum wages schedule.

#### KERALA BUDGET

Revenue: Rs. 27.9 crores.

Expenditure: Rs. 30.16 crores.

New taxes proposed:

Tax on agricultural wealth at the same rate as levied by the Centre; additional super tax ranging from one anna to four annas on companies with agricultural incomes between Rs. 25,000 and Rs. 10 lakhs; unification of the land revenue system in the whole of Kerala;

a surcharge of 5 per cent on agricultural income tax and super tax; a surcharge of 2½ per cent on sales of traders with a turn-over of Rs. 30,000 and over; a surcharge on profession tax of those with an income of Rs. 250 or over per month.

New measures announced:

Revision of salaries of primary teachers, the new scales ranging from Rs. 40 to Rs. 120 per month. Private school teachers would also be paid directly by Government. Benefit of pension, at the time existing only in the Malabar area, now extended to the whole State.

Full fee concession extended to high school classes for students whose parents have an income below Rs. 1,200 a year.

Capital expenditure: Rs. 8.52 crores (Rs. 1.1 crores for industrial development).

Allotment for Second Five-Year Plan for 1957-58; Rs. 17.90 crores.

Government has proposed to the Planning Commission that the total investment under the Second Five-Year Plan should be increased to between Rs. 130 crores and Rs. 140 crores from the original Rs. 87 crores.

The Planning Commission is now going into the proposals specially to find how much more foreign exchange the proposals will involve.

## NATIONAL INCOME

The fourth issue of the annual paper on national income released by the Central Statistical Organisation says that the national income was Rs. 10,030 crores in 1953-54, Rs. 10,280 crores in 1954-55 and Rs. 10,420 crores in 1955-56.

The per capita income at 1948-49 prices, according to the report, correspondingly rose from Rs. 268.7 in 1953-54 to Rs. 271.9 in 1954-55 and Rs. 272.1 in 1955-56.

The estimates for 1955-56 are based on partial material and are subject to revision.

According to the paper, during the First Five-Year Plan period (1951-52 to 1955-56) the national income in real terms increased by 17.7 per cent as against the original plan target

of 11 per cent. The corresponding rise in the per capita income was 10.5 per cent.

The absence of any pronounced rise in 1955-56 over 1954-55, was mainly due to the fall in agricultural production revealed by the latest available crop figures. The total contribution to national income at the 1948-49 prices by 'agriculture' showed a decline of Rs. 50 crores in 1955-56 over 1954-55, as compared to a rise of similar magnitude in 1954-55 over 1953-54. There was no appreciable change in the yearly increase in the over-all contribution by other sectors.

Expressed at current prices, the national income, says the paper, stood at Rs. 9,650 crores in 1955-56, and Rs. 9,620 crores in 1954-55, or Rs. 830 crores and Rs. 860 crores lower than

the 1953-54 level. The per capita income at current prices correspondingly declined from Rs. 280.7 in 1953-54 to Rs. 254.4 in 1954-55, and Rs. 252.0 in 1955-56. The fall in the national income at current prices in 1955-56 and 1954-55 was entirely due to price changes, the national income in real terms having shown a rise in both the years. The level of agricultural prices, in particular, was considerably lower in 1955-56 and 1954-55, compared to 1953-54 and this also accounted for the sharp decline in the income at current prices originating in the agricultural sector.

Though there was some progress during 1955-56 in small sectors like 'mining', 'organised banking and insurance', etc., it was not large enough to be disclosed by the figures presented in this paper.

Points from his speech :

1. Supplementary charge on goods and parcel traffic would be doubled from 1st July to 12½ per cent. This would fetch Rs. 9.5 crores during the current financial year.

2. The Second Year Plan for the railways has had to be expanded by Rs. 200 crores. One half of this rise represents the rise in the cost of essential materials. The other half arises from the need to raise the targetted carrying capacity from 162 to 180 million tons per annum during the Second Plan period.

3. Two concessions to passenger traffic. First, a single ticket to cover a blind passenger and his attendant. Second, similar concession to patients suffering from tuberculosis for their journeys for admission to and discharge from hospitals and sanatoria. Both the concessions will be subject to production of appropriate certificate.

4. A tax on railway fares was announced by the Finance Member in his budget speech : 5 per cent on distances upto 30 miles, 15 per cent on distances between 31 and 500 miles and 10 per cent for longer distances. Season tickets were to be exempt.

to impose duties at the specific rates of Rs. 5-10 per cent (Standard) and Rs. 4-3 per cent (Preferential) on Soda Ash. The Government also did not accept the Commission's recommendation regarding exemption from cess of salt used in the manufacture of indigenous Soda Ash.

In the case of Titanium Dioxide, the Government did not accept the original recommendation of the Commission regarding the quantum of protection. However, in concurrence with the Commission, the Government decided to impose a protective duty of 44 per cent *ad valorem* (Standard) and 34 per cent *ad valorem* (Preferential), in place of the Commission's recommendation for levying a protective duty of 35 1/5 per cent *ad valorem* plus one fourth of the total duty (standard) and 25 1/5 per cent *ad valorem* plus one fourth of the total duty (Preferential).

Besides, investigations into the continuance of protection or assistance to the non-ferrous metals industry and grant of protection or assistance to the thin ball bearings industry were completed by the end of the year under review.

## ARTICLES TAXED

The general rate of import duty is 35 per cent. There is also a temporary surcharge of 25 per cent of the duty. On luxury goods the duty varies between 75 and 200 per cent.

The following articles among others are subject to a protective duty : Heavy chemicals, certain coal tar dyes, matches, aluminium, ball bearings, titanium dioxide, power and distribution transformers, iron and steel, metals (other than iron and steel), cycles (other than motor bicycles) and parts, raw silk, silk yarn and thread and fabrics, artificial silk fabrics.

The following articles among others are subject to revenue duties : Machinery, iron and steel, metals (other than iron and steel), motor cars, cycles, scooters, omnibuses, lorries, vans, and parts of these, pneumatic rubber tyres and

tubes, railway plant and rolling stock, motor spirit, kerosene oil, oils (fuel and lubricating), gold bullion, silver bullion, coins, sheets and plates, tin, electric lighting bulbs, wireless apparatus, Portland cement (excluding white), raw cotton, coal tar products excluding dyes, artificial silk, yarn, textile fabrics, wood, pulp, paper, stationery, cinematograph films, toys, games and sports goods, spices, wines, spirits and liquors, ale, beer, porter, cider and fermented liquors, tobacco, betel-nuts, tea, boots and shoes.

The following articles among others are subject to export duties : raw cotton, cotton waste, cotton cloth and yarn, raw wool, oil and oil seeds, tea, other agricultural produce, manganese, mica, mercury, rice, coal and oil-cakes, jute raw and manufactured and black pepper.

The following articles among others are subject to excise duties levied by the Central Government : Kerosene, sugar, matches, coffee, tea, vegetable products, tobacco, cotton cloth, steel ingots, motor spirit, tyres, coal, electric bulbs, fans, woollen fabrics, paper.

Customs is among the most important sources of revenue of the Central Government with Rs. 171 crores for 1956-57 and Rs. 162 crores estimated for 1957-58. It accounts for between 55 and 60 per cent of the revenue.

Among the items that earn most revenue are the group that includes machinery, kerosene oil, raw cotton, artificial silk yarn.

Export duties cover a number of items of which tea is now the most important with about Rs. 19 crores.

Before the war excise duties did not form a material part of the revenues of the Central Government. Today they are very important; the estimates for 1957-58 were Rs. 209.48 crores. The most important single item is cotton cloth with Rs. 72 crores followed by tobacco with Rs. 36 crores.

## THE SECOND FIVE-YEAR PLAN

(A detailed account of the Plan is given in the previous edition. State allotments are given where available under individual States).

THE principal task of the Second Five-Year Plan is to secure an increase in national income by about 25 per cent over the five years, to enlarge employment opportunities at a rate sufficient to absorb the increase in labour force consequent on the increase in population and to take major strides forward in the direction of industrialisation so as to prepare the ground for more rapid advance in the plan periods to come.

The Second Plan is in one sense a continuation of the developmental effort commenced in the First Plan; but there is inevitably a shift in priorities with a larger accent on industrialisation, especially the development of heavy industry and the necessary ancillaries like transport.

The Plan commends 'perspective planning'—planning which envisages development over 15 or 20 years ahead. After the Second Plan period there will be a continuous stepping up of investment until it reaches 16 or 17 per cent of national income. Through accelerated development on this pattern, it is hoped that national income will be doubled by 1967-68.

The Plan is sought to be worked with sufficient flexibility. Annual plans, which would facilitate periodical assessment and revision, would therefore be worked out within the five year plan.

The basic objectives have recently been summed up in the phrase 'socialist pattern of society'. Essentially, this means that the

basic criterion for determining the lines of advance must not be private profit but social gain, and that the pattern of development and the structure of socio-economic relations should be so planned that they result not only in appreciable increase in national income and employment but also in greater equality in incomes and wealth.

The Plan underlines the need to create buffer stocks in agricultural commodities especially

in foodgrains. By operating on such buffer stocks price fluctuations can be moderated.

Discussing the question of regional disparities the Planning Commission emphasises the need for balanced development of different regions and parts of the country and say that the stress of developmental programmes should be on extending the benefit of investments to underdeveloped regions. Only thus can a diversified economy be built up.

The total outlay as presented here does not include the contributions in cash or in kind made by the people in the execution of local developmental works.

\* the Minister for Railways in his railway budget speech declared that the railways would have to invest Rs. 200 crores more both on account of the rise in expenses and the rise in the cost of material to achieve the same result. This would send the total outlay on the Plan up by Rs. 200 crores.

## INVESTMENT

The following table shows the amount of to be called current developmental expenditure, investment, i.e. expenditure on building up and a rough break-up of the two types of expenditure of productive assets, and what may broadly figure under major heads.

The likely level of investment in the private sector over the Second Plan period might be put at Rs. 2,400 crores, broken down as follows:—

	(Rs. crores)
Organised industry and mining ..	575
Plantations, electricity undertaking and transport other than railways ..	125
Construction .. .. .	1,000
Agriculture and village and small industries .. .. .	300

<b>Total</b> .. .. .	<b>2,400</b>

The ratio of public to private investment in the Second Plan is 61 : 39 as compared to 50 : 50 envisaged in the First Plan. Investment through the public sector is scheduled to go up 2½ times, and the increase in investment in the private sector is expected to be of the order of 50 per cent.

## TARGETS

The principal targets of production and development to be achieved over the Second Plan period as a result of the investments proposed both in the public and private sectors are set forth below:—

## NATIONAL INCOME

The expected increase in national income (net national product by industrial origin) during the First and Second Plan periods is given in the table below :—

Subject	(in Rs. Crores)			Percentage increase during	
	1950-51	1955-56	1960-61	1951-56	1956-61
1. Agriculture & allied pursuits	4,450	5,230	6,170	18	18

8. Total National Production	9,110	10,800	13,480	18	25
9. Per capita income (Rs.)	254	281	330	11	18

**INCOME, INVESTMENT, SAVINGS, CONSUMPTION**

The following table indicates the broad position in regard to national income, investment, domestic savings and consumption expenditure at the end of the Second Plan period as compared to the position in 1950-51:

(Rs. crores : 1952-53 prices)

	1950-51	1955-56	1960-61
1 National Income	9,110	10,800	13,480
2 Net investment	448	790	1,340
3 Net inflow of foreign resources	(—) 7	34	130
4 Net domestic savings (2 + 3)	455	756	1,310
5 Consumption expenditure (1 - 4)	8,655	10,044	12,170
6 Investment as per cent of National Income (2 as % of 1)	4.94	7.31	10.60
7 Domestic savings as per cent of National Income (4 as % of 1)	4.98	7.00	9.72

Additional employment likely to be generated over the Second Plan period in sectors other than agriculture is estimated at 8 million. In this estimate only full-time employment has been taken into account. There are in the Plan, programmes of development such as irrigation and land reclamation which will

reduce under-employment to some extent and may also absorb new persons.

Altogether in aggregative terms, the Plan envisages a sufficient increase in the demand for labour to match the increase in the labour force amounting to 10 million.

The plans of Part C States together with those for Andaman and Nicobar Islands, N.E.F.A. and Pondicherry are estimated to involve an expenditure of Rs. 125 crores. Measures for additional taxation amounting to Rs. 9 crores over the five-year period have been suggested for Part C States; their estimated receipts by way of loans from the Centre against their collections of small savings are around Rs. 20 crores. The overall position is that the Centre has to finance the entire plans of these States as also of the other areas mentioned above.

A tentative breakdown of the tax measures to be adopted for raising Rs. 225 crores of additional taxation by States is as follows:—

	(Rs. crores)
Land revenue	37.0
Agricultural income-tax	12.0
Betterment levy	16.0
Irrigation rates	11.0
Sales tax	112.0
Electricity duty	6.0
Motor vehicles tax	11.0
Stamp duties and court fees etc.	17.0
Others (mainly local property taxes)	17.0
<b>TOTAL</b>	<b>225.0</b>

The National Development Council has recently constituted a Committee to watch over the progress of developmental projects so as to secure the maximum possible economy and efficiency in their implementation.

**INVESTMENT IN PRIVATE SECTOR**

In addition to the investment programme of Rs. 3,800 crores in the public sector, the requirements by way of investment in the private sector are estimated at Rs. 2,400 crores.

Assuming that external resources of Rs. 1,100 crores would become available over the five-year period, the problem, as stated earlier, is to see that domestic savings rise from about 7 per cent of national income at the beginning of the second plan period to some 10 per cent by the end of the period. This implies a marginal rate of saving of a little over 20 per cent.

The effort involved is by no means excessive. It is, however, necessary to ensure that the investments undertaken are seen through without excessive strain on the economy through price rises and similar distortions, and the issue is essentially one of the adequacy of instruments or policies for getting the desired result.

Broadly speaking, it would appear that considering the fairly high rate of investment already achieved in organised industries and the increasing strength of the capital market, it should not be difficult for them to raise the resources needed for fixed investment. There should be even less difficulty in obtaining working capital to the extent required in view of the deficit financing proposed in the Plan. The State can assist in the fulfilment of the programmes in this sector partly by cutting out undesirable investment through capital issues control, control over exports and imports and licensing of industries; partly through tax adjustments and concessions and in part by way of selective financial assistance through the various corporations which have been set up for the purpose.

**FINANCE AND FOREIGN EXCHANGE**

The following table sets out the scheme of financing the development envisaged in the public sector.

	(Rs. crores)	3. Other budgetary sources	400
1 Surplus from current revenues	800	(a) Railways' contribution to the development programme	150

## REPORT ON FIRST FIVE-YEAR PLAN

The country made "significant progress" both in the agricultural and industrial fields during the First Five-Year Plan period, the Planning Commission said in its review for the period.

Agricultural production, on which more emphasis was laid in the Plan, increased from 50 million tons in the beginning of the Plan to 64.9 million tons at the end of it, registering an increase of 29.8 per cent.

In the industrial field, the results were "highly satisfactory," not merely in terms of utilisation of already available capacity but also in terms of new capacity installed in new and important lines.

The over all increase in industrial production was 38 per cent.

In the textile industry, production of mill cloth went up from 3,718 million yards to 5,102 million yards, an increase of 37.2 per cent; in the bicycle industry, the increase in output was 420 per cent, the number of cycles manufactured at the end of the Plan period being 513,000 as against 97,000 manufactured at the beginning of the Plan.

In the field of social services, the increase in the number of hospitals and dispensaries was "moderate," but a large-scale programme of malaria and filaria control was carried out. The number of children in primary schools rose from 18.7 million to 24.8 million at the end of the Plan period. The annual turn-out of graduate engineers and technical personnel rose from 2,200 to 3,700 and of those taking diplomas from 2,700 to 4,000. More than 14,000 village-level workers and 1,850 supervisory personnel were trained in basic agricultural, co-operation and allied activities under the community development programme.

### UNEMPLOYMENT

On the unemployment situation, the review said that studies undertaken by the Planning Commission indicated that the growth of employment opportunities in the Plan period tended on the whole to lag behind the increase in the labour force. The extent of unemployment and under employment in the country as a whole was thus not likely to have diminished "significantly" over the Plan period as this was a problem rooted structurally in the economy. But there was a "qualitative improvement" in the employment situation in the later stages of the Plan, and indeed, in certain sectors increasing shortages of semi-skilled and technical personnel were felt.

Assessing the overall results of the Plan, the review said national income increased by 17.5 per cent. While this increase had, on the whole, been satisfactory, it had not taken place at a steady pace. There was a large increase in 1953-54 and 1954-55 as a result mainly of the increase in agricultural output. As much as 13 per cent of the increase in the national income was registered by the end of the third year. But in the subsequent two years, the rate of increase diminished and in 1955-56, the increase was nominal.

### PER CAPITA INCOMES

Per capita incomes over the Plan period recorded an increase of 10.5 per cent but by the end of the Plan period the per capita levels of consumption had probably not increased by more than eight per cent. In fact, considering the large step-up in developmental outlays and in investment in the last two years of the Plan, when investment was increasing steadily, no direct relationship between the aggregate investment and rise in the aggregate output for the Plan period as a whole could be established.

The review said national income could not but show fluctuations from year to year in an economy which had a large agricultural sector depending on monsoons. It was certain too that the results of some of the investments made in the Plan period would accrue in later years because of the usual time lag between the starting of an industry and its going into actual production.

The review said it was clear that some of the increases in output, during the Plan period were rather fortuitous and that it would be some time after the base of the economy had been strengthened at several points that a process stable and assured growth could be said to have been initiated.

The investments in the public sector during the Plan period, according to the review fell short of the total provision of Rs 2,386 crores by about 426 crores, despite India's comfortable foreign exchange position then.

As regards investments in the private sector, the review said that the available data indicated that the progress of investment in this section (usually estimated at Rs 233 crores) had been up to initial expectations.

Analysing how the Plan was financed, the review said taxation and railways surplus contributed Rs 752 crores. The Centre alone, by way of additional taxation, raised Rs 175 crores over the Plan period. This was exclusive of export duties. The railways realised Rs 100 crores from increase in fares and freights. But the State Governments raised only Rs 80 crores by additional taxation as against their target of Rs 240 crores. The rest of the Plan outlay was financed as follows (all in Rs. crores): market borrowings 205, small savings and unfunded debt 304, other capital receipts 91, and external assistance 188.

## PROGRESS REPORT OF FIRST YEAR OF SECOND FIVE-YEAR PLAN

A review of the progress of the Second Five-Year Plan, during the first year of its working (1956-57), reveals that although general conditions during this period were not too favourable, the year recorded substantial achievements in some fields and a modest advance on the whole.

There were a number of difficulties encountered during the year, namely, the Suez crisis, upward pressure in internal prices, acute shortage of certain materials like steel and cement and the running down, at a disquieting pace, of foreign exchange assets.

### AGRICULTURAL PROGRAMMES

According to the food production programmes, an addition in production potential of about 2.5 million tons was expected to be realised in 1956-57. Actual increase in production is estimated to be of the order of 1.4 million tons, the total food production in 1956-57 being about 66.2 million tons as compared to 64.8 million tons in 1955-56. While the production of rice and wheat compared to 1955-56 is higher by 1.3 million and 0.3 million tons respectively, production of coarse grains has not shown any increase and that of pulses has gone down by about 0.2 million tons.

In regard to commercial crops, the position is somewhat better. Production of oilseeds was 5.89 million tons as against 5.66 tons in 1955-56; production of cotton is estimated at 48 lakh bales i.e., about 8 lakh bales higher than in the previous year; production of sugarcane (gur) estimated at 0.3 million tons shows an increase of 0.4 million tons over the level of 1955-56 and the output of jute is fractionally higher at 42.21 lakh bales as compared to 41.97 lakh bales in the previous year.

During 1956-57, sanctions were issued for the establishment of 475 seed farms of 25 acres each, 14.5 lakh acres were brought under the Japanese method of paddy cultivation by the end of 1956 against a target of 20 lakh acres for 1956-57, 6.75 lakh tons of ammonium sulphate and 1 lakh tons of super-phosphate were expected to be utilised in 1956 as compared to 5 lakh tons and 78,000 tons respectively in 1955 and land reclamation operations were carried out by the Central Tractor Organisation over an area of 87,000 acres of kans and jungle land.

### COMMUNITY PROJECTS

According to the phasing of this programme, it was proposed to allot 500 N.E.S. Blocks in 1956-57, besides continuing developmental work in projects and blocks taken up during the first five year plan which had not yet completed their scheduled period of operation. The programme has progressed more or less according to schedule and 495 N.E.S. Blocks covering 49,600 villages and a population of 32.7 million were allotted during the year. In addition, 250 Community Development Blocks were converted from N.E.S. Blocks, covering 35,752 villages and a population of 18.3 million. The first 55 Community Projects and 53 Community Development Blocks which were started in October, 1952 and in October, 1953 respectively completed their allotted period in October, 1956. The uncompleted works in these projects/blocks on that date were, however, allowed to be continued up to March 31, 1957 within the available savings.

### IRRIGATION AND POWER

An additional area of about 1.5 million acres is estimated to have been irrigated in 1956-57

from large and medium works and another 1.6 million acres through the construction of minor irrigation works. About 90 large and medium projects were expected to be completed during the year.

The Hirakud project was formally inaugurated in January 1957 and irrigation water was let into the channels in September 1956. The first generator set of 24,000 kW. was commissioned in December, 1956. The area commanded by the Hirakud canal system at the end of March 1957 was 157,000 acres. All the 2,650 tubewells, the construction of which was sponsored by the Government of India under the Indo-American Technical Assistance Programme are ready for irrigation and the programme for the construction of the additional 1,100 tubewells started with G.M.F. assistance in 1954-55 would be completed during the latter half of 1957.

Against a target of 308,500 kW. for 1956-57, installed capacity for generation of power was increased by about 260,000 kW. thus raising the total installed capacity to 3.66 million kW. at the end of 1956-57. Schemes of small town and rural electrification were expected to cover an additional 2,000 towns and villages during the year, raising the total number of electrified towns and villages to about 9,400 at the end of the year.

The more important factors affecting the progress of the irrigation and power projects during the year were shortages of technical personnel in some of the States, the foreign exchange position and the scarcities of essential materials like cement and steel.

## INDUSTRY AND MINERALS

Production in all the principal organised industries (barring aluminium and vanaspathi) was higher in 1956 as compared to 1955 and the revised index of industrial production recorded an increase from 122.1 to 132.7. The output of radio receivers was higher by 80 per cent. In bicycles, automobiles, electric motors, transformers and power driven pumps, the increase in production ranged from 33 to 60 per cent. Eight other industries including cement, sugar and diesel engines recorded increases in production varying from 10 to 25 per cent.

Production of cement stood at 4.9 million tons in 1956-57 compared to 4.5 million tons, and that of sugar at 1.95 million tons as compared to 1.61 million tons in the previous year. Production of finished steel at 1.31 million tons showed an increase of a little over 4 per cent and that of cotton cloth (mill made) at 5,281 million yards of a little less than 4 per cent. In tanned hides and footwear the increase was of the order of 5 per cent; in tea the increase was negligible.

Among the new items produced in the country for the first time were portable electric drills, shock absorbers, clutch discs, brake lining, hydrogen peroxide, capstan lathes 1<sup>st</sup> capacity, salicylic acid, jade green vat dyes, ferro-manganese by electric smelting process and zinc strips for dry batteries.

Levels of output in industrial undertakings in the public sector were also generally higher than in 1955, e.g., in locomotives, integral coaches, D.D.T., penicillin, newsprint, cables and mechanic tools.

Production of coal increased in 1956-57 by about 1.2 million tons from 38.2 million tons in 1955 to 39.4 million tons in 1956 as against an estimate of additional production of 2 million tons. Production from State collieries increased by 0.2 million tons and that from private collieries by one million tons. The shortfall in production was mainly due to floods and the effects of a prolonged strike in the Raniganj coalfield.

Work was started during the year for the prospecting of new areas in the public sector and the availability of 86.4 million tons in Kobra, 100 million tons in South Karanpura and about 40 million tons in other areas has been proved. Preliminary steps for the development of the Kobra coalfields were taken during the year.

Geological and geophysical investigations for oil and natural gas were continued during the year in Jaisalmer, Punjab and Cambay.

## VILLAGE AND SMALL SCALE INDUSTRIES

Handloom production from mill yarn rose from 1,473 million yards in 1955 to 1,541 million yards in 1956, showing an increase of 68 million yards as against the five year target of 700 million yards. Installation of powerlooms in the handloom sector also fell short of expectations, and against 15,000 powerlooms proposed to be installed during 1956-57, sanctions were issued for only 7,281 powerlooms. The production of Khadi (both traditional and Ambar) was estimated to have increased by about 10 million square yards, from 25.4 million square yards in 1955-56 to 34.5 million square yards in 1956-57, against the five-year target of 300 million yards of cloth to be produced from Ambar Charkha yarn. Compared to the sanctioned programme for the manufacture and introduction of 75,000 Ambar Charkhas in 1956-57, over 60,000 Ambar Charkhas were introduced by the end of the year.

Work for the development of village industries, was expanded and 15 new areas were selected for intensive development. Steps were taken to develop small scale industries as ancillaries to the large industries and work on 10 new industrial estates was begun during the year.

## TRANSPORT

During 1956-57, 87 miles of new railway lines were opened to traffic and at the end of the year construction of 524 miles of new lines was in

progress. Work was also in progress on nearly 700 miles of doublings of which about 370 miles are on the South-Eastern Railway, 116 miles on the Western Railway and 78 miles on the Southern Railway. Approved surveys totalled 2,800 miles during 1956-57, of which field work on nearly 2,000 miles was in progress. As regards procurement of rolling stock, orders were placed during 1956-57 for 557 locomotives, 1,931 carriages and 27,184 wagons (in terms of four wheelers). Expansion and modernisation of the existing workshops as well as the establishment of new workshops was also taken in hand to cope with the repair work of the increased rolling stock.

Difficulties in implementing the programmes were due to the shortage of vital stores like steel and cement and also rails, sleepers, points and crossings.

The national highways (roads) programme has made satisfactory progress and 150 miles of missing links and diversions and 7 major bridges, improvement of about 800 miles of existing sections and the widening of about 300 miles of improved sections to two-lane carriage-way were substantially achieved.

The Western tube of the new Bandhal Tunnel on the Jammu-Srinagar section of National Highway No. 1A was opened to limited traffic in December, 1956. This has made all-weather road communication possible for the first time between the Kashmir Valley and the rest of India throughout the year. About 56 miles of Inter-State roads and roads of economic importance were also constructed upto the end of November, 1956 compared to a target of 200 miles, and 647 miles of existing roads were improved against a target of 400 miles.

Commitments for almost the entire amount provided in the Second Five-Year Plan for increasing Indian tonnage in shipping have already been made. Because of the rise in the cost of ships, the total additional tonnage likely to be acquired as a result of these commitments is estimated at 180,000 GRT as against the Plan target of 391,000 GRT (including obsolescence). The increase in tonnage during 1956 was 44,000 GRT and by the end of 1956, Indian tonnage had increased to 517,000 GRT.

The programme for civil air transport has progressed according to schedule. During 1956-57, the Air India International Corporation received 3 Super Constellations and placed an order for 3 Boeing Jet Aircraft. The Indian Airlines Corporation placed an order during 1956-57 for 5 Vickers Viscounts for operation on main trunk and important routes.

## TRAINING AND RESEARCH

Requirements of technical personnel, immediate as well as long-term, received greater attention during the year and steps were taken to provide machinery for manpower planning at the Centre and to some extent in the States.

Steps were also taken during the year to implement the recommendations of the Engineering personnel Committee for the expansion of the training facilities. Special arrangements were made for the training of technicians required for the three steel plants. In other fields also, including craftsmen's training, attention was focussed on the need for drawing up and implementing the training programmes so as to meet immediate and long-term needs.

A notable event during the year was the installation of India's first atomic reactor of the swimming pool type. Work on the Canada-India reactor made satisfactory progress.

A Panel of Scientists was constituted in 1956-57 to advise and assist the Planning Commission in co-ordinating the programme of scientific and technological research and study from the standpoint of national development. Follow-up action on the recommendations adopted at the first meeting of the Panel is being taken.

Fifty-two out of 69 schemes of economic and social research sponsored by the Research Programmes Committee were completed by

the end of 1956-57; 2 reports were published and 8 are in the press. A revised programme of research on problems of planned development during the Second Five Year Plan was adopted by the Committee.

## ESTIMATED OUTLAY AND RESOURCES

The revised estimates of outlay on the plan furnished by the reorganised States and those of the Union territories for 1956-57 are up to about Rs. 391 crores.

The revised estimates of the Central Ministries total upto about Rs. 370 crores.

Thus the outlay on the Plan, according to the revised estimates, comes to about Rs. 761 crores, Rs. 370 crores at the Centre and Rs. 391 crores in the States. Data on the actuals are not yet available.

The distribution by major heads of development was as follows:—

Head	Rs. crores	
	Budget	Revised
Agriculture and Community Development ..	108	93
Irrigation and Power ..	181	170
Industry and Mining ..	121	111
Transport and Communications ..	247	233
Social Services ..	143	123
Miscellaneous ..	30	22
Total ..	830	761

On the basis of the revised estimates, the pattern of financing the Plan outlay of Rs. 761 crores is shown below:—

	Rs. crores
Outlay on the Plan ..	761.0
Domestic Budgetary Resources ..	427.2
External Assistance ..	63.1
Total Resources ..	490.3
Gap in Resources ..	270.7

Of the total resources raised from domestic budgetary sources, Rs. 326.7 crores were raised at the Centre and Rs. 100.5 crores in the States.

The Central Government's contribution for the Plan from current revenues works out at Rs. 102 crores. Of this, about Rs. 53 crores is accounted for by the measures of additional taxation adopted in 1956-57. The contribution of the railways from their current earnings towards the financing of their development programme is estimated at about Rs. 42 crores. Thus, the total contribution at the Centre from current revenues is estimated at about Rs. 144 crores.

Net borrowings of the Central Government from the market are estimated at Rs. 78.1 crores. Gross receipts from loans floated during the year exceeded the budget estimate of Rs. 100.6 crores by about Rs. 57 crores, but because of the option given for conversion of the loan maturing in 1957-58, the cash subscriptions turned out to be considerably lower than envisaged in the budget.

The Centre's share in collections under small savings is estimated at Rs. 45.3 crores. The total collections are placed at about 64.6 crores, which is about 1.05 crores less than the actuals for the previous year. Under "other heads", net receipts are estimated at about Rs. 42 crores.

Taking into account the external assistance of about Rs. 63 crores, the total resources available at the Centre work out at Rs. 390 crores as against the estimated plan outlay of Rs. 370 crores. Allowing for assistance to States of Rs. 235.5 crores, the Centre's deficit is estimated at about Rs. 216 crores.

On the whole, the total contribution of the State Governments towards the financing of the estimated plan outlay of Rs. 391 crores works out at about Rs. 100 crores.

Information about progress in the social services (education, health, housing, social welfare) was not available at the time the book went to press.

# J. B. ADVANI & CO. PRIVATE LTD.

Established 1908.

## HEAD OFFICE : BOMBAY.

IN 1908, three intimate friends, Kanwalsing Pohumal, Vasanmal Kishenchand and Jotsing Harising, formed themselves into a Company called J. B. Advani & Company with a view to specializing in the import of Paper and Printing Materials. This Concern was the first of its kind in Sind. The pioneers, who envisaged a great future for this line of business, opened an office in Karachi. In a very short time their confidence was justified and the venture became a huge success. The markets within reach having been tapped to the fullest extent, a Branch was opened in Bombay in 1921. In spite of the very keen competition that usually prevails in Bombay, which is the premier and largest paper market in India, the Company very soon became one of the leading firms in the line with its business growing in volume from year to year.

In 1925, the original owners of the Company decided to convert their firm into a Private Limited Company—J. B. Advani & Co. Ltd.—with a capital of Rs. 6,00,000.

In 1925, the management began to explore the Punjab market more energetically with a view to developing the business handled by the Head Office at Karachi and a Branch was accordingly opened in Lahore. This was followed by the opening of a Branch in Madras in 1927, which has made steady progress year by year. Three years later, a Branch was opened, this time in Calcutta. Branches have since been opened in Delhi, Jullundur and Cochin.

With its network of branches in all the important centres in India, J. B. Advani & Co. Ltd. today reaches every notable consuming centre in India.

The Company has a Paid-up Capital of Rs. 30,00,000. Besides, it has the substantial backing of its partners, and the Working Capital is actually in the vicinity of Rs. 75,00,000. The Company, with its branches, is one of the largest importers of paper in India with a turnover of Rs. 1,25,00,000 per annum. It deals in all grades of paper, printing machinery and materials and is open to take up representation of Indian and foreign Mills. The Company has now taken in hand export business of Indian products.

In partnership with Messrs. Lorilleux & Bolton Ltd., London, famous manufacturers of Printing Inks, some of the Directors have started a Printing Ink factory at BHANDUP (Central Rly.) near Bombay. The factory has started production from September 1951. With large number of Mills going into full production at the factory, they can meet the entire requirements of Printing Inks of various types required in India. The concern is known as J. B. A. PRINTING INKS PRIVATE LIMITED.

Another enterprise with which they are associated is one for the manufacture of Welding Electrodes, probably the first major attempt in this field of industry in India. In partnership with Messrs. Buehrle & Co., Switzerland, the world famous manufacturers of Welding Electrodes, a new company has been floated under the name of J. B. ADVANI-OERLIKON ELECTRODES PRIVATE LTD. With an up-to-date factory and most modern production line, this factory, situated at BHANDUP (Central Rly.), Greater Bombay, is producing now some of the best Welding Electrodes in the world. They have amongst their patrons, Government, Railways, Shipyards, and Great Steel fabricators of India.

A third enterprise with which they are connected is one for the manufacture of Drinking Straws and Waterproof Kraft Paper. They have up-to-date machinery for the manufacture of these products in India on a very large scale. The leading Aerated Water manufacturers in India are patronising the Drinking Straws and the leading Textile Mills all over India are using the Waterproof Kraft manufactured in Bhandup. A new company has been floated under the name of IDEAL WRAPPERS PRIVATE LTD and the factory is situated at Bhandup (Central Rly.), Greater Bombay.

## W. H. BRADY &

**T**HE foundations of this famous House were laid in 1895 in Bruce Lane, Bombay, when the late Mr. W. H. Brady in partnership with the late Mr. J. F. Bradbury commenced business as Machinery Agents and Importers, and Advisers on all technical matters relating to the Cotton Textile Industry.

The period was one in which Cotton Mills were on the increase and as Mr. Brady and Mr. Bradbury were two of the best known Mill Managers of the time, their practical experience and expert knowledge of mill management and machinery helped considerably towards the firm's progress.

Within a decade, Bradbury Brady & Co. (as the firm was then styled) had extended its activities far beyond its initial business of machinery importers, for in 1900 the Empire Dye Works was started and in 1901 it took up the agency of the Colaba Land & Mill Company. This was rapidly followed by the agencies of the New City of Bombay Mills, the New Great Eastern Mills, the Sun Mill (now Dhanraj Mills) and the Bradbury Mills.

In 1912 however, a change was made when Mr. Bradbury (in Partnership with Mr. Knowles) restricted his business to the agencies of these Mills under the style of Bradbury & Co., while Mr. Brady started an independent business as a Machinery Agent (with Mr. Kay, Mr. Lakin and Mr. Johnson as junior partners) under the style of W. H. Brady & Co.

In 1913, the latter firm was converted into a private limited liability company under the name and style of W. H. Brady & Co., Ltd., with its Head Office in Bombay. Three years later, on the death of Mr. Bradbury, it took over the agencies of the Empire Dye Works, the New City of Bombay Manufacturing Co., Ltd., the New Great Eastern Spinning and Weaving Co., Ltd., and the Colaba Land & Mill Co., Ltd.

On the retirement of Mr. Brady in 1922, Sir Joseph Kay became Managing Director of the firm and its progress under his management has been considerable. In 1928 the capital was increased and the Company commenced to operate on the joint stock principle without any restrictions on its shares. Today, the operations of the concern cover an extremely wide field, for in addition to its long established textile associations, it has extended its activities over other classes of industry such as Sugar, Engineering, Printing, Insurance, etc.

Associated with the Managing Director is a body of wholtime Technical Advisers, namely, Mr. J. Symon, Mr. F. Edwards, Mr. R. S. Smith and Mr. E. F. Morrey, while from time to time, branches have been established in other parts of India until the Company now has offices in Calcutta, Madras, Kanpur, Ahmedabad, Coimbatore, Delhi and Manchester (England).

**TEXTILES.**—The Company has a very large Textile Machinery Import Department which carries comprehensive stocks of the manufactures of a number of British and American firms. These firms are recognised everywhere as makers of the highest repute and amongst them may be mentioned—The British Northrop Loom Co., Ltd., Lang Bridge Ltd., Wm. Tatham Ltd. (who have a world-wide reputation for Carding and Spinning machinery for cotton waste and wool), Universal Winding Company (Patentees of the famous Leeson Winding Machines), H. Brinton Co., Hugh Kershaw & Sons Ltd., Cocker Machine & Foundry Co., Cook & Co. (Manchester) Ltd., Samuel O'Neill & Sons Ltd., Small & Parkes Ltd., F. E. Rudman & Co., Ltd., Tragasol Products, Ltd., etc., etc.

# COMPANY, LIMITED

The Textile Department is also keenly alive to all changes which constantly take place in the manufacture of Cotton and Silk goods. It is always ready to advise on these changes, suggest up-to-date systems, and to supply machinery in conformity with them.

Being closely associated for more than fifty years with the Cotton Textile Trade in India, the Company has undertaken from time to time, many large contracts and in several cases has executed orders for complete Cotton and Woollen Mills to the entire satisfaction of the purchasers.

In addition to the vast textile machinery business the Company is also directly connected with the Textile Trade in its capacity of Managing Agents for the New City of Bombay Mfg. Co., Ltd., the Empire Dyeing & Mfg. Co., Ltd., and the New Great Eastern Spg. & Wvg. Co., Ltd.

**ENGINEERING.**—The Company has a very large general Engineering Department. It carries comprehensive stocks of the manufactures of a number of British Firms, amongst whom may be mentioned Herbert Morris Ltd., The Renold Chains Ltd., Hopkinsons Ltd., Geo. Kent Ltd., The Andrew Machine Construction Co., Ltd., G. & J. Weir Ltd., Davidson & Co., Ltd., Norris Henty & Gardners Ltd., Dicks Asbestos & Insulating Co., Ltd., Ashworth & Parker Ltd., Hick Harveaves & Co., Ltd., Thos. Broadbent & Sons Ltd., Hoffmann Sprinkler Co., Ltd., etc., etc.

In keeping with the development of the Engineering Industry in India, a company under the name of The Brady Engineering Co., Ltd., was formed in 1946 with the object of manufacturing wholly or partially, under licence from their various Principals, such goods as have been imported in the past but which could be readily manufactured in this country.

**SUGAR.**—In their General Department Messrs. W. H. Brady control the management of The Belapur Co., Ltd. This pioneer Company is not only one of the largest of its kind, but has recently erected a new factory which is the most up-to-date in India and is capable of crushing 1,000 tons of cane per day.

It manufactures pure Indian sugar by modern methods from cane which is grown entirely on its own estate.

**PRINTING.**—Messrs. W. H. Brady control the well-known Caxton Press (G. Claridge & Co., Ltd.) which undertakes all kinds of Printing, Lithography, Die-Stamping, Bookbinding, etc.

**INSURANCE.**—Insurance is another important line of business with which the Company has been connected for a considerable number of years. The Company acts as Principal Agents of first class British and Indian Insurance Companies, and are always in a position to give advice on, and transact practically all classes of Insurance business with the sole exception of life.

**OTHER INTERESTS.**—The Company handles several important agencies for goods which are consumed on a very large scale in India, and has built up an extensive connection for its imports of such proprietary articles as Nicholson Files, Nettlefold Screws, Signode Steel Strapping, etc.

**CONCLUSION.**—In a brief resume of the Company's operations it is impossible to enumerate a complete list of firms for whom they act as representatives, but Messrs. W. H. Brady are well-known to be a live and progressive House, staffed with experts in each branch, and possessing close connections with the Textile Trade, Engineering, the Sugar Industry, Insurance, and manifold other interests.

A Picturesque Container is source of delight on sight. It is the admiration-on-sight that creates liking for any Product. Do you know that Lithography on Metal is a skilled Art, needing perfect co-ordination right from designing to Printing? It is not enough that a container is printed; it should bear the seal of artistic sense—technical knowledge—in final outcome.

SHETH SHOORJI VALLABHDASS had established his reputation as a leading businessman in Colour, Chemicals and Kariana in India for more than fifty years. In 1937, he turned his attention to Shipping. Many adventurous Indians had failed in the Line in the face of unhealthy foreign competition. But through a deep study of the problem, great perseverance, insight and tact, Sheth Shoorjibhai made his mark in the field and was at the helm of three prosperous Indian Shipping Companies, viz. The Malabar Steamship Co. Ltd., The New Dholera Steamships Ltd., and The National Steamship Co. Ltd. He was the first Indian to ply his vessels on the Chinese Coast in 1938-39. The regular sailings in Yellow Sea were terminated on account of the seizure of two vessels by Japanese during the hostilities between China and Japan. The above companies are now again entering into the overseas trade. In addition to their coastal trade, their vessels are at present catering to Burma-Ceylon-India trade and occasionally run a tramping service for importing Government Cargoes. The present fleet consists of 8 vessels of a total 44,575 tons deadweight. The companies according to their expansion programme, intend adding six vessels in the next Five-Year Plan: two vessels are being built by Hindustan Shipyard Ltd., Visakhapatnam, the two by Societe d'Exploitation des Chantiers Navals de Bruges, Belgium Yard and for the two vessels negotiations are in progress.

In addition to three Shipping Companies, Sheth Shoorji Vallabhdass also organised the New Dholera Shipping & Trading Co. Ltd., a company doing stevedore work and the Shoorji Vallabhdass Swadeshi Bazar Private Ltd. under the auspices of which pure Ayurvedic medicines are prepared and sold to the public at cheap rates.

These concerns are managed by his sons Pratapsinh, Vikramsinh and Dilipsinh, who have received high university education and had the benefit of commercial training under Sheth Shoorjibhai.

# THE MYSORE INDUSTRIAL & TESTING LABORATORY, LTD.,

## MALLESWARAM, BANGALORE 3.

(Successors to Mysore Government Industrial & Testing Laboratory).

Authorised Capital .. .. .	Rs. 30,00,000.
Issued & Subscribed Capital .. ..	Rs. 15,00,000.
Called and Paid-up Capital .. ..	Rs. 9,37,500.
Share Capital contributed by the Government of Mysore .. .. .	Rs. 3,75,000.

**Chairman :** The Director of Medical Services to the Government of Mysore (Ex-officio Government Director.)

**Managing Director :** Dr. M Sivaram, B.A., M.B.B.S. (Government Director).

**Secretary :** N. Venkatanagappa, M.A., Dip.-in-Com.

**General Manager :** S. G. Sastry (Jr.), B.A., B.Sc.

In pursuance of their policy to transfer Industrial Concerns started by them to private enterprise, after they had been established on a sound basis, the Government of Mysore sponsored the establishment of THE MYSORE INDUSTRIAL & TESTING LABORATORY, LTD., for the purpose of handing over as a running concern, the Government Industrial & Testing Laboratory—a Concern started by them in 1931 for the manufacture of Pharmaceutical Preparations.

In so doing the Government initiated a new policy of working this Industrial Concern of theirs jointly with the public. The Government of Mysore continue to be interested in the Concern as part owners in that 25 per cent of the shares are held by them. The Government have also the right of nominating three of their representatives as Directors on the Board of Management. One of these Government Directors is also appointed by them as Chairman of the Company. The Director of Medical Services in Mysore and the Director of Public Health in Mysore are *ex-officio* representatives of the Government on the Board of Management.

The Laboratory is well equipped for the work it is intended to do, with up-to-date machinery, chemical plants designed for highly specialised work, and a fully equipped Chemical Control Laboratory. Highly qualified chemists and trained skilled workers are in charge of all manufacturing operations.

The Laboratory has made rapid progress within the past few years and expanded the lines of manufacture such as galenicals, medicinal specialities (like Vioferrin, Gripe Syrup, Sedatin, Iteol-3, etc.) fine chemicals (like Citrates, Acetates, Amyl Alcohol, Amyl Nitrate, Methanol-G.R., etc.) glandular extract (like Reticulin brand Liver Extract) and injectables. THE PLANT FOR MANUFACTURE OF MALT EXTRACT ON A LARGE SCALE HAS GONE INTO PRODUCTION RECENTLY.

The Company enjoys the exclusive privilege of supplying its products to State Hospitals, Medical Stores and other Departments of the Government of Mysore.

The I.T.L. Brand Pharmaceutical preparations are popular with the medical profession all over South India.

With the facilities made available by the Government of Mysore to expand its activities, the Laboratory has been endeavouring to maintain high standards and render greater service in the cause of National Public Health.

***are you  
paying more  
for your  
luggage...?***

It may be that you are one of those who cannot travel light without doing violence to your nature. But are you sure that you're not paying more for your luggage? Your railway ticket buys you some space inside a compartment. By putting in a lot of heavy luggage you cut down space for yourself and lose something that you have paid for. Get the full value of your railway ticket by making more room for yourself in the compartment—put your heavy luggage in the brake van. It costs you the same and it's safer, too.

# Chequerboard of the East

So many races . . . so many needs . . . so many markets extending over a vast area of the earth's surface. And there The Chartered Bank operates with knowledge and experience sustained by more than a century of close and intimate contact. Branches of The Chartered Bank are established in most centres of commercial importance throughout Southern and South-East Asia and the Far East. At all these branches a complete banking service is available and, in particular, facilities are provided for the financing of international trade in co-operation with the Bank's offices in London, Manchester and Liverpool, its agencies in New York and Hamburg and a world-wide range of banking correspondents. In London and Singapore the Bank is prepared to act as executor or trustee
